Notifications by the Dewan to His Highness the Maharaja of Mysore.

GENERAL.

NOTIFICATIONS.

The 17th June 1887.

No. 36.—It is hereby notified for general information that the Government of His Highness the Maharaja of Mysore is pleased to direct that the rules, under which parties transferring landed property in the Madras Presidency may, through the officers registering under the Registration Act the instruments connected therewith, have the revenue registry of the transfer effected, shall come into force in Mysore on and after the 15th June 1887.

2. The rules with the modifications rendered necessary by local circumstances are as follows:—

(1) In every case of absolute transfer of landed property by a deed of conveyance or of transfer of possession by any other kind of instrument intended to be registered in an office of Registration of Assurances, it is the duty of the Registrar or the Sub-Registrar, before registering the document, to ask the parties to the instrument whether they consent to the transfer of revenue registry of the land conveyed or transferred, and if they consent, he should, after registering the document, cause them to execute before him an application to the Revenue authorities in the appended form, and should transmit it after execution to the Amildars of the Taluk in which the land is situated. The Amildar should accept the application as

proof of the consent of the parties in the same manner as if the application had been personally made before him, and should give effect to it at once as far as the particulars of holdings given are found to be correct.

Form of Application

No. 47.—It is hereby notified for public information that the undermentioned jodi village, which has been duly attached in satisfaction of the arrears of revenue due to Government (as shown in the subjoined statement) by the said joddars, will be sold by public auction at the place and on the date mentioned in the annexed statement. The sale will commence at 11 A. M. on the date specified, and the village will be knocked down to the highest bidder without reserve.

2. Provided that when a village is divided into separate recognized vrittis, the Deputy Commissioner may, at his option, instead of selling the village as a whole, sell each vritti separately.

3. The purchaser will be required to deposit 25 per cent of the purchase money at the time of sale, and where the remainder of the purchase money may not be paid within fifteen days from the day of sale, the money so deposited shall be liable to forfeiture.

4. When such deposit shall not be made, nor the remaining purchase money paid up, the lands shall be resold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case to deposit a written authority signed by their principals, otherwise their bids may be rejected.

6. The sale shall be stayed, if the defaulter or any other person acting on his behalf or claiming an interest in the land, tenders the full amount of the arrears of the revenue with the interest and other charges, provided such tender be made before sunset on the day previous to that appointed for the sale.

7. The sale of the property will not become absolute until the sale has been confirmed by the Dewan.

8. Purchasers having completed the payment of the purchase money will, as soon as the sale has been confirmed by the Dewan, be placed in immediate possession and the village will be registered in the name of the purchaser, and a certificate of sale signed and sealed by the Deputy Commissioner will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent

9. Provided parties deeming themselves aggrieved by the sale shall be at liberty to appeal to the Dewan within 30 days from the day of sale, and the purchase shall be conditional on the final order in such appeal.

No 55.—It is hereby notified for public information that the undermentioned Jodi villages, which have been duly attached in satisfaction of the arrears of revenue due to Government (as shown in the subjoined statement) by the said jodidars, will be sold by public auction at the places and on the dates mentioned in the annexed statement. The sale will commence at 11 A. M. on the dates specified, and the villages will be knocked down to the highest bidder without reserve.

2. Provided that when a village is divided into separate recognized vrittis, the Deputy Commissioner may at his option, instead of selling the village as a whole, sell each vritti separately.

3. The purchaser will be required to deposit 25 per cent of the purchase money at the time of sale, and where the remainder of the purchase money may not be paid within fifteen days from the day of sale, the money so deposited shall be liable to forfeiture.

4. When such deposit shall not be made nor the remaining purchase money paid up, the lands shall be resold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case to deposit a written authority signed by their principals, otherwise their bids may be rejected.

6. The sale shall be stayed, if the defaulter or any other person acting on his behalf or claiming an interest in the land, tenders the full amount of the arrears of the revenue with the interest and other charges, provided such tender be made before sunset on the day previous to that appointed for the sale.

7. The sale of the property will not become absolute until the sale has been confirmed by the Dewan.

8. Purchasers having completed the payment of the purchase money will, as soon as the sale has been confirmed by the Dewan, be placed in immediate possession, and the village will be registered in the name of the purchaser, and a certificate of sale signed and sealed by the Deputy Commissioner will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent.

9. Provided parties deeming themselves aggrieved by the sale shall be at liberty to appeal to the Dewan within 30 days from the day of sale, and the purchase shall be conditional on the final order in such appeal.

(3) The Matriculation Examination, together with the test in Hand-writing prescribed by G. O., 31st July 1880, No. [illegible], Educational Department.
(4) Any of the Special Tests in the regular way.
(5) The First Examination in Arts.

9. Test III-A—Revenue, General—*Higher Grade*,—is open only to persons who have passed the First in Arts Examination of an Indian University, and to persons who have been in the continuous service of Government since 10th July 1884.

10. Candidates for the Revenue Test, General,—Higher or Lower Grade,—will be examined in the *Account Code* also, the temporary concession allowed last year having been withdrawn.

11. Candidates for the Account Test VI must state distinctly whether they wish to qualify for the post of Accountant in Collectors' Offices or in other offices.

12. Candidates coming up for one or more tests at the same time under General Rule I will submit a single application for all such tests. As notified under date the 3rd September 1873, no candidate will be permitted to take up any of the Judicial Tests together with Test III (Revenue) in either grade.

13. Candidates for the Account Test may come up for the Translation Test, Lower Grade, as well as for the Précis Test at the same time.

14. Candidates will not be allowed to appear for examination in Tests I-A, II-A, III-A, I-B, V, and VI in a vernacular language, unless specially permitted by an order of Government to do so. In the latter case, candidates should quote in their applications the date and number of such order, and they are required to fill in their applications in their vernacular as well as in English.

15. Candidates in the Police Department who may apply for examination in the judicial portion of the "Police Test" alone should submit their applications through the office of the Inspector-General of Police. Candidates for this test must have previously passed in departmental subjects, and will be required to pay a fee of Rupees three.

16. Persons other than those actually employed in the Salt Department may also appear for any of the Salt Tests, provided they produce a recommendation from an officer of that department not inferior in rank to an Assistant Commissioner.

17. Candidates should write their names, their father's names, and their house names distinctly and in full in their applications and give their addresses in full also. Applications defective in any particular will be returned.

18. Candidates will not be admitted to the examination at any centre other than that named in their applications, nor will they be allowed to name any centre for their examination but one of those mentioned in paragraph 1 of this notification

GENERAL.

NOTIFICATIONS.

The 2nd July 1887.

No. 47.—It is hereby notified for public information that the undermentioned jodi village, which has been duly attached in satisfaction of the arrears of revenue due to Government (as shown in the subjoined statement) by the said jodidars, will be sold by public auction at the place and on the date mentioned in the annexed statement. The sale will commence at 11 A. M. on the date specified, and the village will be knocked down to the highest bidder without reserve.

2. It is ruled that when a village is divided into separate recognized vrittis, the Deputy Commissioner may, at his option, instead of selling the village as a whole, sell each vritti separately.

3. The purchaser will be required to deposit 25 per cent of the purchase money at the time of sale, and when the remainder of the purchase money may not be paid within fifteen days from the day of sale, the money so deposited shall be liable to forfeiture.

4. When such deposit shall not be made, nor the remaining purchase money paid up, the lands shall be resold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case to deposit a written authority signed by their principals, otherwise their bids may be rejected.

33

6. The sale shall be stayed, if the defaulter or any other person acting on his behalf or claiming an interest in the land, tenders the full amount of the arrears of the revenue with the interest and other charges, provided such tender be made before sunset on the day previous to that appointed for the sale.

7. The sale of the property will not become absolute until the sale has been confirmed by the Dewan.

8. Purchasers having completed the payment of the purchase money will, as soon as the sale has been confirmed by the Dewan, be placed in immediate possession and the village will be registered in the name of the purchaser, and a certificate of sale signed and sealed by the Deputy Commissioner will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent

9. Provided parties deeming themselves aggrieved by the sale shall be at liberty to appeal to the Dewan within 30 days from the day of sale, and the purchase shall be conditional on the final order in such appeal.

GENERAL.

NOTIFICATIONS.

The 12th July 1887.

No. 55.—It is hereby notified for public information that the undermentioned Jodi villages which have been duly attached in satisfaction of the arrears of revenue due to Government (as shown in the subjoined statement) by the said joddars, will be sold by public auction at the places and on the dates mentioned in the annexed statement. The sale will commence at 11 A. M. on the dates specified, and the villages will be knocked down to the highest bidder without reserve.

2. Provided that when a village is divided into several recognized vrittis, the Deputy Commissioner may at his option, instead of selling the village as a whole, sell each vritti separately.

3. The purchaser will be required to deposit 25 per cent of the purchase money at the time of sale, and where the remainder of the purchase money may not be paid within fifteen days from the day of sale, the money so deposited shall be liable to forfeiture.

4. When such deposit shall not be made or the remaining purchase money paid up, the lands shall be resold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account or, as agents, and in the latter case to deposit a written authority signed by their principals, otherwise their bids may be rejected.

39

6. The sale shall be stayed, if the defaulter or any other person acting on his behalf or claiming an interest in the land, tenders the full amount of the arrears of the revenue with the interest and other charges, provided such tender be made before sunset on the day previous to that appointed for the sale.

7. The sale of the property will not become absolute until the sale has been confirmed by the Dewan.

8. Purchasers having completed the payment of the purchase money will, as soon as the sale has been confirmed by the Dewan, be placed in immediate possession, and the village will be registered in the name of the purchaser, and a certificate of sale signed and sealed by the Deputy Commissioner will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent.

9. Provided parties deeming themselves aggrieved by the sale shall be at liberty to appeal to the Dewan within 30 days from the day of sale, and the purchase shall be conditional on the final order in such appeal.

(3) The Matriculation Examination, together with the test in Hand-writing prescribed by G. O., 31st July 1880, No. 290, Educational Department.
(4) Any of the Special Tests in the regular way.
(5) The First Examination in Arts.

9. Test III-A—Revenue, General—*Higher Grade*,—is open only to persons who have passed the First in Arts Examination of an Indian University, and to persons who have been in the continuous service of Government since 10th July 1884.

10. Candidates for the Revenue Test, General,—Higher or Lower Grade,—will be examined in the *Account Code* also, the temporary concession allowed last year having been withdrawn.

11. Candidates for the Account Test VI must state distinctly whether they wish to qualify for the post of Accountant in Collectors' Offices or in other offices.

12. Candidates coming up for one or more tests at the same time under General Rule I will submit a single application for all such tests. As notified under date the 3rd September 1873, no candidate will be permitted to take up any of the Judicial Tests together with Test III (Revenue) in either grade.

13. Candidates for the Account Test may come up for the Translation Test, Lower Grade, as well as for the Précis Test at the same time.

14. Candidates will not be allowed to appear for examination in Tests I-A, II-A, III-A, I-B, V, and VI in a vernacular language, unless specially permitted by an order of Government to do so. In the latter case, candidates should quote in their applications the date and number of such order, and they are required to fill in their applications in their vernacular as well as in English.

15. Candidates in the Police Department who may apply for examination in the judicial portion of the "Police Test" alone should submit their applications through the office of the Inspector-General of Police. Candidates for this test must have previously passed in departmental subjects, and will be required to pay a fee of Rupees three.

16. Persons other than those actually employed in the Salt Department may also appear for any of the Salt Tests, provided they produce a recommendation from an officer of that department not inferior in rank to an Assistant Commissioner.

17. Candidates should write their names, their father's names, and their house names distinctly and in full in their applications and give their addresses in full also. Applications defective in any particular will be returned.

18. Candidates will not be admitted to the examination at any centre other than that named in their applications, nor will they be allowed to name any centre for their examination but one of those mentioned in paragraph 1 of this notification.

The 26th July 1887.

GENERAL.

NOTIFICATIONS.

The 23rd July 1887.

No. 60.—It is hereby notified for public information that the undermentioned jodi village, which has been duly attached in satisfaction of the arrears of revenue due to Government (as shown in the subjoined statement) by the said jodidars, will be sold by public auction at the place and on the date mentioned in the annexed statement. The sale will commence at 11 A. M. on the date specified, and the village will be knocked down to the highest bidder without reserve.

2. Provided that when a village is divided into separate recognized vrittis, the Sub-Division Officer may, at his option, instead of selling the village as a whole, sell each vritti separately.

3. The purchaser will be required to deposit 25 per cent of the purchase money at the time of sale, and where the remainder of the purchase money may not be paid within fifteen days from the day of sale, the money so deposited shall be liable to forfeiture.

4. When such deposit shall not be made, nor the remaining purchase money paid up, the lands shall be resold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case to deposit a written authority signed by their principals, otherwise their bids may be rejected.

6. The sale shall be stayed, if the defaulter or any other person acting on his behalf or claiming an interest in the land tenders the full amount of the arrears of the revenue with the interest and other charges, provided such tender be made before sunset on the day previous to that appointed for the sale.

7. The sale of the property will not become absolute until the sale has been confirmed by the Dewan.

8. Purchasers having completed the payment of the purchase money will, as soon as the sale has been confirmed by the Dewan, be placed in immediate possession and the village will be registered in the name of the purchaser, and a certificate of sale signed and sealed by the Sub-Division Officer will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent.

9. Provided parties deeming themselves aggrieved by the sale shall be at liberty to appeal to the Dewan within 30 days from the day of sale, and the purchase shall be conditional on the final order in such appeal.

No 83.—The following Circular by the Government of India No. 35 Statistics—14-14, dated 6th July 1887, is published for the information and guidance of Deputy Commissioners of Districts :—

From Sir E. C. Buck, Secretary to the Government of India, To the Secretary to Government, North-Western Provinces and Oudh, Circular No. 35 Stats.—14-14, Simla, the 6th July 1887.

With reference to your letter No. 761—1-557, dated the 9th ultimo, with which was forwarded a statement showing the prices of produce in the North-Western Provinces during 1885-86, I am directed to communicate the following remarks thereon.

* * * *

3. It is observed from the explanations given by the District Officers that the procedure followed in filling in this return is not uniform : sometimes the price of the article locally grown is given and sometimes that of the imported article is entered. As the object of the return is to give the value *to the producer* of the article he grows for the market, wherever that market may be, I am to say that only the price of the produce locally grown for consumption or export and of the ordinary kind consumed by the people should be exhibited and not the price of the imported article.

The 12th August 1887.

52

No. 86.—The following Revised Rules for the sale of sandalwood by public auction are published for general information :—

I. Procedure.

1. Every auction sale shall be held by the Forest Officer in conjunction with the Deputy Commissioner of the District, or other Officer deputed by the Deputy Commissioner.

2. The highest bidder shall be the purchaser Should any lot be disputed, it shall be again put up, and resold.

3. Each purchaser shall, immediately after a lot has been knocked down to him, sign his name opposite the number and specification of the lot bought by him, in a book provided for the purpose. Such signature shall be held as an admission on his part of having bought such lot.

II Payments—How to be made.

4. Immediately after the sale, each purchaser will be furnished with a memo showing the total amount due by him, and with a letter of advice to pay into the nearest Government Treasury 25 per cent of such amount as a deposit, before the close of the third day from the date of sale. A receipt for the deposit money will be granted by the Treasury Officer, and must be presented to the Forest Officer before the close of the fifth day. The Forest Officer will initial the receipt, and enter on its face, the date of presentation. Should any purchaser fail to comply with this regulation, the Forest Officer shall be at liberty to sell to other individuals, all or any portion of the sandalwood purchased by such defaulter, who shall bear any loss, but shall not participate in any profit that may arise. The amount due by such defaulter shall be recovered as a revenue demand.

5. The whole quantity purchased by each merchant must be paid for within 90 days from the date of sale. Failing which the deposit money already paid in shall lapse to the Government, and shall not be counted as part payment. Moneys due may be paid into the Treasury of the Taluk in which the Koti is situated, or into the District Treasury, but into no other.

III. Weighing out and Delivery of Wood.

6. The Forest Officer or in his absence any other Officer deputed by the Deputy Commissioner shall personally weigh out the whole quantity of wood bought by each purchaser, and this weighing out of the wood sold in each Koti must be completed within three months from the date of sale. When weighing, should any surplus be found, it shall be taken out ; and any deficiency occur, the Officer weighing will make up the full tale of wood, stamp every piece that can be stamped, and take such precautions as shall preclude the lots being tampered with before final removal.

The full tale of wood having been thus once made up, all loss which may afterwards arise from dryage or other causes, shall be borne entirely by the purchaser, who shall be warned to attend at the weighing out of his lots. Should he not appear in person or by duly constituted agent, the Forest Officer or the Officer deputed for weighing shall weigh out, stamp and seal the lots at his own convenience, and no complaint afterwards made by the purchaser will be attended to. The expenditure incurred in weighing out wood will be borne by the Government ; but all expenses necessary for the final removal of the wood from the Koti shall be borne by the purchaser. Nothing shall prevent a Forest Officer from weighing out wood to any purchaser who wants early delivery upon full payment of the amount due thereon.

7. No wood can be removed by any purchaser until it has been paid for in full, and until a "license to remove" shall have been obtained from the Forest Officer.

IV. Koti Rent.

8. Wood weighed out, stamped and paid for under the preceding sections, may be removed at any time within 90 days from date of sale without payment of Koti rent. Such wood, if left in the Kotis more than 90 days from date of sale, shall be charged with Koti rent at the rate of (4) annas per kandi per mensem, from date of sale. Should the space occupied by such wood be required for the storing of new wood, the Forest Officer shall be at liberty, after giving the purchaser ten days' notice, to take the wood out of the Koti, and deposit it without the walls at the expense and risk of the purchaser.

V. LICENSES TO REMOVE.

9. No wood can be removed from the Koti till a "license to remove sandalwood," signed by the Forest Officer in charge, shall have been obtained ; and all holders of such licenses shall be bound to abide by the conditions laid down in such licenses. Any trader or other infringing the terms of his license, or not returning his license on the expiration of the time allowed, shall be liable to be dealt with under the conditions prescribed in Section 40 of the Mysore Forest Rules.

VI. GENERAL.

10. In conformity with standing Rules, no sandalwood can be sold by private individuals within the Mysore Territories, or be moved from place to place without a license, to be granted by the Forest Officer in charge of the Range.

11. The Forest Officer in charge shall be at liberty to stop the sale at any time without giving any reason to the intending purchasers.

By Order,
R. VIJAYINDRA RAO,
Chief Secretary.

(5) The First Examination in Arts.

9. Test III-A—Revenue, General—*Higher Grade*,—is open only to persons who have passed the First in Arts Examination of an Indian University, and to persons who have been in the continuous service of Government since 10th July 1884.

10. Candidates for the Revenue Test, General,—Higher or Lower Grade,—will be examined in the *Account Code* also, the temporary concession allowed last year having been withdrawn.

11. Candidates for the Account Test VI must state distinctly whether they wish to qualify for the post of Accountant in Collectors' Offices or in other offices.

12. Candidates coming up for one or more tests at the same time under General Rule I will submit a single application for all such tests. As notified under date the 3rd September 1873, no candidate will be permitted to take up any of the Judicial Tests together with Test III (Revenue) in either grade.

13. Candidates for the Account Test may come up for the Translation Test, Lower Grade, as well as for the Précis Test at the same time.

14. Candidates will not be allowed to appear for examination in Tests I-A, II-A, III-A, I-B, V, and VI in a vernacular language, unless specially permitted by an order of Government to do so. In the latter case, candidates should quote in their applications the date and number of such order, and they are required to fill in their applications in their vernacular as well as in English.

15. Candidates in the Police Department who may apply for examination in the judicial portion of the "Police Test" alone should submit their applications through the office of the Inspector-General of Police. Candidates for this test must have previously passed in departmental subjects, and will be required to pay a fee of Rupees three.

16. Persons other than those actually employed in the Salt Department may also appear for any of the Salt Tests, provided they produce a recommendation from an officer of that department not inferior in rank to an Assistant Commissioner.

17. Candidates should write their names, their father's names, and their house names distinctly and in full in their applications and give their addresses in full also. Applications defective in any particular will be returned.

18. Candidates will not be admitted to the examination at any centre other than that named in their applications, nor will they be allowed to name any centre for their examination but one of those mentioned in paragraph 1 of this notification.

Immediately after the sale, each purchaser will be furnished with a memo showing the total amount due by him, and with a letter of advice to pay into the nearest Government Treasury 25 per cent of such amount as a deposit, before the close of the third day from the date of sale. A receipt for the deposit money will be granted by the Treasury Officer, and must be presented to the Forest Officer before the close of the fifth day. The Forest Officer will initial the receipt, and enter on its face, the date of presentation. Should any purchaser fail to comply with this regulation, the Forest Officer shall be at liberty to sell to other individuals, all or any portion of the sandalwood purchased by such defaulter, who shall bear any loss, but shall not participate in any profit that may arise. The amount due by such defaulter shall be recovered as a revenue demand.

5. The whole quantity purchased by each merchant must be paid for within 90 days from the date of sale. Failing which the deposit money already paid in shall lapse to the Government, and shall not be counted as part payment. Moneys due may be paid into the Treasury of the Taluk in which the Koti is situated, or into the District Treasury, but into no other.

III. WEIGHING OUT AND DELIVERY OF WOOD.

6. The Forest Officer or in his absence any other Officer deputed by the Deputy Commissioner shall personally weigh out the whole quantity of wood bought by each purchaser, and this weighing out of the wood sold in each Koti must be completed within three months from the date of sale. When weighing, should any surplus be found, it shall be taken out; and any deficiency occur, the Officer weighing will make up the full tale of wood, stamp every piece that can be stamped, and take such precautions as shall preclude the lots being tampered with before final removal.

The full tale of wood having been thus once made up, all loss which may afterwards arise from dryage or other causes, shall be borne entirely by the purchaser, who shall be warned to attend at the weighing out of his lots. Should he not appear in person or by duly constituted agent, the Forest Officer or the Officer deputed for weighing shall weigh out, stamp and seal the lots at his own convenience, and no complaint afterwards made by the purchaser will be attended to The expenditure incurred in weighing out wood will be borne by the Government; but all expenses necessary for the final removal of the wood from the Koti shall be borne by the purchaser. Nothing shall prevent a Forest Officer from weighing out wood to any purchaser who wants early delivery upon full payment of the amount due thereon.

7. No wood can be removed by any purchaser until it has been paid for in full, and until a "license to remove" shall have been obtained from the Forest Officer.

IV. KOTI RENT.

8. Wood weighed out, stamped and paid for under the preceding sections, may be removed at any time within 90 days from date of sale without payment of Koti rent. Such wood, if left in the Kotis more than 90 days from date of sale, shall be charged with Koti rent at the rate of (4) annas per kandi per mensem, from date of sale. Should the space occupied by such wood be required for the storing of new wood, the Forest Officer shall be at liberty, after giving the purchaser ten days' notice, to take the wood out of the Koti, and deposit it without the walls at the expense and risk of the purchaser.

V. LICENSES TO REMOVE.

9. No wood can be removed from the Koti till a "license to remove sandalwood," signed by the Forest Officer in charge, shall have been obtained; and all holders of such licenses shall be bound to abide by the conditions laid down in such licenses. Any trader or other infringing the terms of his license, or not returning his license on the expiration of the time allowed, shall be liable to be dealt with under the conditions prescribed in Section 40 of the Mysore Forest Rules.

VI. GENERAL.

10. In conformity with standing Rules, no sandalwood can be sold by private individuals within the Mysore Territories, or be moved from place to place without a license, to be granted by the Forest Officer in charge of the Range.

11. The Forest Officer in charge shall be at liberty to stop the sale at any time without giving any reason to the intending purchasers.

GENERAL.

NOTIFICATIONS.

The 12th August 1887.

No. 88.—The following Revised Rules for the sale of sandalwood by public auction are published for general information :—

I. PROCEDURE.

1. Every auction sale shall be held by the Forest Officer in conjunction with the Deputy Commissioner of the District, or other Officer deputed by the Deputy Commissioner.

2. The highest bidder shall be the purchaser. Should any lot be disputed, it shall be again put up, and resold.

3. Each purchaser shall, immediately after a lot has been knocked down to him, sign his name opposite the number and specification of the lot bought by him, in a book provided for the purpose. Such signature shall be held as an admission on his part of having bought such lot.

62

II. PAYMENTS—HOW TO BE MADE.

4. Immediately after the sale, each purchaser will be furnished with a memo showing the total amount due by him; and with a letter of advice to pay into the nearest Government Treasury 25 per cent of such amount as a deposit, before the close of the third day from the date of sale. A receipt for the deposit money will be granted by the Treasury Officer, and must be presented to the Forest Officer before the close of the fifth day. The Forest Officer will initial the receipt, and enter on its face, the date of presentation. Should any purchaser fail to comply with this regulation, the Forest Officer shall be at liberty to sell to other individuals, all or any portion of the sandalwood purchased by such defaulter, who shall bear any loss, but shall not participate in any profit that may arise. The amount due by such defaulter shall be recovered as a revenue demand.

5. The whole quantity purchased by each merchant must be paid for within 90 days from the date of sale. Failing which the deposit money already paid in shall lapse to the Government, and shall not be counted as part payment. Moneys due may be paid into the Treasury of the Taluk in which the Koti is situated, or into the District Treasury, but into no other.

III. WEIGHING OUT AND DELIVERY OF WOOD.

6. The Forest Officer or in his absence any other Officer deputed by the Deputy Commissioner shall personally weigh out the whole quantity of wood bought by each purchaser, and this weighing out of the wood sold in each Koti must be completed within three months from the date of sale. When weighing, should any surplus be found, it shall be taken out; and any deficiency occur, the Officer weighing will make up the full tale of wood, stamp every piece that can be stamped, and take such precautions as shall preclude the lots being tampered with before final removal.

The full tale of wood having been thus once made up, all loss which may afterwards arise from dryage or other causes, shall be borne entirely by the purchaser, who shall be warned to attend at the weighing out of his lots. Should he not appear in person or by duly constituted agent, the Forest Officer or the Officer deputed for weighing shall weigh out, stamp and seal the lots at his own convenience, and no complaint afterwards made by the purchaser will be attended to. The expenditure incurred in weighing out wood will be borne by the Government; but all expenses necessary for the final removal of the wood from the Koti shall be borne by the purchaser. Nothing shall prevent a Forest Officer from weighing out wood to any purchaser who wants early delivery upon full payment of the amount due thereon.

7. No wood can be removed by any purchaser until it has been paid for in full, and until a "license to remove" shall have been obtained from the Forest Officer.

IV. KOTI RENT.

8. Wood weighed out, stamped and paid for under the preceding sections, may be removed at any time within 90 days from date of sale without payment of Koti rent. Such wood, if left in the Kotis more than 90 days from date of sale, shall be charged with Koti rent at the rate of (4) annas per kandi per mensem, from date of sale. Should the space occupied by such wood be required for the storing of new wood, the Forest Officer shall be at liberty, after giving the purchaser ten days' notice, to take the wood out of the Koti, and deposit it without the walls at the expense and risk of the purchaser.

V. LICENSES TO REMOVE.

9. No wood can be removed from the Koti till a "license to remove sandalwood," signed by the Forest Officer in charge, shall have been obtained; and all holders of such licenses shall be bound to abide by the conditions laid down in such licenses. Any trader or other infringing the terms of his license, or not returning his license on the expiration of the time allowed, shall be liable to be dealt with under the conditions prescribed in Section 40 of the Mysore Forest Rules.

VI. GENERAL.

10. In conformity with standing Rules, no sandalwood can be sold by private individuals within the Mysore Territories, or be moved from place to place without a license, to be granted by the Forest Officer in charge of the Range.

By Order,
R. VIJAYINDRA RAO,
Chief Secretary.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 9th August 1887.

No. 2709-18—72, DATED 9TH AUGUST 1887.

ORDER.—By Notification No. 292, dated 13th February 1874, all whole inam villages for which Inam title-deeds were not issued before the 12th October 1872 were ordered to be surveyed and valued by the Survey Department previous to the final settlement of the quit-rent leviable on them, all subsequent settlements made by the Inam Department being declared to be *ad-interim*.

2. The principles upon which the Survey Department valued inam villages came under discussion in 1881 and the final settlement of quit-rent made by that Department in accordance with the Notification of 13th February 1874 was, by Proceedings No. 4701-9—133, dated 2nd September 1881, ordered to be revised, adopting for purposes of valuation the survey assessment of the lands under cultivation in the inam village with 25 per cent of the assessment on the arable waste, together with a reasonable pasture rent on the unarable waste; and, pending such revised valuation, both the quit-rent and the local fund cess were directed to be collected on the old recorded valuation only.

3. It has come to the notice of the Dewan that certain holders of inam villages are allowed to withhold the payment of quit-rent and local fund cess on the pretence that the revised settlement directed in the Proceedings of 2nd September 1881 has not yet been completed. The special attention of Deputy Commissioners is drawn to para 5 of the Proceedings above quoted, directing that, pending the revised valuation, both quit-rent and local fund cess should be collected on the "old recorded valuation" of the village. What was ordered to be held in abeyance was the quit-rent and local fund cess calculated upon the survey valuation of the village made in accordance with Notification No. 292, dated 13th February 1874.

4. The Inam Settlement of villages for which Inam title-deeds were issued before 12th October 1872 will not be re-opened, and in their case quit-rent and local fund cess should be levied upon the value recorded in the title-deeds issued.

5. In the case of other inam villages, quit-rent and local fund cess should be levied upon the value recorded by the Inam Department, pending the final revised valuation directed in Proceedings No. 4701-9—133, dated 2nd September 1881.

6. Deputy Commissioners are requested to adopt measures for the early recovery of quit-rent and local fund cess in accordance with the foregoing observations in cases in which they have hitherto been withheld.

R. VIJAYINDRA RAO,
Chief Secretary.

No. 99.—The following Revised Rules for the sale of timber and bamboos by public auction in Mysore have been approved by His Highness the Maharaja's Government, and are published for general information :—

I. PROCEDURE

1. Every auction sale shall be held by the Forest Officer in charge of the District, or other officer deputed by the Deputy Commissioner.

2. The highest bidder shall be the purchaser. Should any lot be disputed, it shall be again put up and resold.

3. Each purchaser shall, immediately after a lot has been knocked down to him, sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as an admission on his part of having bought such lot.

69

II. PAYMENTS HOW TO BE MADE.

4. Immediately after the sale, each purchaser will be furnished with a memo showing the total amount due by him, and with a letter of advice to pay into the nearest Government Treasury, before the close of the 3rd or 5th day from the date of the sale, as circumstances may require, regard being had to the distance of Taluk Treasury, a sum not less than 25 per cent of the total amount due by him as a deposit. A receipt for the deposit money will be granted by the Treasury Officer, and must be presented to the Forest Officer before the close of fifth or eighth day from date of sale as fixed. The Forest Officer will initial the receipt, and enter on its face the date of presentation. Should any purchaser fail to comply with this regulation, the Forest Officer shall be at liberty to re-sell all or any portion of the timber and bamboos purchased by such defaulter, who shall be required to make good any loss, but shall not participate in any profit on such resale. The amount due by such defaulter shall be recovered as a revenue demand.

5. The whole quantity purchased by each purchaser must be paid for within 30 days from the date of sale; failing which, the deposit money already paid in shall be forfeited to the Government. Moneys due may be paid into the Treasury of the Taluk in which the wood-yard is situated, or into the District Treasury, but into no other, except in cases where the merchants are permitted to pay into any other Government Treasury.

III. DELIVERY OF WOOD.

6. No wood can be removed by any purchaser until it has been paid for in full, and until a "license to remove" shall have been obtained from the Forest Officer.

IV. WOOD-YARD RENT.

7. Timber and bamboos paid for under the preceding sections may be removed at any time within 30 days from date of sale, or within such further period (not exceeding 90 days from date of sale) as may be fixed by the Forest Officer, as the circumstances of each case may require, without payment of wood-yard rent, but if left in the wood-yard longer than that period from date of sale, shall be charged with wood-yard rent at 8 annas per log or 20 bamboos, per mensem, from date of sale. Should the space occupied by such wood be required for the storing of new wood, the Forest Officer shall be at liberty, after giving the purchaser ten days' notice, to take the wood out of the wood-yard, and deposit it without the walls at the expense and risk of the purchaser.

V. LICENSES TO REMOVE.

8. No wood can be removed from the wood-yard till a "license to remove timber and bamboos," signed by the Forest Officer in charge of the District shall have been obtained; and all holders of such licenses shall be bound to abide by the conditions laid down in such licenses. Any trader or other infringing the terms of his license, or not returning his license on the expiration of the time allowed, shall be liable to be dealt with under the conditions prescribed in Section 40 of the Mysore Forest Rules.

VI. GENERAL.

9. The Forest Officer shall be at liberty to stop the sale at any time without giving any reason to the intending purchasers.

No. 100—Attention is invited to Notification Camp No. 640, dated 18th September 1886, which directed all Public Offices to be closed for ten days from the 6th day of Dasara inclusive.

Under the above Notification the Dasara holidays for this year are from the 23rd September to 2nd October 1887, both days inclusive.

No. 101—To Rule 5 of the Revised Rules for the sale of sandalwood published with Notification No. 86 of the 20th August 1887 after the words "but into no other," add the following:—

"except in cases where the merchants are permitted to pay into any other Government Treasury."

The 2nd September 1887.

Notifications by the Dewan to His Highness the Maharaja of Mysore.

GENERAL.

NOTIFICATIONS.

No. 107. *The 5th September* 1887.

In supersession of previous rules, the following rules are sanctioned by His Highness the Maharaja for the grant of mining leases in Mysore. They do not apply to mining leases already executed by the Government.

Prospecting License.

I. Persons desirous of carrying on prospecting operations with a view to select land for mining purposes within the Territories of Mysore can, on application to the Dewan, and the payment of a fee of Rs. 500, obtain a license granting leave to prospect within a specified area not exceeding ten square miles. The licensee will be entitled to select, within one year from the date of the license, a square mile of land for mining purposes within the area specified in his license. When the selection has been made, the licensee may obtain a lease for the selected area under the following rules and conditions. During the period for which a prospecting license is in force and within the area specified in it, no mining lease or prospecting license shall be granted to any other person. But the Government reserves to itself the power of refusing a prospecting license in respect of any tract.

74

Mining Leases. Extent of each Grant.

II. Every mining lease will be limited to a block of land not exceeding one square mile in area. The block shall ordinarily be in the form of a parallelogram no side of which is less than half a mile in length. Applications for more than one block from the same applicant will be taken into consideration if there are no other applicants, if no other objection exists, and if the Government is satisfied that the application is made for the purpose of *bonâ fide* working and not for the purpose of mere speculation in mining land.

Application for Lease.

III. (1). Every application for a mining lease, whether it be from a person who has obtained a prospecting license under Rule I or from any other person whatsoever, must be presented or addressed to the Chief Secretary to the Dewan and be accompanied by a deposit of a sum of Rs. 1,000 for every square mile or fraction of a square mile applied for, as security for the due fulfilment of the engagement made by the applicant; and the application should contain a definite statement as to the way in which the applicant proposes to raise the capital required for mining purposes.

(2). Every application must also be accompanied by an extract from the Topographical, Revenue Survey, or other official map, and the land applied for should be marked upon such extract together with the names of all villages by which it is surrounded.

(3). The applicant must point out to the Survey and Local Revenue officers the boundaries of the block of land applied for by him within a fortnight of the Government order for a survey being communicated to him.

(4). After the completion of the survey and needful enquiries by the Survey and Revenue officers, full particulars as to extent and assessment together with printed blank forms of leases to be executed and a bill for the survey and demarcation expenses will be sent to the applicant, who should, within a month from date of receiving such communication, tender for the Dewan's signature the lease in duplicate executed by himself and duly stamped, paying at the same time the cost of the survey and demarcation.

(5). Failure to comply with paras 3 and 4 of this rule will involve cancellation of the application and forfeiture of the sum deposited with it.

(6). The applicant's title to the land applied for will not be complete till the lease is actually executed by the Dewan.

(7). The lease should, after execution, be registered under the law for the time being for registration of assurances, and the duplicate copy thereof should be deposited with the Mysore Government.

(8). The Government will always be at full liberty to reject any application without assigning a reason.

Conditions of the Lease.

IV. Mining leases will be granted subject to the following conditions:—

75

(1). Each lease will be limited to a term of 30 years, subject to renewal at the end of that term, upon such conditions as may be prescribed by the Government in that behalf.

(2). Where occupied Government land or inam land is included within the selected block for which a lease is granted, the lessee shall either purchase the surface rights of the owners of such land, or shall make such other arrangements with them as may be necessary to enable him to enter upon, or carry mining operations on, such land.

(3). The lessee shall pay to Government the annual land revenue assessment, as now existing or as hereafter revised by any survey settlement, on all the arable lands, occupied or waste, and the jôdi or quit-rent on any inam lands, as well as an assessment of eight annas per acre on all the unarable lands which may be included within the limits of the lease, together with all local cesses and other taxes or rates of every description payable in respect of the premises or lands comprised in the block, or of buildings or works erected thereon.

(4). The lessee shall also pay a royalty of 5 per cent on the gross proceeds of all gold, metallic ores, coal and other substances of a merchantable nature, which shall be dressed, crushed and made merchantable, and of 10 per cent on the saleable value of all precious stones which may be found in the selected block, clear of all deductions whatsoever.

(5). If, within two years of the grant of the lease, the lessee or his assigns be unable to form a company with a paid-up working capital of not less than £ 5,000 per square mile, the lease shall be forfeited.

(6). The lessee shall search and mine for gold, &c, throughout the term of the lease in the best and most effectual manner without intermission except when prevented by inevitable accident. But after the expiry of the first two years of the lease, the Government reserves to itself the option of levying, in lieu of the royalty, an assessment of Rs. 5 per acre in the event of its not being satisfied with the working or its results for any years of the lease.

(7). The lessee is required to keep regular accounts and plans and maps of the mines and workings, which are to be open to inspection by Government officers.

(8). Government officers are authorized to inspect and examine the mines.

(9). The lessee shall keep all boundary marks in good order, and fence every shaft, pit or open working.

(10). The lessee shall duly enforce such sanitary rules as the Government may, from time to time, prescribe.

(11). The lessee shall not wilfully close, fill up or choke any mine or shaft without permission, and not obstruct any existing roads, paths or by-ways on the land.

(12). The Government are authorized to recover any arrears of revenue, royalty, rent and other dues by distraint and sale of property belonging to the lessee, and in the event of the breach of any of the covenants on the part of the lessee, or of his causing any annoyance or obstruction to any class of persons or Gov-

ernment officials, the Government can cancel the lease on due notice and in default of satisfactory explanation within six months.

(13). If at the end of the term of 30 years, the lessee does not desire a renewal of the lease on such terms as the Government may fix, he will be bound to deliver the land to Government, with the shafts and other premises in good repair and working order, together with the books, maps and plans, free of any claim on account of buildings or other property left standing on the lands. And he should permit the purchase by Government of the buildings, plant, machinery and fittings at a fair valuation.

(14). (*a*) Every assignment of the right, title and interest granted by the lease, whether such assignment be made by the lessees or their successors by assignment, however remote, shall be subject to the payment to the Government of Mysore of a fine which shall be regulated as follows, namely :—for the first assignment, a fine of $\frac{1}{10}$th of the consideration therefor, and for every subsequent assignment a fine of $\frac{1}{10}$th of the excess, if any, of the amount of consideration for such assignment over and above the amount of consideration for the assignment immediately preceding it.

(*b*) For the purpose of computing the fine aforesaid, any shares in a Company which may form the whole or part of the consideration may, at the option of the Government, be regarded as equivalent to the nominal value of such shares.

(*c*) The Government always to have the power of determining the present value of the consideration for a previous assignment, when the amount thereof has to be deducted from the amount of the consideration of a subsequent assignment for the purpose of computing the fine leviable on the latter.

Illustration.

If the lessees assign the lease to A for a consideration of Rs 100, the fine payable is Rs. 10; if A afterwards assigns the lease to B for a consideration of Rs. 1,000, the fine payable is Rs. $\frac{1,000-100}{10}$, or Rs. 90; if B afterwards assigns the lease to C and Company for a consideration of Rs. 1,00,000 in cash and of 500 shares in C and Company, the nominal value of each share being £ 1, the fine payable is Rs. $\frac{1,00,000-1,000}{10}$, or Rs. 9,900 in cash together with either 50 shares in C and Company or £ 50 in cash at the option of the Government; if C and Company afterwards assign the lease to D and Company either for an annual rent of £ 10,000 or for a royalty of 10 per cent of the proceeds of the mine, the fine payable is either £ 1,000 per annum or a royalty of 1 per cent of the proceeds of the mine, as the case may be; if the under-lease from C and Company is afterwards assigned by D and Company to E for £ 10,000 in cash and £ 10,000 payable at the end of two years, the fine on account of such assignment is £ 1,000 in cash and £ 1,000 payable at the end of two years less such present value as the Government may fix for the annual rent of £ 1,000 or for the royalty of 1 per cent of the proceeds of the mine leviable on account of the under-lease to D and Company.

(*d*) No assignment will be recognized as valid unless the fine aforesaid has been duly paid to the Government, and the assignee must accordingly protect himself by causing the due payment of such fine.

Public Tenders.

V. The Government reserves to itself the power to restrict from time to time the aggregate number of square miles of land for which mining leases are to be granted, and to invite tenders for the purchase of mining leases for such land, without binding itself to accept any or the highest tender.

Form of Lease.

VI. A form of the lease to be granted under the foregoing rules is hereunto appended.

ment or under-lease whatsoever shall be valid as against the lessors, their successors or assigns, until the fine upon such assignment or under-lease has been duly and fully paid to the lessors, their successors or assigns.

Distraint by lessors for recovery of assessments, royalties, fines or other payments.

Provided always that if and whenever any of the said assessments, royalties, rents, fines or other payments shall be in arrear for the space of sixty days after the expiration of the time allowed by these presents for payment thereof and the lessees, their executors, administrators or assigns shall not pay the same within thirty days after the service upon him or them of a notice by the Civil Executive Officer of the said District of calling upon them or any of them to pay the same, the lessors, their successors or assigns shall be at liberty to seize all gold, metallic ores, precious stones, coal and other substances of a saleable nature in or about the mines or pits opened, worked or carried on by the lessees, their executors, administrators or assigns in the selected block, or any other property found in the selected block, and the lessors, their successors or assigns may sell and dispose of such gold, metallic ores, precious stones, coal and other substances and property and out of the moneys produced thereby may deduct and retain all arrears of assessments, royalties, fines or other payments then due under this lease and all expenses incurred in or about any such seizure and sale.

Covenant by lessee to prosecute mining operations without intermission.

And the lessees do hereby for themselves, their heirs, executors, administrators and assigns and as a separate covenant each of them doth hereby for himself, his heirs, executors, administrators and assigns covenant with the lessors, their successors and assigns that they the lessees, their executors, administrators or assigns will, during the first year of the lease, in the best and most effectual manner, prospect for gold or other metals or precious stones throughout the selected block, furnishing, if so required, to the lessors, their successors or assigns, true copies of any reports which may have been drawn up showing the results of prospecting operations.

And also will, if unable, within two years from the date of this lease, to form a company with a paid-up working capital of not less than £ 5,000 (five thousand pounds sterling) per square mile of the selected block, forfeit to the lessors, their successors or assigns, all rights, liberties, and privileges by this lease demised.

And also will, during the entire term of the lease, in the best and most effectual manner and without intermission, except when prevented by inevitable accident, search and mine for, work and make merchantable, all gold, metals, metallic ores, precious stones, coal and other substances of a saleable or merchantable nature within or upon the selected block.

To deliver to, or permit samples of gold, &c., to be taken by, lessors

And also will if required and before the sale thereof deliver to or permit to be taken by the lessors, their successors or assigns or their agent or agents a sample or samples of all gold, metals, metallic ores, precious stones, coal and other substances which shall have been dressed, crushed and made merchantable and prepared for sale, all such samples so taken to be paid for by the lessors, their successors or assigns at the current market rate.

To make return of prices to lessors.

And also will immediately after any sale of the said gold, metals, metallic ores, precious stones, coal and other substances give to the lessors, their successors or assigns or their agent or agents a return of the prices for which the same respectively shall have been sold and if required the names of the purchasers thereof.

And also will within ninety days after any such sale or within six months from the time of the extraction of the gold, metals, metallic ores, coal or other substances or the finding of the precious stones pay to the lessors, their successors or assigns the royalties hereinbefore reserved.

To pay royalties within 90 days after sale or six months from extraction of ore

And also will deliver to the lessors, their successors or assigns a copy of every assignment or under-lease of the said premises or any part thereof, or of all or any of the rights, liberties and licenses by these presents demised and granted or of any interest or share in the said premises or in all or any of the said rights, liberties and licenses within two calendar months after the date of such assignment or under-lease.

To deliver to lessors copies of all assignments.

And also will within ninety days after the date of such assignment or under-lease pay to the lessors, their successors or assigns the fine upon such assignment or under-lease hereinbefore provided and reserved.

To pay fines on all assignments within 90 days.

And also will throughout the said term make and keep in some convenient place on the selected block, and so that the lessors, their successors or assigns or their agent or agents can have at all times free access thereto, proper books of account of the working and yield of the said mines and the costs thereof and of the disposal of the gold, metals, metallic ores, precious stones, coal and other substances of a saleable or merchantable nature containing all particulars of quantities, dates and other facts and circumstances necessary or proper, for ascertaining the exact value of such gold, metals, metallic ores, precious stones, coal and other substances and also correct maps, plans and sections of the said mines and workings.

To keep proper books of accounts, plans, &c.

And also will, when required by the lessors, their successors or assigns or their agent or agents, give to them copies of all entries in the said books and of every such map, plan and section as aforesaid.

And give copies thereof to lessors.

And also will at the end or sooner determination of the said term give up to the lessors or their successors or assigns the said books, maps, plans and sections in good and perfect condition.

And give up to lessors books and plans at end of term

And also will throughout the said term keep all boundary posts in good repair and condition and every shaft, pit or open working within the selected block sufficiently fenced for the protection of man and beast.

To keep boundary posts in good condition and shafts, &c. properly fenced.

And also will, throughout the said term, duly enforce in every part of the selected block such sanitary rules as the lessors, their successors, or assigns may from time to time prescribe.

And also will not, until the license in writing of the lessors, their successors or assigns or their agent or agents be obtained, wilfully close, fill up or choke any mine or shaft.

Not to fill up shafts or mines.

And also will keep open and not obstruct all or any existing roads, paths or by-ways of any kind whatsoever.

Or obstruct roads, &c

And also will permit the lessors, their successors and assigns and their agent or agents, servants and workmen throughout the said term to enter upon any of the works carried on under or by virtue of these presents and examine the state and condition thereof and to use the engines, machinery and apparatus upon or within the selected block for that or any other lawful and reasonable purpose, the lessors, their successors and assigns making a reasonable compensation for such use except when required for examining and taking plans, and also to exercise the liberties hereinbefore reserved and will afford all reasonable facilities and assistance in the exercise thereof.

To permit lessors to inspect works, &c

And also will from time to time make compensation to the tenant, occupier or other holder of any part or portion of the selected block for all damage or injury to or interference with the surface thereof.

To pay compensation for injury to surface rights.

And also will make due compensation to such village communities as may have a right of free grazing on any part of the selected block, whenever such right is in any way interfered with.

And also will from time to time and at all times hereafter effectually keep indemnified the lessors, their successors and assigns from and against all claims, demands and expenses whatsoever by reason or in consequence of any injury to or interference with any lands or property whatsoever occasioned by or arising from the working under these presents or the exercise of the liberties hereby granted.

To indemnify lessors from all claims arising from exercise of liberties hereby granted

And also will at the expiration or sooner determination of the said term deliver to the lessors, their successors or assigns the mines worked under these presents and all shafts, workings, boundary posts and fences connected therewith and all other the premises in good repair and working order and in all respects in such state and condition as shall be consistent with the due performance of the covenants hereinbefore contained free of any claim by the lessees, their executors, administrators or assigns against the lessors, their successors or assigns on account of buildings or other property left standing thereon, which buildings and other property the lessees, their executors, administrators or assigns shall be at liberty previously to remove.

To deliver to lessors mines, buildings, &c., on expiration of term.

Provided always and these presents are upon this express condition that if and whenever any part of the assessments, royalties, fines or other payments hereby reserved shall be in arrear for thirty days after due notice has been served on the lessees, their executors, administrators or assigns or any one or more of them or on their or his agents or fixed on any part of the selected block demanding payment of the same, or if the lessees, their executors, administrators or assigns or their or his workmen shall cease to carry on the regular working of the mines or cause any obstruction or annoyance to the officers of the lessors or of their successors or assigns or to the people of the country or refuse to afford information to the lessors, their successors or assigns, or if and whenever there shall be a breach of any of the covenants on the part of the lessees, their executors, administrators or assigns, then and in such case the lessors, their successors or assigns or their agent or agents duly empowered in that behalf may re-enter upon any part of the mines or workings carried on under this lease in the name of the whole and thereupon the said term of thirty years shall absolutely determine.

Proviso for re-entry on non-payment of assessments, royalties, fines, &c, or on breach of covenant.

Provided always and it is hereby agreed and declared that no such re-entry or forfeiture of the said term under the proviso for re-entry hereinbefore contained shall take place unless and until the lessors, their successors or assigns shall have given to the lessees, their executors, administrators or assigns a notice calling upon him or them to give a reasonable explanation of the matter or matters complained of and to rectify the same which notice shall be in writing signed on behalf of the lessors, their successors or assigns by the Civil Executive Officer of the said District of

Camp No 1060.—In supersession of Notification No. 89 of the 4th June 1886, it is hereby notified that under Section 32, Clause 1, of the Forest Rules, no trees, bamboos, wood or timber shall be cut or removed from Inam lands without a pass duly obtained from the Deputy Commissioner of the District in which such lands may be situated or from such other officer as may be duly authorized by the Deputy Commissioner on that behalf.

The 30th August 1887.

No 99.—The following Revised Rules for the sale of timber and bamboos by public auction in Mysore have been approved by His Highness the Maharaja's Government, and are published for general information :—

I. PROCEDURE.

1. Every auction sale shall be held by the Forest Officer in charge of the District, or other officer deputed by the Deputy Commissioner.

2. The highest bidder shall be the purchaser. Should any lot be disputed, it shall be again put up and resold.

3. Each purchaser shall, immediately after a lot has been knocked down to him, sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as an admission on his part of having bought such lot.

II. PAYMENTS HOW TO BE MADE.

4. Immediately after the sale, each purchaser will be furnished with a memo showing the total amount due by him, and with a letter of advice to pay into the nearest Government Treasury, before the close of the 3rd or 5th day from the date of the sale, as circumstances may require, regard being had to the distance of Taluk Treasury, a sum not less than 25 per cent of the total amount due by him as a deposit. A receipt for the deposit money will be granted by the Treasury Officer, and must be presented to the Forest Officer before the close of fifth or eighth day from date of sale as fixed. The Forest Officer will initial the receipt, and enter on its face the date of presentation. Should any purchaser fail to comply with this regulation, the Forest Officer shall be at liberty to re-sell all or any portion of the timber and bamboos purchased by such defaulter, who shall be required to make good any loss, but shall not participate in any profit on such resale. The amount due by such defaulter shall be recovered as a revenue demand.

5. The whole quantity purchased by each purchaser must be paid for within 30 days from the date of sale, failing which, the deposit money already paid in shall be forfeited to the Government. Moneys due may be paid into the Treasury of the Taluk in which the wood-yard is situated, or into the District Treasury, but into no other, except in cases where the merchants are permitted to pay into any other Government Treasury.

III. DELIVERY OF WOOD.

6. No wood can be removed by any purchaser until it has been paid for in full, and until a "license to remove" shall have been obtained from the Forest Officer.

IV. WOOD-YARD RENT.

7. Timber and bamboos paid for under the preceding sections may be removed at any time within 30 days from date of sale, or within such further period (not exceeding 90 days from date of sale) as may be fixed by the Forest Officer, as the circumstances of each case may require, without payment of wood-yard rent; but if left in the wood-yard longer than that period from date of sale, shall be charged with wood-yard rent at 8 annas per log or 20 bamboos, per mensem, from date of sale. Should the space occupied by such wood be required for the storing of new wood, the Forest Officer shall be at liberty, after giving the purchaser ten days' notice, to take the wood out of the wood-yard, and deposit it without the walls at the expense and risk of the purchaser.

V. LICENSES TO REMOVE.

8. No wood can be removed from the wood-yard till a "license to remove timber and bamboos," signed by the Forest Officer in charge of the District shall have been obtained; and all holders of such licenses shall be bound to abide by the conditions laid down in such licenses. Any trader or other infringing the terms of his license, or not returning his license on the expiration of the time allowed, shall be liable to be dealt with under the conditions prescribed in Section 40 of the Mysore Forest Rules.

VI. GENERAL.

9. The Forest Officer shall be at liberty to stop the sale at any time without giving any reason to the intending purchasers.

No. 100—Attention is invited to Notification Camp No. 640, dated 18th September 1886, which directed all Public Offices to be closed for ten days from the 6th day of Dasara inclusive.

Under the above Notification the Dasara holidays for this year are from the 23rd September to 2nd October 1887, both days inclusive.

The 5th September 1887.

The 7th September 1887.

No. 108—It is hereby notified for public information that the undermentioned kayamgutta village, which has been duly attached in satisfaction of the arrears of revenue due to Government (as shown in the subjoined statement) by the said kayamguttadars, will be sold by public auction at the place and on the date mentioned in the annexed statement. The sale will commence at 11 A. M. on the date specified, and the village will be knocked down to the highest bidder without reserve.

2. Provided that when a village is divided into separate recognized vrittis, the Deputy Commissioner may, at his option, instead of selling the village as a whole, sell each vritti separately.

3. The purchaser will be required to deposit 25 per cent of the purchase money at the time of sale, and where the remainder of the purchase money may not be paid within fifteen days from the day of sale, the money so deposited shall be liable to forfeiture.

4. When such deposit shall not be made, nor the remaining purchase money paid up, the lands shall be resold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case to deposit a written authority signed by their principals, otherwise their bids may be rejected.

6. The sale shall be stayed, if the defaulter or any other person acting on his behalf or claiming an interest in the land tenders the full amount of the arrears of the revenue with the interest and other charges, provided such tender be made before sunset on the day previous to that appointed for the sale.

7. The sale of the property will not become absolute until the sale has been confirmed by the Dewan.

8. Purchasers having completed the payment of the purchase money will, as soon as the sale has been confirmed by the Dewan, be placed in immediate possession and the village will be registered in the name of the purchaser, and a certificate of sale signed and sealed by the Deputy Commissioner will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent.

9. Provided parties deeming themselves aggrieved by the sale shall be at liberty to appeal to the Dewan within 30 days from the day of sale, and the purchase shall be conditional on the final order in such appeal.

The 2nd September 1887.

It is hereby notified for public information that the undermentioned joth village, which has been duly attached in satisfaction of the arrears of revenue due to Government (as shown in the subjoined statement) by the said joddars, will be sold by public auction at the place and on the date mentioned in the annexed statement. The sale will commence at 11 A. M. on the date specified, and the village will be knocked down to the highest bidder without reserve.

2. Provided that when a village is divided into separate recognized vrittis, the Deputy Commissioner may, at his option, instead of selling the village as a whole, sell each vritti separately.

3. The purchaser will be required to deposit 25 per cent of the purchase money at the time of sale, and where the remainder of the purchase money may not be paid within fifteen days from the day of sale, the money so deposited shall be liable to forfeiture.

4. When such deposit shall not be made, nor the remaining purchase money paid up, the lands shall be resold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case to deposit a written authority signed by their principals, otherwise their bids may be rejected.

6. The sale shall be stayed, if the defaulter or any other person acting on his behalf or claiming an interest in the land, tenders the full amount of the arrears of the revenue with the interest and other charges, provided such tender be made before sunset on the day previous to that appointed for the sale.

7. The sale of the property will not become absolute until the sale has been confirmed by the Dewan.

8 Purchasers having completed the payment of the purchase money will, as soon as the sale has been confirmed by the Dewan, be placed in immediate possession and the village will be registered in the name of the purchaser, and a certificate of sale signed and sealed by the Deputy Commissioner will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent.

9. Provided parties deeming themselves aggrieved by the sale shall be at liberty to appeal to the Dewan within 30 days from the day of sale, and the purchase shall be conditional on the final order in such appeal.

Notifications by the Dewan to His Highness the Maharaja of Mysore.

GENERAL.

NOTIFICATIONS.

No. 107. *The 5th September* 1887.

In supersession of previous rules, the following rules are sanctioned by His Highness the Maharaja for the grant of mining leases in Mysore. They do not apply to mining leases already executed by the Government.

Prospecting License.

I. Persons desirous of carrying on prospecting operations with a view to select land for mining purposes within the Territories of Mysore can, on application to the Dewan, and the payment of a fee of Rs. 500, obtain a license granting leave to prospect within a specified area not exceeding ten square miles. The licensee will be entitled to select, within one year from the date of the license, a square mile of land for mining purposes within the area specified in his license. When the selection has been made, the licensee may obtain a lease for the selected area under the following rules and conditions. During the period for which a prospecting license is in force and within the area specified in it, no mining lease or prospecting license shall be granted to any other person. But the Government reserves to itself the power of refusing a prospecting license in respect of any tract.

Mining Leases. Extent of each Grant.

II. Every mining lease will be limited to a block of land not exceeding one square mile in area. The block shall ordinarily be in the form of a parallelogram no side of which is less than half a mile in length. Applications for more than one block from the same applicant will be taken into consideration if there are no other applicants, if no other objection exists, and if the Government is satisfied that the application is made for the purpose of *bonâ fide* working and not for the purpose of mere speculation in mining land.

Application for Lease.

III. (1). Every application for a mining lease, whether it be from a person who has obtained a prospecting license under Rule I or from any other person whatsoever, must be presented or addressed to the Chief Secretary to the Dewan and be accompanied by a deposit of a sum of Rs. 1,000 for every square mile or fraction of a square mile applied for, as security for the due fulfilment of the engagement made by the applicant, and the application should contain a definite statement as to the way in which the applicant proposes to raise the capital required for mining purposes.

(2). Every application must also be accompanied by an extract from the Topographical, Revenue Survey, or other official map, and the land applied for should be marked upon such extract together with the names of all villages by which it is surrounded.

(3). The applicant must point out to the Survey and Local Revenue officers the boundaries of the block of land applied for by him within a fortnight of the Government order for a survey being communicated to him.

(4). After the completion of the survey and needful enquiries by the Survey and Revenue officers, full particulars as to extent and assessment together with printed blank forms of leases to be executed and a bill for the survey and demarcation expenses will be sent to the applicant, who should, within a month from date of receiving such communication, tender for the Dewan's signature the lease in duplicate executed by himself and duly stamped, paying at the same time the cost of the survey and demarcation.

(5). Failure to comply with paras 3 and 4 of this rule will involve cancellation of the application and forfeiture of the sum deposited with it.

(6). The applicant's title to the land applied for will not be complete till the lease is actually executed by the Dewan.

(7). The lease should, after execution, be registered under the law for the time being for registration of assurances, and the duplicate copy thereof should be deposited with the Mysore Government.

(8). The Government will always be at full liberty to reject any application without assigning a reason.

Conditions of the Least.

IV. Mining leases will be granted subject to the following conditions :—

95

(1). Each lease will be limited to a term of 30 years, subject to renewal at the end of that term, upon such conditions as may be prescribed by the Government in that behalf.

(2). Where occupied Government land or inam land is included within the selected block for which a lease is granted, the lessee shall either purchase the surface rights of the owners of such land, or shall make such other arrangements with them as may be necessary to enable him to enter upon, or carry mining operations on, such land.

(3). The lessee shall pay to Government the annual land revenue assessment, as now existing or as hereafter revised by any survey settlement, on all the arable lands, occupied or waste, and the jodi or quit-rent on any inam lands, as well as an assessment of eight annas per acre on all the unarable lands which may be included within the limits of the lease, together with all local cesses and other taxes or rates of every description payable in respect of the premises or lands comprised in the block, or of buildings or works erected thereon.

(4). The lessee shall also pay a royalty of 5 per cent on the gross proceeds of all gold, metallic ores, coal and other substances of a merchantable nature, which shall be dressed, crushed and made merchantable, and of 10 per cent on the saleable value of all precious stones which may be found in the selected block, clear of all deductions whatsoever.

(5). If, within two years of the grant of the lease, the lessee or his assigns be unable to form a company with a paid-up working capital of not less than £ 5,000 per square mile, the lease shall be forfeited.

(6). The lessee shall search and mine for gold, &c., throughout the term of the lease in the best and most effectual manner without intermission except when prevented by inevitable accident. But after the expiry of the first two years of the lease, the Government reserves to itself the option of levying, in lieu of the royalty, an assessment of Rs. 5 per acre in the event of its not being satisfied with the working or its results for any years of the lease.

(7). The lessee is required to keep regular accounts and plans and maps of the mines and workings, which are to be open to inspection by Government officers.

(8). Government officers are authorized to inspect and examine the mines.

(9). The lessee shall keep all boundary marks in good order, and fence every shaft, pit or open working.

(10). The lessee shall duly enforce such sanitary rules as the Government may, from time to time, prescribe.

(11). The lessee shall not wilfully close, fill up or choke any mine or shaft without permission, and not obstruct any existing roads, paths or by-ways on the land.

(12). The Government are authorized to recover any arrears of revenue, royalty, rent and other dues by distraint and sale of property belonging to the lessee, and in the event of the breach of any of the covenants on the part of the lessee, or of his causing any annoyance or obstruction to any class of persons or Gov-

96

ernment officials, the Government can cancel the lease on due notice and in default of satisfactory explanation within six months.

(13). If at the end of the term of 30 years, the lessee does not desire a renewal of the lease on such terms as the Government may fix, he will be bound to deliver the land to Government, with the shafts and other premises in good repair and working order, together with the books, maps and plans, free of any claim on account of buildings or other property left standing on the lands. And he should permit the purchase by Government of the buildings, plant, machinery and fittings at a fair valuation.

(14). (*a*) Every assignment of the right, title and interest granted by the lease, whether such assignment be made by the lessees or their successors by assignment, however remote, shall be subject to the payment to the Government of Mysore of a fine which shall be regulated as follows, namely :—for the first assignment, a fine of $\frac{1}{10}$th of the consideration therefor, and for every subsequent assignment a fine of $\frac{1}{10}$th of the excess, if any, of the amount of consideration for such assignment over and above the amount of consideration for the assignment immediately preceding it.

(*b*) For the purpose of computing the fine aforesaid, any shares in a Company which may form the whole or part of the consideration may, at the option of the Government, be regarded as equivalent to the nominal value of such shares.

(*c*) The Government always to have the power of determining the present value of the consideration for a previous assignment, when the amount thereof has to be deducted from the amount of the consideration of a subsequent assignment for the purpose of computing the fine leviable on the latter.

Illustration.

If the lessees assign the lease to A for a consideration of Rs. 100, the fine payable is Rs. 10; if A afterwards assigns the lease to B for a consideration of Rs. 1,000, the fine payable is Rs. $\frac{1,000-100}{10}$, or Rs. 90; if B afterwards assigns the lease to C and Company for a consideration of Rs. 1,00,000 in cash and of 500 shares in C and Company, the nominal value of each share being £ 1, the fine payable is Rs. $\frac{1,00,000-1,000}{10}$, or Rs. 9,900 in cash together with either 50 shares in C and Company or £ 50 in cash at the option of the Government; if C and Company afterwards assign the lease to D and Company either for an annual rent of £ 10,000 or for a royalty of 10 per cent of the proceeds of the mine, the fine payable is either £ 1,000 per annum or a royalty of 1 per cent of the proceeds of the mine, as the case may be; if the under-lease from C and Company is afterwards assigned by D and Company to E for £ 10,000 in cash and £ 10,000 payable at the end of two years, the fine on account of such assignment is £ 1,000 in cash and £ 1,000 payable at the end of two years less such present value as the Government may fix for the annual rent of £ 1,000 or for the royalty of 1 per cent of the proceeds of the mine leviable on account of the under-lease to D and Company.

(*d*) No assignment will be recognized as valid unless the fine aforesaid has been duly paid to the Government, and the assignee must accordingly protect himself by causing the due payment of such fine.

97

Public Tenders.

V. The Government reserves to itself the power to restrict from time to time the aggregate number of square miles of land for which mining leases are to be granted, and to invite tenders for the purchase of mining leases for such land, without binding itself to accept any or the highest tender.

Form of Lease.

VI. A form of the lease to be granted under the foregoing rules is hereunto appended.

To pay royalties within 90 days after sale or six months from extraction of ore.

And also will deliver to the lessors, their successors or assigns a copy of every assignment or under-lease of the said premises or any part thereof, or of all or any of the rights, liberties and licenses by these presents demised and granted or of any interest or share in the said premises or in all or any of the said rights, liberties and licenses within two calendar months after the date of such assignment or under-lease.

To deliver to lessors copies of all assignments.

And also will within ninety days after the date of such assignment or under-lease pay to the lessors, their successors or assigns the fine upon such assignment or under-lease hereinbefore provided and reserved.

To pay fines on all assignments within 90 days.

And also will throughout the said term make and keep in some convenient place on the selected block, and so that the lessors, their successors or assigns or their agent or agents can have at all times free access thereto, proper books of account of the working and yield of the said mines and the costs thereof and of the disposal of the gold, metals, metallic ores, precious stones, coal and other substances of a saleable or merchantable nature containing all particulars of quantities, dates and other facts and circumstances necessary or proper, for ascertaining the exact value of such gold, metals, metallic ores, precious stones, coal and other substances and also correct maps, plans and sections of the said mines and workings.

To keep proper books of accounts, plans, &c

And also will, when required by the lessors, their successors or assigns or their agent or agents, give to them copies of all entries in the said books and of every such map, plan and section as aforesaid.

And give copies thereof to lessors.

And also will at the end or sooner determination of the said term give up to the lessors or their successors or assigns the said books, maps, plans and sections in good and perfect condition.

And give up to lessors books and plans at end of term.

And also will throughout the said term keep all boundary posts in good repair and condition and every shaft, pit or open working within the selected block sufficiently fenced for the protection of man and beast.

To keep boundary posts in good condition and shafts, &c, properly fenced.

And also will, throughout the said term, duly enforce in every part of the selected block such sanitary rules as the lessors, their successors, or assigns may from time to time prescribe.

And also will not, until the license in writing of the lessors, their successors or assigns or their agent or agents be obtained, wilfully close, fill up or choke any mine or shaft.

Not to fill up shafts or mines.

102

And also will keep open and not obstruct all or any existing roads, paths or by-ways of any kind whatsoever.

Or obstruct roads, &c.

And also will permit the lessors, their successors and assigns and their agent or agents, servants and workmen throughout the said term to enter upon any of the works carried on under or by virtue of these presents and examine the state and condition thereof and to use the engines, machinery and apparatus upon or within the selected block for that or any other lawful and reasonable purpose, the lessors, their successors and assigns making a reasonable compensation for such use except when required for examining and taking plans, and also to exercise the liberties hereinbefore reserved and will afford all reasonable facilities and assistance in the exercise thereof.

To permit lessors to inspect works, &c.

And also will from time to time make compensation to the tenant, occupier or other holder of any part or portion of the selected block for all damage or injury to or interference with the surface thereof.

To pay compensation for injury to surface rights.

And also will make due compensation to such village communities as may have a right of free grazing on any part of the selected block, whenever such right is in any way interfered with.

And also will from time to time and at all times hereafter effectually keep indemnified the lessors, their successors and assigns from and against all claims, demands and expenses whatsoever by reason or in consequence of any injury to or interference with any lands or property whatsoever occasioned by or arising from the working under these presents or the exercise of the liberties hereby granted.

To indemnify lessors from all claims arising from exercise of liberties hereby granted.

And also will at the expiration or sooner determination of the said term deliver to the lessors, their successors or assigns the mines worked under these presents and all shafts, workings, boundary posts and fences connected therewith and all other the premises in good repair and working order and in all respects in such state and condition as shall be consistent with the due performance of the covenants hereinbefore contained free of any claim by the lessees, their executors, administrators or assigns against the lessors, their successors or assigns on account of buildings or other property left standing thereon, which buildings and other property the lessees, their executors, administrators or assigns shall be at liberty previously to remove.

To deliver to lessors mines, buildings, &c. on expiration of term.

Provided always and these presents are upon this express condition that if and whenever any part of the assessments, royalties, fines or other payments hereby reserved shall be in arrear for thirty days after due notice has been served on the lessees, their executors, administrators or assigns or any one or more of them or on their or his agents or fixed on any part of the selected block demanding payment of the same, or if the lessees, their executors, administrators or assigns or their or his workmen shall cease to carry on the regular working of the mines or cause any obstruction or annoyance to the officers of the lessors or of their successors or assigns or to the people of the country or refuse to afford information to the lessors, their successors or assigns, or if and whenever there shall be a breach of any of the covenants on the part of the lessees, their executors, administrators or assigns, then and in such case the lessors, their successors or assigns or their agent or agents duly empowered in that behalf may re-enter upon any part of the mines or workings carried on under this lease in the name of the whole and thereupon the said term of thirty years shall absolutely determine.

Proviso for re-entry on non-payment of assessments, royalties, fines, &c, or on breach of covenant.

Provided always and it is hereby agreed and declared that no such re-entry or forfeiture of the said term under the proviso for re-entry hereinbefore contained shall take place unless and until the lessors, their successors or assigns shall have given to the lessees, their executors, administrators or assigns a notice calling upon him or them to give a reasonable explanation of the matter or matters complained of and to rectify the same which notice shall be in writing signed on behalf of the lessors, their successors or assigns by the Civil Executive Officer of the said District of

Camp No. 1060.—In supersession of Notification No. 89 of the 4th June 1886, it is hereby notified that under Section 32, Clause 1, of the Forest Rules, no trees, bamboos, wood or timber shall be cut or removed from Inam lands without a pass duly obtained from the Deputy Commissioner of the District in which such lands may be situated or from such other officer as may be duly authorized by the Deputy Commissioner on that behalf.

The 30th August 1887.

No. 99.—The following Revised Rules for the sale of timber and bamboos by public auction in Mysore have been approved by His Highness the Maharaja's Government, and are published for general information :—

I. PROCEDURE.

1. Every auction sale shall be held by the Forest Officer in charge of the District, or other officer deputed by the Deputy Commissioner.

2. The highest bidder shall be the purchaser. Should any lot be disputed, it shall be again put up and resold.

3. Each purchaser shall, immediately after a lot has been knocked down to him, sign his name opposite the number and specification of the lot bought by him in a book provided for the purpose. Such signature shall be held as an admission on his part of having bought such lot.

II. PAYMENTS HOW TO BE MADE.

4. Immediately after the sale, each purchaser will be furnished with a memo showing the total amount due by him, and with a letter of advice to pay into the nearest Government Treasury, before the close of the 3rd or 5th day from the date of the sale, as circumstances may require, regard being had to the distance of Taluk Treasury, a sum not less than 25 per cent of the total amount due by him as a deposit. A receipt for the deposit money will be granted by the Treasury Officer, and must be presented to the Forest Officer before the close of fifth or eighth day from date of sale as fixed. The Forest Officer will initial the receipt, and enter on its face the date of presentation. Should any purchaser fail to comply with this regulation, the Forest Officer shall be at liberty to re-sell all or any portion of the timber and bamboos purchased by such defaulter, who shall be required to make good any loss, but shall not participate in any profit on such resale. The amount due by such defaulter shall be recovered as a revenue demand.

5. The whole quantity purchased by each purchaser must be paid for within 30 days from the date of sale, failing which, the deposit money already paid in shall be forfeited to the Government. Moneys due may be paid into the Treasury of the Taluk in which the wood-yard is situated, or into the District Treasury, but into no other, except in cases where the merchants are permitted to pay into any other Government Treasury.

III. DELIVERY OF WOOD.

6. No wood can be removed by any purchaser until it has been paid for in full, and until a "license to remove" shall have been obtained from the Forest Officer.

IV. WOOD-YARD RENT.

7. Timber and bamboos paid for under the preceding sections may be removed at any time within 30 days from date of sale, or within such further period (not exceeding 90 days from date of sale) as may be fixed by the Forest Officer, as the circumstances of each case may require, without payment of wood-yard rent; but if left in the wood-yard longer than that period from date of sale, shall be charged with wood-yard rent at 8 annas per log or 20 bamboos, per mensem, from date of sale. Should the space occupied by such wood be required for the storing of new wood, the Forest Officer shall be at liberty after giving the purchaser ten days' notice, to take the wood out of the wood-yard. and deposit it without the walls at the expense and risk of the purchaser.

V. LICENSES TO REMOVE.

8. No wood can be removed from the wood-yard till a "license to remove timber and bamboos," signed by the Forest Officer in charge of the District shall have been obtained; and all holders of such licenses shall be bound to abide by the conditions laid down in such licenses. Any trader or other infringing the terms of his license, or not returning his license on the expiration of the time allowed, shall be liable to be dealt with under the conditions prescribed in Section 40 of the Mysore Forest Rules.

VI. GENERAL.

9. The Forest Officer shall be at liberty to stop the sale at any time without giving any reason to the intending purchasers.

No. 100.—Attention is invited to Notification Camp No. 640, dated 18th September 1886, which directed all Public Offices to be closed for ten days from the 6th day of Dasara inclusive.

Under the above Notification the Dasara holidays for this year are from the 23rd September to 2nd October 1887, both days inclusive.

The 7th September 1887.

No 108.—It is hereby notified for public information that the undermentioned kayamguttu village, which has been duly attached in satisfaction of the arrears of revenue due to Government (as shown in the subjoined statement) by the said kayamguttadars, will be sold by public auction at the place and on the date mentioned in the annexed statement. The sale will commence at 11 A. M. on the date specified, and the village will be knocked down to the highest bidder without reserve.

2. Provided that when a village is divided into separate recognized vrittis, the Deputy Commissioner may, at his option, instead of selling the village as a whole, sell each vritti separately.

3. The purchaser will be required to deposit 25 per cent of the purchase money at the time of sale, and where the remainder of the purchase money may not be paid within fifteen days from the day of sale, the money so deposited shall be liable to forfeiture.

4. When such deposit shall not be made, nor the remaining purchase money paid up, the lands shall be resold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case to deposit a written authority signed by their principals, otherwise their bids may be rejected.

6. The sale shall be stayed, if the defaulter or any other person acting on his behalf or claiming an interest in the land tenders the full amount of the arrears of the revenue with the interest and other charges, provided such tender be made before sunset on the day previous to that appointed for the sale.

7. The sale of the property will not become absolute until the sale has been confirmed by the Dewan.

8. Purchasers having completed the payment of the purchase money will, as soon as the sale has been confirmed by the Dewan, be placed in immediate possession and the village will be registered in the name of the purchaser, and a certificate of sale signed and sealed by the Deputy Commissioner will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent.

9. Provided parties deeming themselves aggrieved by the sale shall be at liberty to appeal to the Dewan within 30 days from the day of sale, and the purchase shall be conditional on the final order in such appeal.

GENERAL.

NOTIFICATION.

No. 113. CAMP MYSORE, 12TH SEPTEMBER 1887.

Whereas under para V of Notification No. 107, dated 5th September 1887, His Highness the Maharaja's Government have decided to restrict the area in respect of which mining leases are to be granted to 35 square miles for the current year, and whereas more than one application have been received for a mining lease in respect of each of the blocks of land described in the Schedule A hereunto appended, and the Government have decided to grant a mining lease for each of the blocks aforesaid for such premium as can be obtained therefor by public competition, tenders for the leases aforesaid are hereby invited subject to the following conditions :—

I. Each tender must specify the particular block of land for which the tender is made and the amount of premium which the applicant is prepared to pay for the lease of that block, the terms of the lease being those specified in the Form B hereunto appended. The amount of premium must be stated either in pounds sterling or in rupees.

II. Each tender must be accompanied by a deposit equal to 10 per cent of the amount of premium tendered, the amount of deposit being paid to the credit of the Dewan of Mysore, into any Government Treasury in Mysore or any Presidency Bank in India or to Messrs. Coutts and Co., 59 Strand, London, and the receipt obtained for such payment being forwarded with the tender.

III. The tender must be in the Form C appended to this Notification.

IV. The tender with the receipt obtained for payment of the deposit under para II above, must be enclosed in a cover duly sealed and superscribed with the words "Tender for Mining Lease," and addressed to the Dewan of Mysore, Bangalore.

V. The tenders must reach the Dewan on or before noon on the 10th December 1887, when they will be opened by him at the Public Offices at Bangalore, in the presence of such of the applicants as may be present.

VI. The final disposal of the tenders will rest with the Dewan, who reserves to himself full power to reject the highest or any tender without assigning any reason.

VII. The applicant whose tender is accepted by the Dewan must, within 30 days of such acceptance being communicated to him, pay into any Government Treasury in Mysore, or any Presidency Bank in India, or to Messrs. Coutts and Co., London, to the credit of the Dewan of Mysore, the balance of the amount of the premium offered in the tender.

VIII. The names of the successful tenderers will be published in the Government Gazette, with a description of the blocks for which their tenders are accepted.

IX The deposits made by the tenderers whose tenders are rejected will be returned to them on their application.

X. The applicant whose tender has been accepted will be allowed to locate the block of land within the limits specified in the appended Schedule A, at any time before the execution of the lease, but he shall, within six months after payment of the balance of premium as laid down in para VII above, offer for execution by the Dewan acting on behalf of the Government, a duly stamped lease in the Form B hereunto appended.

XI. Should the successful tenderer fail to pay the balance of the premium as laid down in para VII, or to offer for execution a lease as laid down in para X, the deposit or other sums paid by the applicant to the credit of the Dewan up to the date of such default shall be forfeited to the Government, and the lands in respect of which such payments had been made shall be at the absolute disposal of the Government.

XII. A copy of the maps of the British Topographical Survey of Mysore (scale 1 mile to the inch) showing the situation of the blocks mentioned in Schedule A, will be maintained in the Dewan's Office, Bangalore, and will be open, free of charge, to the inspection of the public on application to the Under-Secretary.

By Order,

R. VIJAYINDRA RAO,
Chief Secretary.

yielding and paying therefor during the said term by instalments according to the rules in force in the said District of for the collection of land revenue, the amount of annual assessment at present chargeable on all the occupied and unoccupied arable Government lands comprised in the selected block or such larger sum as may at any time hereafter during the continuance of this lease upon any revision of land assessment be fixed by the lessors or their successors or assigns as chargeable on such lands by way of assessment and the jodi or quit-rent payable on any inam lands comprised in the said block and also yielding and paying an annual assessment of 8 annas per acre on all the unarable Government lands comprised in the selected block.

Paying assessment for Government lands and jodi and quit-rent for inam lands.

And also yielding and paying in addition to the annual assessment, jodi and quit-rent aforesaid, all local cesses and other taxes or rates of every description for the time being payable in respect of the premises or lands comprised in the selected block or of any buildings or works erected thereon.

Also local cesses, taxes or rates.

And also yielding and paying a royalty of five per cent upon the gross proceeds of all gold, metallic ores, coal and other substances of a saleable or merchantable nature which shall have been dressed, crushed and made merchantable by the lessees, their executors, administrators or assigns, such royalty being paid clear of all deductions whatsoever.

Also royalty of 5 per cent on gold, &c., obtained.

And also yielding and paying a royalty of ten per cent upon the saleable value of all precious stones found on the selected block, such royalty being paid clear of all deductions whatsoever.

Also royalty of 10 per cent on value of precious stones found.

And also yielding and paying on account of every assignment or under-lease which may at any time be made by the lessees, their executors, administrators or assigns, assigning or under-leasing the whole or any part of the said premises or all or any of the rights, liberties and licenses by these presents demised and granted, or granting any interest or share in the said premises or in all or any of the said rights, liberties and licenses, a fine of one-tenth of the consideration for such assignment or under-lease, such fine being paid clear of all deductions whatsoever, except that in the case of a second or subsequent assignment or under-lease the fine be computed on the amount of consideration therefor less the amount of consideration for the assignment or under-lease immediately preceding it. Provided that when the whole or part of the consideration for any assignment or under-lease consists of shares in a Company, the fine payable upon such whole or part consideration shall, at the option of the lessors, their successors or assigns, be payable either in shares of the said Company or their equivalent in money at their nominal value. And provided further that when the consideration for any assignment or under-lease is in whole or in part, of the nature of a rent, royalty or other periodical payment, the fine payable upon such whole or part consideration shall be in the nature of a rent, royalty or other periodical payment as the case may be, the present value of such rent, royalty or other periodical payment being assessable by the lessors, their successors or assigns, for the purpose of making the requisite deduction from the consideration for a subsequent assignment or under-lease in view to the computation of the fine leviable upon such subsequent assignment or under-lease. And provided further that no assignment or under-lease whatsoever shall be valid as against the lessors, their successors or assigns, until the fine upon such assignment or under-lease has been duly and fully paid to the lessors, their successors or assigns.

And also a fine of $\frac{1}{10}$th of the consideration for every assignment or under-lease.

Distraint by lessors for recovery of assessments, royalties, fines or other payments.

Provided always that if and whenever any of the said assessments, royalties, rents, fines or other payments shall be in arrear for the space of sixty days after the expiration of the time allowed by these presents for payment thereof and the lessees, their executors, administrators or assigns shall not pay the same within thirty days after the service upon him or them of a notice by the Civil Executive Officer of the said District of calling upon them or any of them to pay the same, the lessors, their successors or assigns shall be at liberty to seize all gold, metallic ores, precious stones, coal and other substances of a saleable nature in or about the mines or pits opened, worked or carried on by the lessees, their executors, administrators or assigns in the selected block, or any other property found in the selected block, and the lessors, their successors or assigns may sell and dispose of such gold, metallic ores, precious stones, coal and other substances and property and out of the moneys produced thereby may deduct and retain all arrears of assessments, royalties, fines or other payments then due under this lease and all expenses incurred in or about any such seizure and sale.

Covenant by lessee to prosecute mining operations without intermission.

And the lessees do hereby for themselves, their heirs, executors, administrators and assigns and as a separate covenant each of them doth hereby for himself, his heirs, executors, administrators and assigns covenant with the lessors, their successors and assigns that they the lessees, their executors, administrators or assigns will, during the first year of the lease, in the best and most effectual manner, prospect for gold or other metals or precious stones throughout the selected block, furnishing, if so required, to the lessors, their successors or assigns, true copies of any reports which may have been drawn up showing the results of prospecting operations.

And also will, if unable, within two years from the date of this lease, to form a company with a paid-up working capital of not less than £ 5,000 (five thousand pounds sterling) per square mile of the selected block, forfeit to the lessors, their successors or assigns, all rights, liberties, and privileges by this lease demised.

And also will, during the entire term of the lease, in the best and most effectual manner and without intermission, except when prevented by inevitable accident, search and mine for, work and make merchantable, all gold, metals, metallic ores, precious stones, coal and other substances of a saleable or merchantable nature within or upon the selected block.

To deliver to, or permit samples of gold, &c., to be taken by, lessors.

And also will if required and before the sale thereof deliver to or permit to be taken by the lessors, their successors or assigns or their agent or agents a sample or samples of all gold, metals, metallic ores, precious stones, coal and other substances which shall have been dressed, crushed and made merchantable and prepared for sale, all such samples so taken to be paid for by the lessors, their successors or assigns at the current market rate.

To make return of prices to lessors.

And also will immediately after any sale of the said gold, metals, metallic ores, precious stones, coal and other substances give to the lessors, their successors or assigns or their agent or agents a return of the prices for which the same respectively shall have been sold and if required the names of the purchasers thereof.

To pay royalties within 90 days after sale or six months from extraction of ore.

And also will, within ninety days after any such sale or within six months from the time of the extraction of the gold, metals, metallic ores, coal or other substances or the finding of the precious stones, pay to the lessors, their successors or assigns the royalties hereinbefore reserved.

And also will deliver to the lessors, their successors or assigns a copy of every assignment or under-lease of the said premises or any part thereof, or of all or any of the rights, liberties and licenses by these presents demised and granted or of any interest or share in the said premises or in all or any of the said rights, liberties and licenses within two calendar months after the date of such assignment or under-lease.

To deliver to lessors copies of all assignments.

And also will within ninety days after the date of such assignment or under-lease pay to the lessors, their successors or assigns the fine upon such assignment or under-lease hereinbefore provided and reserved.

To pay fines on all assignments within 90 days.

And also will throughout the said term make and keep in some convenient place on the selected block, and so that the lessors, their successors or assigns or their agent or agents can have at all times free access thereto, proper books of account of the working and yield of the said mines and the costs thereof and of the disposal of the gold, metals, metallic ores, precious stones, coal and other substances of a saleable or merchantable nature containing all particulars of quantities, dates and other facts and circumstances necessary or proper, for ascertaining the exact value of such gold, metals, metallic ores, precious stones, coal and other substances and also correct maps, plans and sections of the said mines and workings.

To keep proper books of accounts, plans, &c.

And also will, when required by the lessors, their successors or assigns or their agent or agents, give to them copies of all entries in the said books and of every such map, plan and section as aforesaid.

And give copies thereof to lessors.

And also will at the end or sooner determination of the said term give up to the lessors or their successors or assigns the said books, maps, plans and sections in good and perfect condition.

And give up to lessors books and plans at end of term.

And also will throughout the said term keep all boundary posts in good repair and condition and every shaft, pit or open working within the selected block sufficiently fenced for the protection of man and beast.

To keep boundary posts in good condition and shafts, &c., properly fenced.

And also will, throughout the said term, duly enforce in every part of the selected block such sanitary rules as the lessors, their successors, or assigns may from time to time prescribe.

And also will not, until the license in writing of the lessors, their successors or assigns or their agent or agents be obtained, wilfully close, fill up or choke any mine or shaft.

Not to fill up shafts or mines.

And also will keep open and not obstruct all or any existing roads, paths or by-ways of any kind whatsoever.

Or obstruct roads, &c.

And also will permit the lessors, their successors and assigns and their agent or agents, servants and workmen throughout the said term to enter upon any of the works carried on under or by virtue of these presents and examine the state and condition thereof and to use the engines, machinery and apparatus upon or within the selected block for that or any other lawful and reasonable purpose, the lessors, their successors and assigns making a reasonable compensation for such use except when required for examining and taking plans, and also to exercise the liberties hereinbefore reserved and will afford all reasonable facilities and assistance in the exercise thereof.

To permit lessors to inspect works, &c.

122

And also will from time to time make compensation to the tenant, occupier or other holder of any part or portion of the selected block for all damage or injury to or interference with the surface thereof.

To pay compensation for injury to surface rights

And also will make due compensation to such village communities as may have a right of free grazing on any part of the selected block, whenever such right is in any way interfered with.

And also will from time to time and at all times hereafter effectually keep indemnified the lessors, their successors and assigns from and against all claims, demands and expenses whatsoever by reason or in consequence of any injury to or interference with any lands or property whatsoever occasioned by or arising from the working under these presents or the exercise of the liberties hereby granted.

To indemnify lessors from all claims arising from exercise of liberties hereby granted.

And also will at the expiration or sooner determination of the said term deliver to the lessors, their successors or assigns the mines worked under these presents and all shafts, workings, boundary posts and fences connected therewith and all other the premises in good repair and working order and in all respects in such state and condition as shall be consistent with the due performance of the covenants hereinbefore contained free of any claim by the lessees, their executors, administrators or assigns against the lessors, their successors or assigns on account of buildings or other property left standing thereon, which buildings and other property the lessees, their executors, administrators or assigns shall be at liberty previously to remove.

To deliver to lessors mines, buildings, &c., on expiration of term.

Provided always and these presents are upon this express condition that if and whenever any part of the assessments, royalties, fines or other payments hereby reserved shall be in arrear for thirty days after due notice has been served on the lessees, their executors, administrators or assigns or any one or more of them or on their or his agents or fixed on any part of the selected block demanding payment of the same, or if the lessees, their executors, administrators or assigns or their or his workmen shall cease to carry on the regular working of the mines or cause any obstruction or annoyance to the officers of the lessors or of their successors or assigns or to the people of the country or refuse to afford information to the lessors, their successors or assigns, or if and whenever there shall be a breach of any of the covenants on the part of the lessees, their executors, administrators or assigns, then and in such case the lessors, their successors or assigns or their agent or agents duly empowered in that behalf may re-enter upon any part of the mines or workings carried on under this lease in the name of the whole and thereupon the said term of thirty years shall absolutely determine.

No. 113. CAMP MYSORE, 12TH SEPTEMBER 1887.

Whereas under para V of Notification No. 107, dated 5th September 1887, His Highness the Maharaja's Government have decided to restrict the area in respect of which mining leases are to be granted to 35 square miles for the current year, and whereas more than one application have been received for a mining lease in respect of each of the blocks of land described in the Schedule A hereunto appended, and the Government have decided to grant a mining lease for each of the blocks aforesaid for such premium as can be obtained therefor by public competition, tenders for the leases aforesaid are hereby invited subject to the following conditions :—

I. Each tender must specify the particular block of land for which the tender is made and the amount of premium which the applicant is prepared to pay for the lease of that block, the terms of the lease being those specified in the Form B hereunto appended. The amount of premium must be stated either in pounds sterling or in rupees.

II. Each tender must be accompanied by a deposit equal to 10 per cent of the amount of premium tendered, the amount of deposit being paid to the credit of the Dewan of Mysore, into any Government Treasury in Mysore or any Presidency Bank in India or to Messrs. Coutts and Co., 59 Strand, London, and the receipt obtained for such payment being forwarded with the tender.

III. The tender must be in the Form C appended to this Notification.

IV. The tender with the receipt obtained for payment of the deposit under para II above, must be enclosed in a cover duly sealed and superscribed with the words " Tender for Mining Lease," and addressed to the Dewan of Mysore, Bangalore.

V. The tenders must reach the Dewan on or before noon on the 10th December 1887, when they will be opened by him at the Public Offices at Bangalore, in the presence of such of the applicants as may be present.

VI. The final disposal of the tenders will rest with the Dewan, who reserves to himself full power to reject the highest or any tender without assigning any reason.

VII. The applicant whose tender is accepted by the Dewan must, within 30 days of such acceptance being communicated to him, pay into any Government Treasury in Mysore, or any Presidency Bank in India, or to Messrs. Coutts and Co., London, to the credit of the Dewan of Mysore, the balance of the amount of the premium offered in the tender.

VIII. The names of the successful tenderers will be published in the Government Gazette, with a description of the blocks for which their tenders are accepted.

IX. The deposits made by the tenderers whose tenders are rejected will be returned to them on their application.

X. The applicant whose tender has been accepted will be allowed to locate the block of land within the limits specified in the appended Schedule A, at any time before the execution of the lease, but he shall, within six months after payment of the balance of premium as laid down in para VII above, offer for execution by the Dewan acting on behalf of the Government, a duly stamped lease in the Form B hereunto appended.

XI. Should the successful tenderer fail to pay the balance of the premium as laid down in para VII, or to offer for execution a lease as laid down in para X, the deposit or other sums paid by the applicant to the credit of the Dewan up to the date of such default shall be forfeited to the Government, and the lands in respect of which such payments had been made shall be at the absolute disposal of the Government.

XII. A copy of the maps of the British Topographical Survey of Mysore (scale 1 mile to the inch) showing the situation of the blocks mentioned in Schedule A, will be maintained in the Dewan's Office, Bangalore, and will be open, free of charge, to the inspection of the public on application to the Under-Secretary.

By Order,

R. VIJAYINDRA RAO,
Chief Secretary.

Now this Indenture witnesseth that in consideration of the assessments, royalties, fines and other payments hereinafter reserved and of the covenants and agreements by the lessees hereinafter contained, the lessors do hereby demise and grant unto the lessees, their executors, administrators and assigns Exclusive license and liberty throughout so much of the selected block hereinbefore mentioned and described as consists of unassessed waste Government lands and unoccupied arable Government lands and also throughout so much of the said selected block as consists of occupied Government lands and inam lands the holders whereof the lessees, their executors, administrators or assigns have bought out or may buy out or with whom the lessees, their executors, administrators or assigns have made or may make their own terms as to the cession of their rights, to search for, mine and work all quartz, reefs and beds and strata of earth, stone or rock containing or supposed to contain gold, metallic ores, precious stones, coal or other substances of a merchantable nature and to wash, dress, crush and make merchantable all such gold, metallic ores, precious stones, coal and other substances found therein.

Together with liberty for lessee to sell produce of mining.

Together also with liberty for the lessees, their executors, administrators and assigns to remove, sell and dispose of all gold, metallic ores, precious stones, coal or other substances of a merchantable nature worked or found by them or any of them in or upon such parts of the selected block.

Habendum to lessee, his executors, administrators and assigns for term of 30 years.

To have and to hold the premises hereinbefore expressed to be hereby demised and granted unto the lessees, their executors, administrators and assigns for the term of thirty years from the day of the date of these presents.

131

Yielding and paying therefor during the said term by instalments according to the rules in force in the said District of for the collection of land revenue, the amount of annual assessment at present chargeable on all the occupied and unoccupied arable Government lands comprised in the selected block or such larger sum as may at any time hereafter during the continuance of this lease upon any revision of land assessment be fixed by the lessors or their successors or assigns as chargeable on such lands by way of assessment and the jodi or quit-rent payable on any inam lands comprised in the said block and also yielding and paying an annual assessment of 8 annas per acre on all the unarable Government lands comprised in the selected block.

Paying assessment for Government lands and jodi and quit-rent for inam lands.

And also yielding and paying in addition to the annual assessment, jodi and quit-rent aforesaid, all local cesses and other taxes or rates of every description for the time being payable in respect of the premises or lands comprised in the selected block or of any buildings or works erected thereon.

Also local cesses, taxes or rates.

And also yielding and paying a royalty of five per cent upon the gross proceeds of all gold, metallic ores, coal and other substances of a saleable or merchantable nature which shall have been dressed, crushed and made merchantable by the lessees, their executors, administrators or assigns, such royalty being paid clear of all deductions whatsoever.

Also royalty of 5 per cent on gold, &c., obtained.

And also yielding and paying a royalty of ten per cent upon the saleable value of all precious stones found on the selected block, such royalty being paid clear of all deductions whatsoever.

Also royalty of 10 per cent on value of precious stones found.

And also yielding and paying on account of every assignment or under-lease which may at any time be made by the lessees, their executors, administrators or assigns, assigning or under-leasing the whole or any part of the said premises or all or any of the rights, liberties and licenses by these presents demised and granted, or granting any interest or share in the said premises or in all or any of the said rights, liberties and licenses, a fine of one-tenth of the consideration for such assignment or under-lease, such fine being paid clear of all deductions whatsoever, except that in the case of a second or subsequent assignment or under-lease the fine be computed on the amount of consideration therefor less the amount of consideration for the assignment or under-lease immediately preceding it. Provided that when the whole or part of the consideration for any assignment or under-lease consists of shares in a Company, the fine payable upon such whole or part consideration shall, at the option of the lessors, their successors or assigns, be payable either in shares of the said Company or their equivalent in money at their nominal value. And provided further that when the consideration for any assignment or under-lease is, in whole or in part, of the nature of a rent, royalty or other periodical payment, the fine payable upon such whole or part consideration shall be in the nature of a rent, royalty or other periodical payment as the case may be, the present value of such rent, royalty or other periodical payment being assessable by the lessors, their successors or assigns, for the purpose of making the requisite deduction from the consideration for a subsequent assignment or under-lease in view to the computation of the fine leviable upon such subsequent assignment or under-lease. And provided further that no assignment or under-lease whatsoever shall be valid as against the lessors, their successors or assigns, until the fine upon such assignment or under-lease has been duly and fully paid to the lessors, their successors or assigns.

And also a fine of $\frac{1}{10}$th of the consideration for every assignment or under-lease.

Distraint by lessors for recovery of assessments, royalties, fines or other payments.

Provided always that if and whenever any of the said assessments, royalties, rents, fines or other payments shall be in arrear for the space of sixty days after the expiration of the time allowed by these presents for payment thereof and the lessees, their executors, administrators or assigns shall not pay the same within thirty days after the service upon him or them of a notice by the Civil Executive Officer of the said District of calling upon them or any of them to pay the same, the lessors, their successors or assigns shall be at liberty to seize all gold, metallic ores, precious stones, coal and other substances of a saleable nature in or about the mines or pits opened, worked or carried on by the lessees, their executors, administrators or assigns in the selected block, or any other property found in the selected block, and the lessors, their successors or assigns may sell and dispose of such gold, metallic ores, precious stones, coal and other substances and property and out of the moneys produced thereby may deduct and retain all arrears of assessments, royalties, fines or other payments then due under this lease and all expenses incurred in or about any such seizure and sale.

Covenant by lessee to prosecute mining operations without intermission

And the lessees do hereby for themselves, their heirs, executors, administrators and assigns and as a separate covenant each of them doth hereby for himself, his heirs, executors, administrators and assigns covenant with the lessors, their successors and assigns that they the lessees, their executors, administrators or assigns will, during the first year of the lease, in the best and most effectual manner, prospect for gold or other metals or precious stones throughout the selected block, furnishing, if so required, to the lessors, their successors or assigns, true copies of any reports which may have been drawn up showing the results of prospecting operations.

And also will, if unable, within two years from the date of this lease, to form a company with a paid-up working capital of not less than £ 5,000 (five thousand pounds sterling) per square mile of the selected block, forfeit to the lessors, their successors or assigns, all rights, liberties, and privileges by this lease demised.

And also will, during the entire term of the lease, in the best and most effectual manner and without intermission, except when prevented by inevitable accident, search and mine for, work and make merchantable, all gold, metals, metallic ores, precious stones, coal and other substances of a saleable or merchantable nature within or upon the selected block.

To deliver to, or permit samples of gold, &c., to be taken by, lessors.

And also will if required and before the sale thereof deliver to or permit to be taken by the lessors, their successors or assigns or their agent or agents a sample or samples of all gold, metals, metallic ores, precious stones, coal and other substances which shall have been dressed, crushed and made merchantable and prepared for sale, all such samples so taken to be paid for by the lessors, their successors or assigns at the current market rate.

To make return of prices to lessors.

And also will immediately after any sale of the said gold, metals, metallic ores, precious stones, coal and other substances give to the lessors, their successors or assigns or their agent or agents a return of the prices for which the same respectively shall have been sold and if required the names of the purchasers thereof.

To pay royalties within 90 days after sale or six months from extraction of ore.

And also will, within ninety days after any such sale or within six months from the time of the extraction of the gold, metals, metallic ores, coal or other substances or the finding of the precious stones, pay to the lessors, their successors or assigns the royalties hereinbefore reserved.

133

And also will deliver to the lessors, their successors or assigns a copy of every assignment or under-lease of the said premises or any part thereof, or of all or any of the rights, liberties and licenses by these presents demised and granted or of any interest or share in the said premises or in all or any of the said rights, liberties and licenses within two calendar months after the date of such assignment or under-lease.

To deliver to lessors copies of all assignments.

And also will within ninety days after the date of such assignment or under-lease pay to the lessors, their successors or assigns the fine upon such assignment or under-lease hereinbefore provided and reserved.

To pay fines on all assignments within 90 days.

And also will throughout the said term make and keep in some convenient place on the selected block, and so that the lessors, their successors or assigns or their agent or agents can have at all times free access thereto, proper books of account of the working and yield of the said mines and the costs thereof and of the disposal of the gold, metals, metallic ores, precious stones, coal and other substances of a saleable or merchantable nature containing all particulars of quantities, dates and other facts and circumstances necessary or proper, for ascertaining the exact value of such gold, metals, metallic ores, precious stones, coal and other substances and also correct maps, plans and sections of the said mines and workings.

To keep proper books of accounts, plans, &c.

And also will, when required by the lessors, their successors or assigns or their agent or agents, give to them copies of all entries in the said books and of every such map, plan and section as aforesaid.

And give copies thereof to lessors.

And also will at the end or sooner determination of the said term give up to the lessors or their successors or assigns the said books, maps, plans and sections in good and perfect condition.

And give up to lessors books and plans at end of term.

And also will throughout the said term keep all boundary posts in good repair and condition and every shaft, pit or open working within the selected block sufficiently fenced for the protection of man and beast.

To keep boundary posts in good condition and shafts, &c., properly fenced.

And also will, throughout the said term, duly enforce in every part of the selected block such sanitary rules as the lessors, their successors, or assigns may from time to time prescribe,

And also will not, until the license in writing of the lessors, their successors or assigns or their agent or agents be obtained, wilfully close, fill up or choke any mine or shaft.

Not to fill up shafts or mines.

And also will keep open and not obstruct all or any existing roads, paths or by-ways of any kind whatsoever.

Or obstruct roads, &c.

And also will permit the lessors, their successors and assigns and their agent or agents, servants and workmen throughout the said term to enter upon any of the works carried on under or by virtue of these presents and examine the state and condition thereof and to use the engines, machinery and apparatus upon or within the selected block for that or any other lawful and reasonable purpose, the lessors, their successors and assigns making a reasonable compensation for such use except when required for examining and taking plans, and also to exercise the liberties hereinbefore reserved and will afford all reasonable facilities and assistance in the exercise thereof.

To permit lessors to inspect works, &c.

134

And also will from time to time make compensation to the tenant, occupier or other holder of any part or portion of the selected block for all damage or injury to or interference with the surface thereof.

To pay compensation for injury to surface rights.

And also will make due compensation to such village communities as may have a right of free grazing on any part of the selected block, whenever such right is in any way interfered with.

And also will from time to time and at all times hereafter effectually keep indemnified the lessors, their successors and assigns from and against all claims, demands and expenses whatsoever by reason or in consequence of any injury to or interference with any lands or property whatsoever occasioned by or arising from the working under these presents or the exercise of the liberties hereby granted.

To indemnify lessors from all claims arising from exercise of liberties hereby granted.

And also will at the expiration or sooner determination of the said term deliver to the lessors, their successors or assigns the mines worked under these presents and all shafts, workings, boundary posts and fences connected therewith and all other the premises in good repair and working order and in all respects in such state and condition as shall be consistent with the due performance of the covenants hereinbefore contained free of any claim by the lessees, their executors, administrators or assigns against the lessors, their successors or assigns on account of buildings or other property left standing thereon, which buildings and other property the lessees, their executors, administrators or assigns shall be at liberty previously to remove.

To deliver to lessors mines, buildings, &c., on expiration of term.

Provided always and these presents are upon this express condition that if and whenever any part of the assessments, royalties, fines or other payments hereby reserved shall be in arrear for thirty days after due notice has been served on the lessees, their executors, administrators or assigns or any one or more of them or on their or his agents or fixed on any part of the selected block demanding payment of the same, or if the lessees, their executors, administrators or assigns or their or his workmen shall cease to carry on the regular working of the mines or cause any obstruction or annoyance to the officers of the lessors or of their successors or assigns or to the people of the country or refuse to afford information to the lessors, their successors or assigns, or if and whenever there shall be a breach of any of the covenants on the part of the lessees, their executors, administrators or assigns, then and in such case the lessors, their successors or assigns or their agent or agents duly empowered in that behalf may re-enter upon any part of the mines or workings carried on under this lease in the name of the whole and thereupon the said term of thirty years shall absolutely determine.

Proviso for re-entry on non-payment of assessments, royalties, fines, &c, or on breach of covenant.

Provided always and it is hereby agreed and declared that no such re-entry or forfeiture of the said term under the proviso for re-entry hereinbefore contained shall take place unless and until the lessors, their successors or assigns shall have given to the lessees, their executors, administrators or assigns a notice calling upon him or them to give a reasonable explanation of the matter or matters complained of and to rectify the same which notice shall be in writing signed on behalf of the lessors, their successors or assigns by the Civil Executive Officer of the said District of

or by any other officer specially empowered in that behalf, and shall be served on the lessees, their executors, administrators and assigns or any one or more of them or on their or his agents or fixed on any part of the selected block and default shall

III. A list of such subjects with the names of the members who would speak on them should be given to the Chief Secretary at least 3 days before the first meeting of the Assembly.

IV. The order in which the various subjects would be discussed will thereupon be decided by the Dewan and duly published.

V. Endeavours will be made to publish the Proceedings of the Assembly in Kanarese from day to day.

RULES FOR THE SELECTION OF MEMBERS FOR THE ASSEMBLY.

I. The maximum number of members representing land-holders shall ordinarily be five for each Taluk, subject to the provisions of Rule VIII. They shall be selected by the Deputy Commissioner from among the land-holders in the Taluk paying not less than a certain amount of annual land revenue to Government. Such amount shall be fixed by the Deputy Commissioner according to the agricultural condition of each Taluk.

II. The interests of alienated villages throughout the District shall be fairly represented.

III. There shall also be a fair number of merchants and traders, representing the interests of trade in the District.

IV. Each Local Fund Board may depute two of their members to represent the interests of the District generally.

V. Each Municipality may depute a member of their body to the Assembly. In the case of Municipalities at District Head-Quarters, two members may be deputed.

VI. Associations representing public interests and consisting of more than 100 members, as well as European Planters' Associations, may depute one of their members to represent their interests at the Assembly.

VII. Separate members need not be selected under each of the above Rules in cases where members selected under any one Rule sufficiently represent the interests referred to in one or more of the other Rules.

VIII. The total number of Representatives of all the foregoing classes for each District is for the present limited as follows :—

For Kadur and Shimoga Districts.—At 5 members for each Taluk.

For Mysore and Bangalore Districts—At 4 members for each Taluk and 4 for each of the Cities of Mysore and Bangalore.

For other Districts.—At 4 members for each Taluk.

This gives a maximum of 285 members for the Assembly.

IX. The selection of members in the manner aforesaid shall be made fully a month before the meeting of the Assembly and a list of the names of the gentlemen selected shall be posted in conspicuous parts of the District and Taluk Cutcherries for general information. The fact of the selection shall be notified to the members as soon as the selection is made.

No. 121. *The 17th September* 1887.

The following Rules regarding the grant on favorable terms of Government land for garden cultivation, have been sanctioned by His Highness the Maharaja's Government and are hereby published for general information and guidance :—

1. Unassessed Government waste land applied for for *Dhruvapair* garden cultivation will, where no objection exists to the grant, be given to the applicant, subject to the following rates of assessment, namely :—

A. For arecanut garden in the Malnad.

1st. For the first twelve years including the year of the grant, 4 annas per acre per annum.

2ndly. For the 13th, 14th and 15th years, at $\frac{1}{4}$, $\frac{1}{2}$ and $\frac{3}{4}$, respectively, of the average rate for gardens of the same description in the village, or, where there is no such garden in the village, of the average rate for such gardens in neighbouring villages, or of such garden rate as may be fixed either by the Superintendent of Revenue Survey upon report from the Deputy Commissioner, or at the introduction or revision of a Revenue Survey Settlement.

And *3rdly.* The full garden rate fixed as above to come into operation from the 16th year.

B. For arecanut gardens in the Maidan and for all cocoanut gardens.

1st. For the first nine years, including the year of the grant, at 4 annas per acre per annum.

2ndly. For the 10th, 11th and 12th years, at $\frac{1}{4}$, $\frac{1}{2}$ and $\frac{3}{4}$, respectively, of the average rate for gardens of the same description in the village, or, where there is no such garden in the village, of the average rate for such gardens in neighbouring villages, or of such garden rate as may be fixed either by the Superintendent of Revenue Survey upon report from the Deputy Commissioner, or at the introduction or revision of a Revenue Survey Settlement.

And *3rdly*. The full garden rate, fixed as above, to come into operation from the 13th year.

2. Within two years of the date of the grant, the land taken up should be entirely planted up. But in the case of areas exceeding 50 acres granted for garden cultivation, the grantee will be required to plant up not less than one-fifth of the entire area in each year, so as to bring the entire land under garden cultivations by the end of the 5th year. Failure to comply with these conditions as to planting shall render the entire land liable to the full garden rate fixed in the manner aforesaid, together with a fine equal to the estimated value of the trees which might have stood on the land when it was taken up. The amount of such fine shall always be entered in every *kaul* granted under these Rules. The grantee who fails to plant up the entire area of the grant within the prescribed time will however be allowed to resign any portion of the grant in compact blocks of not less than 10 acres each.

3. No kaul shall be granted under these Rules for small and insignificant bits of land in Maidan Taluks in spots such as feeders of tanks, tank-beds, voms, and such like, which are purposely excluded from agricultural lands at the survey. The minimum area to be granted shall be 2 acres.

4. The garden rate of assessment referred to in the preceding Rules shall not be liable to revision otherwise than at a general revision of land revenue assessment throughout the Taluk.

5. *Kauls* under these Rules may be granted both in surveyed and unsurveyed Taluks and shall be in the appended Form.

6. Applications for *kauls* under these Rules shall be made in writing to the Amildar, who shall make such enquiry as may be necessary and submit the application to the Deputy Commissioner for orders, with as little delay as possible.

7. In the case of arecanut and cocoanut gardens assessed at garden rates which have, from any cause whatsoever, remained unoccupied for more than 3 years preceding this date, the Deputy Commissioner may, in his discretion, grant such partial temporary remission of the existing garden assessment as may appear to him to be reasonable with reference to the present condition of the gardens, but not so as to exceed one half of the term of favorable assessment allowable under Rule 1.

8. Cases falling under Rule 7 above which, in the opinion of the Deputy Commissioner, may require more liberal concessions than are authorized by that Rule, will be specially reported for the orders of Government through the Superintendent of Revenue Survey.

9. Where delay is apprehended in ascertaining the garden rate referred to in Rule 1, the Deputy Commissioner shall grant the *kauls* applied for, reserving expressly for future decision the rate of garden assessment to be fixed. In such case the rate of garden assessment shall be fixed and duly entered in revised *kauls* to be issued as early as possible in substitution of those already issued.

10. In the Malnad Taluks of the Province, unassessed Government waste land shall not be assessed and granted for occupation, except upon the distinct understanding of the liability of such land to the special garden rate of assessment in force for the time being.

The 4th October 1887.

No. 126.—Mr. V. K. Swaminatha Iyer, Assistant Surgeon, Kolar District, who availed himself, from 6th September 1887, of the 15 days' privilege leave granted to him in Notification No. C. 1187 of the 9th idem, having returned to duty on the 20th idem. the unexpired portion of the leave, *viz.* one day, is hereby cancelled.

The 5th October 1887.

No. 127.—Mr. Abdul Rahman delivered over and Mr. T. Ananda Rao received, charge of the Mysore District and Treasury on the morning of the 25th ultimo.

No 128.—The following sections will be substituted for Sections XVII and XVIII of the Survey Guarantee :—

XVII. The Irrigation Cess will similarly merge in the future Survey valuation of all wet lands held in Inam, whether in Government villages or in whole Inam villages, and $\frac{1}{4}$ th of such valuation will be collected similarly to a jodi, but under the designation of "Equivalent of the Irrigation Cess" separately from, and in addition to, the quit-rent leviable on such lands or villages, and be carried to the account of the "District Irrigation Fund." But such wet lands in whole Inam villages as may derive their irrigation exclusively from a tank or other source of irrigation situated wholly within such villages shall not be liable to pay any Irrigation Cess or the equivalent thereof to the Government.

Provided that, for the purpose of fixing the amount of Irrigation Cess, the Survey Department shall ascertain and record the assessment of such wet lands in Inam villages as may be irrigated by a Government irrigation work. And provided further that the Survey valuation of all Inam or other wet lands shall include any separate water rate which may be imposed thereupon.

XVIII. Kayamgutta villages and Inam villages (Sarvamanyam or Jodi) shall pay Local Fund Cess at the rate of one anna in the rupee, the former at the fixed kayamgutta rent and the latter on the recorded value of the Inam.

No. 129.—Rule VI of the Rules for the guidance of District Committees in the administration of the District Irrigation Cess Fund, published with the late Chief Commissioner's Notification No. 62, dated 7th May 1875, is amended as follows :—

VI. Holders of Inam and Kayamgutta villages being relieved of the obligation to pay Irrigation Cess in respect of wet lands irrigated exclusively from their village tanks, their responsibility for the execution of timely repairs to such tanks and for maintaining them always in a proper condition will be strictly enforced. If they fail to maintain their tanks in a proper condition or to execute the needful repairs in due time or with reasonable despatch and efficiency, it will be competent to the Government to take the work in hand and carry it out, the outlay being recovered from them as a revenue demand.

The 6th October 1887.

The 7th October 1887

No. 133.—M. B. Krishnaiengar delivered over and Mr. K. Ramachandra Rao assumed, charge of the General Assistant Commissioner's Court and Office on the afternoon of the 30th September 1887.

By Order,
R. VIJAYINDRA RAO,
Chief Secretary.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 1st September 1887.

No. 3786-95—101, DATED BANGALORE, 1ST SEPTEMBER 1887.

ORDER.—Under the authority of Rule XVII of the Survey Guarantee as revised by Notification No. 341, dated 11th February 1875, a levy of 1-17th of the Survey valuation of all wet lands in Inam villages is made under the designation of "Equivalent of the Irrigation Cess." This levy has been the subject of complaint generally on the part of Inamdars who urge that it is unjust inasmuch as the lands in question derive no benefit from any Government source of irrigation. His Highness' Government are of opinion that this complaint is well founded in the case of such Inamdars of whole villages as hold inain wet lands irrigated exclusively from Inam tanks. The Government accordingly sanction the abolition of this levy. But in sanctioning this measure, the Government desire to impress upon all Inamdars who benefit by it that their responsibility for the execution of timely repairs to their tanks and for the maintenance of them always in proper condition will be strictly enforced. If they fail in this duty, the necessary work will be executed by Government and the cost recovered from the Inamdars as a revenue demand.

2. In accordance with the above orders, the following Sections will be substituted for Sections XVII and XVIII of the Survey Guarantee :—

XVII. The Irrigation Cess will similarly merge in the future Survey valuation of all wet lands held in inam, whether in Government villages or in whole inam villages and 1-17th of such valuation will be collected similarly to a Jodi, but under the designation of "Equivalent of the Irrigation Cess," separately from, and in addition to, the quit-rent leviable on such lands or villages and be carried to the account of the "District Irrigation Fund." But such wet lands in whole inam villages as may derive their irrigation exclusively from a tank or other source of irrigation situated wholly within such villages shall not be liable to pay any Irrigation Cess or the equivalent thereof to the Government.

Provided that, for the purpose of fixing the amount of Irrigation Cess, the Survey Department shall ascertain and record the assessment of such wet lands in inam villages as may be irrigated by a Government irrigation work. And provided further that the Survey valuation of all inam or other wet lands shall include any separate water rate which may be imposed thereupon.

XVIII. Kayamgutta villages and Inam villages (Sarvamanyam or Jodi) shall pay Local Fund Cess at the rate of one anna in the rupee, the former at the fixed Kayamgutta rent and the latter on the recorded value of the inam.

3. Similarly Rule VI of the rules for the guidance of District Committees in the administration of the District Irrigation Cess Fund, published with the late Chief Commissioner's Notification No. 62, dated 7th May 1875, will be amended as ollows :—

150

VI. Holders of Inam and Kayamgutta villages being relieved of the obligation to pay Irrigation Cess in respect of wet lands irrigated exclusively from their village tanks, their responsibility for the execution of timely repairs to such tanks and for maintaining them always in a proper condition will be strictly enforced. If they fail to maintain their tanks in a proper condition or to execute the needful repairs in due time or with reasonable despatch and efficiency, it will be competent to the Government to take the work in hand and carry it out, the outlay being recovered from them as a revenue demand.

4. These amendments will be published in the Gazette for general information.

5. The orders conveyed in Proceedings No. 7416—225, dated 17th December 1881, for holding in abeyance the Irrigation Cess levied from wet lands in Inam villages are hereby withdrawn. The amount shown in the accounts as due on account of wet inam lands which do not derive irrigation from Government works should be written off under the rules now sanctioned, the amounts thus written off being duly reported to this office. Early measures should be adopted for the recovery of the arrears under this head in other cases.

6. The Deputy Commissioners are requested to decide in communication with the Superintendent of Revenue Survey, what inam wet lands must be exempted for the levy of the Irrigation Cess or its equivalent under Section XVII of the Survey Guarantee revised as above.

Chief Secretary.

GENERAL.

NOTIFICATIONS.

The 5th November 1887.

Camp No. 1723.—It is hereby notified for general information that cholera is still prevalent in many parts of the Province, and persons intending to visit Bisle in the Manjarabad Taluk of the Hassan District, during the approaching Subrahmanya Jatra, are therefore advised not to incur the risk that will attend their going there

The 11th November 1887.

It is hereby notified for public information that the undermentioned jodi and kayamgutta villages, which have been duly attached in satisfaction of the arrears of revenue due to Government (as shown in the subjoined statement) by the said jodi and kayamguttadars, will be sold by public auction at the places and on the dates mentioned in the annexed statement. The sale will commence at 11 A. M. on the dates specified, and the villages will be knocked down to the highest bidder without reserve.

2. Provided that when a village is divided into separate recognized vrittis, the Deputy Commissioner may at his option, instead of selling the village as a whole, sell each vritti separately.

3. The purchaser will be required to deposit 25 per cent of the purchase money at the time of sale, and where the remainder of the purchase money may not be paid within fifteen days from the day of sale, the money so deposited shall be liable to forfeiture.

4. When such deposit shall not be made, nor the remaining purchase money paid up, the lands shall be resold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case to deposit a written authority signed by their principals, otherwise their bids may be rejected.

170

6. The sale shall be stayed, if the defaulter or any other person acting on his behalf or claiming an interest in the land tenders the full amount of the arrears of the revenue with the interest and other charges, provided such tender be made before sunset on the day previous to that appointed for the sale.

7. The sale of the property will not become absolute until the sale has been confirmed by the Dewan.

8. Purchasers having completed the payment of the purchase money will, as soon as the sale has been confirmed by the Dewan, be placed in immediate possession and the village will be registered in the name of the purchaser, and a certificate of sale signed and sealed by the Deputy Commissioner will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent.

9. Provided parties deeming themselves aggrieved by the sale shall be at liberty to appeal to the Dewan within 30 days from the day of sale and the purchase shall be conditional on the final order in such appeal.

NOTIFICATIONS.

The 14th December 1887.

No. 154.—During the absence from Mysore Territories of Mr. K. Sheshadri Iyer, C. S. I., on duty with His Highness the Maharaja on tour, His Highness has been pleased to appoint Mr. T. R. A. Thumboo Chetty, to officiate as Dewan of Mysore and *ex-officio* President of His Highness the Maharaja's Council.

K. SHESHADRI IYER,
Dewan.

The 25th November 1887.

It is hereby notified for public information that the undermentioned jodi and kayamgutta villages, which have been duly attached in satisfaction of the arrears of revenue due to Government (as shown in the subjoined statement) by the said jodi and kayamgutthidars, will be sold by public auction at the places and on the dates mentioned in the annexed statement. The sale will commence at 11 A. M. on the date specified, and the villages will be knocked down to the highest bidder without reserve.

2. Provided that when a village is divided into separate recognized vrittis, the Deputy Commissioner may, at his option, instead of selling the village as a whole, sell each vritti separately.

3. The purchaser will be required to deposit 25 per cent of the purchase money at the time of sale, and where the remainder of the purchase money may not be paid within fifteen days from the day of sale, the money so deposited shall be liable to confiscature.

4. When such deposit shall not be made, nor the remaining purchase money paid up, the lands shall be resold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case to deposit a written authority signed by their principals, otherwise their bids may be rejected.

188.

6. The sale shall be stayed, if the defaulter or any other person acting on his behalf or claiming an interest in the land, tenders the full amount of the arrears of the revenue with the interest and other charges, provided such tender be made before sunset on the day previous to that appointed for the sale.

7. The sale of the property will not become absolute until the sale has been confirmed by the Dewan.

8. Purchasers having completed the payment of the purchase money will, as soon as the sale has been confirmed by the Dewan, be placed in immediate possession and the village will be registered in the name of the purchaser, and a certificate of sale signed and sealed by the Deputy Commissioner will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent.

9. Provided parties deeming themselves aggrieved by the sale shall be at liberty to appeal to the Dewan within 30 days from the day of sale, and the purchase shall be conditional on the final order in such appeal.

The 3rd December 1887.

Camp No. 2019.—It is hereby notified that all Public Offices in the Mysore State will be closed for the Christmas holidays from Thursday the 22nd December 1887 to Wednesday the 4th January 1888, both days inclusive.

Provision will be made by Heads of Departments for the despatch of urgent business during the vacation.

This Notification does not apply to Taluk establishments, or those engaged in the Jamabandi settlement.

The 5th December 1887.

Camp No. 2037.—P. Subba Rao Naidu, Head Clerk in the late Consulting Engineer's Office and now a Supernumerary, is appointed to act as 5th Grade Amildar and 3rd Class Magistrate of the Huriyur Taluk during the absence of Lakshmau Rao or until further orders.

No. 151.—When an Inamdar is permitted to use Government water, the produce of a Government irrigation work, to irrigate his inam land, and where the water thus permitted to be used is either irrigation newly granted or is irrigation in excess of the quantity to which he is entitled in virtue of the inam, he shall be liable to pay a water rate to the Government calculated at the following rates, *viz*:—

(1) Rs 4 per acre when the irrigation is supplied wholly at Government expense from a Government river irrigation channel.
(2) Rs. 3 per acre for irrigation from a private branch channel allowed to be drawn from a Government river irrigation channel.
(3) Rs. 2—8—0 per acre for irrigation from a good Government tank or other irrigation work distributing water till about March.
(4) Rs. 1—8—0 per acre for irrigation from other inferior sources of Government water-supply.

2. The above rates are applicable to unsurveyed Taluks and are liable to revision on the introduction of the survey settlement. In surveyed Taluks, the Deputy Commissioner shall fix the water-rate for each case in accordance with the principle of the above classification, but with due regard to the survey valuation of similar neighbouring lands, minus the ordinary dry rate, after reference, in cases of doubt, to the Survey Superintendent.

3. Water-rates fixed under this Notification should invariably be reported to the Survey and Settlement Department.

The 12th December 1887.

No. 153.—The following rules for dealing with excesses in minor inams in the settled Maidan Taluks, where such inams are enjoyed in land, are published for general information in supersession of all previous rules and orders on the subject :—

1. All inams the survey assessment of which, as now enjoyed, does not exceed Rs. 5, will be confirmed in full.

2. In the case of inams, the survey valuation of which, as now enjoyed, exceeds Rs. 5, one-half of the excess over and above the extent authorized by the Inam Department (shall in lieu of the 10 per cent of such excess allowed by the rules hitherto in force) be confirmed as inam, in addition to the said authorized extent, the other half being charged with the full survey assessment.

Provided that in no case land bearing survey assessment of more than three times the survey valuation of the extent of inam authorized by the Inam Department shall be continued as inam, except when three times such survey valuation falls short of Rs. 5, in which case land bearing survey assessment up to, but not exceeding Rs. 5, shall be confirmed as inam out of the extent hitherto enjoyed as inam.

Provided also that in no case shall the inam confirmed under this rule bear survey valuation of less than Rs. 5.

3. Out of any individual survey number hitherto enjoyed as inam, all excess over and above the extent confirmed as inam under rule 2 above shall be treated as Government land and charged with full assessment. When such excess does not exceed Rs. 2 in survey valuation, it shall be treated as part of the inam and the assessment charged on it by way of a jodi. When such excess exceeds Rs. 2 in survey valuation, it shall be treated as one or more separate survey fields of Government land and charged separately with its or their appropriate Government assessment.

The 10th December 1887.

No. 152.—The Rules contained in the subjoined Resolution of the Government of India Circular No. 2, Public Works, dated, Simla, 3rd August 1887, are hereby declared applicable, as far as they may be, to the officers of the Mysore Government.

Resolution.—In re-issuing the rules contained in Home Department Resolution of the 11th May 1885, with certain necessary additions, the Governor-General in Council desires to invite the renewed attention of Local Governments and Administrations to the subject with which they deal, and to impress on all concerned by them the duty of exact obedience to these regulations.

2. The Rules do not apply to the receipt of addresses by the Head of any Government or Administration.

Rules.

1. Save as in these rules otherwise provided, all servants of Government, covenanted or uncovenanted, are forbidden to receive complimentary or valedictory addresses in any form; or to accept testimonials of any kind; or to attend public meetings or complimentary entertainments of a formal and public character held in their honor.

2. The Government views with disfavor all similar manifestations in the case of retired officers, when following immediately upon their retirement from acting service, and designed as an acknowledgment of acts done by them while in the service of Government.

3. It is not intended to prohibit such an expression of regard for the private or official character of an officer retiring from service, or leaving his station or district, as is involved in a farewell entertainment supported by his personal friends, even though some of these may be his official subordinates. But it is expected that the proceedings on such occasions will be substantially of a private and informal character.

4. Local Governments and Administrations are authorized to forward to an officer who has left a station or district the resolution of any local public body recording a vote of thanks to him for help and advice afforded during his official connection with the station or district.

5. Medical Officers are not prohibited from receiving pecuniary recognition of their services from a community or body of persons which may desire to acknowledge these, but the previous sanction of the Local Government or Administration must be obtained by Medical officers before receiving any public complimentary address.

6. Nothing in the above rules is meant to prohibit compliance with the request of a public body that a Government officer should sit for his portrait, bust or statue in recognition of his public services: provided that the portrait, bust or statue is not intended for presentation to the officer concerned.

7. The participation of Government officers in the raising of funds for the foundation of scholarships, or for procuring a portrait, bust or statue, as a spontaneous recognition of the services of Government officer is not forbidden; but it should be clearly understood that any solicitation on the part of officers of Government for subscriptions from any person who does not voluntarily come forward to contribute is disapproved by the Government of India.

8. The previous sanction of the Government of India must be obtained to the relaxation of these rules in any special case in which the Local Government or Administration may think this desirable.

The 14th December 1887.

No. 155.—The Government of His Highness the Maharaja hereby sanction the following rules for regulating the transit of timber cut in coffee lands.

Reserved Timber.

1. Coffee land holders will be at liberty to cut in their estates reserved timber for their own *bonâ fide* private use without previous reference to Government officers.

2. If a coffee land holder wishes to remove reserved timber for such *bonâ fide* use beyond the estate in which it is cut, he shall previously apply to and obtain from the District Forest Officer a free pass in the accompanying form.

193

3. The pass shall accompany the timber in transit and shall be liable to examination by Government, Police, Forest and Revenue Officers. If the wood is removed in different occasions, it should be accompanied each time by the pass, a note being made by the coffee land holder on the back thereof of the quantity in cart-loads removed on each occasion.

4. The timber shall be conveyed within the time prescribed in the pass and the pass shall be returned to the issuing office on or before the date prescribed therein.

5. All reserved timber to be conveyed beyond the estate shall be marked with the private stamp of the coffee land holder which shall be registered under Section 39 of the Forest Rules.

6. All timber removed from coffee lands, the purchasers of which have bought the Government right to reserved trees excepting sandal by paying the upset price per acre, shall also be covered by a free pass as above prescribed.

Unreserved Wood and Bamboos.

7. Coffee land holders or purchasers from them wishing to convey unreserved wood and bamboos beyond the estate in which they are cut shall similarly obtain a free pass from the Amildar of the Taluk. The provisions of Rules 1 to 5 inclusive shall apply to the transit of such timber and bamboos.

8. Any coffee land holder or other person infringing the provisions of these rules will be liable to punishment under Section 40 of the Forest Rules.

Number and Date of Pass.	Name of Person to whom issued.	Name of Coffee Plantation.	Description of Timber or Bamboos.	Quantity.	Where to be conveyed.	Time within which to be conveyed.	When Pass to be returned.	When returned.

No. 153.—The Government of His Highness the Maharaja have sanctioned the following rules for regulating payment of seigniorage for cutting reserved timber in coffee lands for other than *bonâ fide* private use of the owner and for regulating removal of the same in accordance with the Government Notification Camp No. 8, dated the 2nd April last.

1. A coffee land holder wishing to fell on his coffee land reserved timber for other than his own *bonâ fide* private use will pay into the Taluk Treasury the prescribed seigniorage, hereunder set forth for ready reference, and obtain a receipt from the Treasury Officer.

Teak	Rs. 8	per tree to be felled.
Poon	„ 6	do
Black-wood	„ 8	do
Honne	„ 3	do
Jalari	„ 3	do
Nandi	„ 3	do

2. The coffee land holder will thereupon send his application for permission to cut and remove timber accompanied by the aforesaid receipt to the District Forest Officer, stating the description, number and situation of the trees to be cut.

3. The District Forest Officer will, on receipt of such application, issue a license in the annexed form authorizing the felling and removal of timber. All wood cut and removed from coffee land should be accompanied in its transit by the license under which it has been cut. If the wood so cut is removed on different occasions, it should be accompanied each time by the license, a note being made by the coffee land holder on the back of the license of the quantity in cart-loads removed on each occasion.

194

The license will be liable, during transit of wood, to examination by Government, Forest, Police and Revenue Officers. Separate licenses should be obtained if a coffee land holder wishes to dispose of his trees to different individuals.

4. The licensee or the person purchasing wood from the licensee will be bound to return the license within the prescribed time to the officer issuing the same.

5. All timber to be conveyed beyond the estate in which it is cut should be marked with the private stamp of the coffee land holder or his vendee which should be registered under Section 39 of the Forest Rules.

6. Every person cutting or removing reserved wood on coffee land for other than his own *bonâ fide* private use otherwise than under a license issued under these rules or otherwise infringing these rules, will be liable to punishment under Section 40 of the Forest Rules.

Notifications by the Dewan to His Highness the Maharaja of Mysore.

GENERAL.

NOTIFICATIONS.

The 25th November 1887.

It is hereby notified for public information that the undermentioned jodi and kayamgutta villages, which have been duly attached in satisfaction of the arrears of revenue due to Government (as shown in the subjoined statement) by the said jodi and kayamguttadars, will be sold by public auction at the places and on the dates mentioned in the annexed statement. The sale will commence at 11 A. M. on the date specified, and the village will be knocked down to the highest bidder without reserve.

2. Provided that when a village is divided into separate recognized vrittis, the Deputy Commissioner may, at his option, instead of selling the village as a whole, sell each vritti separately.

3. The purchaser will be required to deposit 25 per cent of the purchase money at the time of sale, and where the remainder of the purchase money may not be paid within fifteen days from the day of sale, the money so deposited shall be liable to forfeiture.

4. When such deposit shall not be made, nor the remaining purchase money paid up, the lands shall be resold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case to deposit a written authority signed by their principals, otherwise their bids may be rejected.

6. The sale shall be stayed, if the defaulter or any other person acting on his behalf or claiming an interest in the land, tenders the full amount of the arrears of the revenue with the interest and other charges, provided such tender be made before sunset on the day previous to that appointed for the sale.

7. The sale of the property will not become absolute until the sale has been confirmed by the Dewan.

8. Purchasers having completed the payment of the purchase money will, as soon as the sale has been confirmed by the Dewan, be placed in immediate possession and the village will be registered in the name of the purchaser, and a certificate of sale signed and sealed by the Deputy Commissioner will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent.

9. Provided parties deeming themselves aggrieved by the sale shall be at liberty to appeal to the Dewan within 30 days from the day of sale, and the purchase shall be conditional on the final order in such appeal.

The 3rd December 1887.

Camp No. 2019.—It is hereby notified that all Public Offices in the Mysore State will be closed for the Christmas holidays from Thursday the 22nd December 1887 to Wednesday the 4th January 1888, both days inclusive.

Provision will be made by Heads of Departments for the despatch of urgent business during the vacation.

This Notification does not apply to Taluk establishments, or those engaged in the Jamabandi settlement.

The 5th December 1887.

No. 151.—When an Inamdar is permitted to use Government water, the produce of a Government irrigation work, to irrigate his inam land, and where the water thus permitted to be used is either irrigation newly granted or is irrigation in excess of the quantity to which he is entitled in virtue of the inam, he shall be liable to pay a water-rate to the Government calculated at the following rates, *viz*:—

(1) Rs. 4 per acre when the irrigation is supplied wholly at Government expense from a Government river irrigation channel.

(2) Rs. 3 per acre for irrigation from a private branch channel allowed to be drawn from a Government river irrigation channel.

(3) Rs. 2—8—0 per acre for irrigation from a good Government tank or other irrigation work distributing water till about March.

(4) Rs. 1—8—0 per acre for irrigation from other inferior sources of Government water-supply.

2. The above rates are applicable to unsurveyed Taluks and are liable to revision on the introduction of the survey settlement. In surveyed Taluks, the Deputy Commissioner shall fix the water-rate for each case in accordance with the principle of the above classification, but with due regard to the survey valuation of similar neighbouring lands, minus the ordinary dry rate, after reference, in cases of doubt, to the Survey Superintendent.

3. Water-rates fixed under this Notification should invariably be reported to the Survey and Settlement Department.

The 12th December 1887.

No. 153.—The following rules for dealing with excesses in minor inams in the settled Maidan Taluks, where such inams are enjoyed in land, are published for general information in supersession of all previous rules and orders on the subject :—

1. All inams the survey assessment of which, as now enjoyed, does not exceed Rs. 5, will be confirmed in full.

2. In the case of inams, the survey valuation of which, as now enjoyed, exceeds Rs. 5, one-half of the excess over and above the extent authorized by the Inam Department (shall in lieu of the 10 per cent of such excess allowed by the rules hitherto in force) be confirmed as inam, in addition to the said authorized extent, the other half being charged with the full survey assessment.

Provided that in no case land bearing survey assessment of more than three times the survey valuation of the extent of inam authorized by the Inam Department shall be continued as inam, except when three times such survey valuation falls short of Rs. 5, in which case land bearing survey assessment up to, but not exceeding Rs. 5, shall be confirmed as inam out of the extent hitherto enjoyed as inam.

Provided also that in no case shall the inam confirmed under this rule bear survey valuation of less than Rs. 5.

The 14th December 1887.

No. 160.—The Inamdars of whole villages in the Shimoga District whose jungles are adjoining those of Government, are hereby required to demarcate their respective jungles by placing at every 100 yards of their line, stone (rough or prepared) pillars of not less than 4 feet in height each, wherever the same is obtainable; or by heaped stone mounds in the shape of a cone after due notice is given to them to that effect by the Assistant Conservator of Forests under the orders of the Deputy Commissioner; failing which, the same will be done by Government and the cost recovered from the Inamdars as a revenue demand.

No. 161.—His Highness the Maharaja's Government hereby sanction the introduction of the following rules in respect of Government Savings Banks in supersession of all existing Rules on the subject.

The new rules will come into force from the 1st April 1888.

I.—In these Rules—

"Depositor" and "Deposit" bear the meaning which they bear in *The Government Savings Bank Act*, 1873.

"Account" means the account of a Depositor in a Government Savings Bank.

"Balance" means the balance at credit of an account.

II.—Any person may become a Depositor on his own behalf, or on behalf of any other named person dependent upon him. Deposits may also be made by the Managers of Benevolent or other Public Associations or by Public Officers, of money deposited with them *ex-officio* as security for the discharge of any public duty or for the fidelity of any Public Officer, or for the accomplishment of any public object.

III.—Subject to the provisions of these Rules, the Government of Mysore guarantees the repayment of every deposit, with interest.

IV.—Without the sanction of the Comptroller, no Account will be opened for less than One Rupee, and no person may deposit more than Five Thousand Rupees in all, between the 1st of April in any year and the 31st March of the following year.

V.—Interest will not be allowed upon a smaller balance than Rs. $1\frac{2}{3}$, or upon the excess in any balance over the highest multiple of Rs. $1\frac{2}{3}$.

VI.—Interest will be allowed for each Calendar Month upon the minimum Balance of the Account between the close of the Fourth Day and the end of the Month.

VII.—Till further notice, interest will be allowed upon deposits at the rate of one pie a Month for every Rs. 1—10—8, which is equal to one anna for every Rs. 20, being at the rate of Rs. $3\frac{3}{4}$ per centum per annum. Without the sanction of the Comptroller, no higher Monthly Interest will be allowed upon any balance than Rs. $15\frac{5}{8}$; being the interest upon Rs. 5,000.

In calculating interest, one anna will be taken as the interest for one month on every twenty rupees of the amount entitled to bear interest; and for broken sums below twenty rupees the following table will be used :—

Principal.			Interest.		Principal.			Interest.	
Rs.	A.	P.	A.	P.	Rs.	A.	P.	A.	P.
1	10	8	0	1	11	10	8	0	7
3	5	4	0	2	13	5	4	0	8
5	0	0	0	3	15	0	0	0	9
6	10	8	0	4	16	10	8	0	10
8	5	4	0	5	18	5	4	0	11
10	0	0	0	6	20	0	0	1	0

Example.—Required interest for one month on Rs. 134—6—10.

	Rs.	A.	P.		Rs.	A.	P.
Interest on	120	0	0	.. ..	0	6	0
,, ...	14	6	10	.. ..	0	0	8
Total....	134	6	10	Total....	0	6	8

VIII.—Every Account will be made up on the 31st March, and the interest then due, calculated under these Rules, added to the Balance upon which future interest will accrue. If an account is closed on any other date, interest due to the end of the preceding Calendar Month will be paid to the Depositor : but a Depositor who closes an Account should not, ordinarily, be permitted immediately to re-open it, except on payment of a fine varying at the discretion of the Treasury Officer from One to Ten Rupees.

IX.—Whenever a Depositor changes his residence, an Account may be transferred, free of charge, to the Government Savings Bank in the District to which the Depositor is removing. Without the special permission of the Comptroller, an Account may not be otherwise transferred from one Bank to another.

X.—A Deposit Book will be supplied to each Depositor, in which the Treasury Officer, will acknowledge every Deposit. The personal attendance of a Depositor is not required ; but no Deposit will be received, or payment made, without the Depositor's Deposit Book, and the Government will not be responsible for any Deposit the receipt of which is not acknowledged in a Deposit Book. The interest, due to date, will be entered in each Deposit Book the first time that it is produced after the 31st March. The first Deposit Book will be supplied free of charge ; but, if a Deposit Book is lost or injured, or if a Closed Account is re-opened, One Rupee will be charged for a new book.

XI.—Without special permission, a Depositor may not draw upon his Account more than once in thirty days, or open more than one Account in his own name or in the name of any member of his family or for his own benefit or the benefit of any member of his family. The Comptroller must take precautions to prevent any transgression of this Rule, and, in particular, any employment of an Account as an ordinary drawing Account. This Rule is not meant to prevent any one from opening more than one *ex-officio* or public Account.

XII.—The Treasury Officer may refuse to open any Account or may close any Account, for any sufficient reason, as, for example, because he thinks that the Account is likely to be used, or is being used, contrary to the object with which Government Savings Banks are established, namely, the encouragement of saving. But every such refusal or closure, and the reasons for it, should be reported to the Comptroller.

XIII.—When the Treasury Officer thinks it proper to close any Account, he shall give notice in writing to the Depositor of such closure. After the date of such notice, no Deposit shall be accepted on the Account so closed and no interest shall be allowed upon the Balance of the Closed Account after the end of the Calendar Month then current.

XIV.—These Rules apply as well to Accounts opened before as after their publication. Save that upon Accounts opened before the date of these Rules, interest will be calculated, up to the 31st March 1888, at the rate of $4\frac{1}{6}$ per centum per annum.

XV.—The Government of Mysore reserves the right to alter or add to these Rules at any time.

XVI.—A copy of the Government Savings Banks Act, 1873, and of these Rules, shall be printed in each Deposit Book delivered after this date, and the signature, or, if he cannot write, mark, of the Depositor obtained to the annexed declaration before any deposit is accepted from him.

XVII.—These Rules shall come into force from the 1st April 1888.

Declaration to be recorded in accordance with Rule XVI.

I, acknowledge that I have read these Rules (or, if he cannot read, that these rules have been read to me).

No. 165.—The following Rules for the Regulation and Control of Hackney Carriages within the limits of the Municipality of the City of Bangalore, framed by the Municipal Commissioners, under the authority of para 3 of the Bangalore Hackney Carriage Regulation, 1887, are confirmed by the Government of Mysore, and are published for general information :—

These Rules will come into force at once.

1. The owner of each Hackney Carriage shall be required to take out a license from the Municipality for that carriage.

2. Such license shall be issued from the Municipal office after the carriage and horse or horses have been examined and approved by the President or Vice-President or any other officer that may be appointed by them in this behalf who will determine the class to which the carriage shall belong.

3. There shall be three classes of Licensed Hackney Carriages.

1st Class-Hackney carriages of all sorts excluding Jatkas and carts drawn by bullocks or ponies.
2nd Class-Jatkas, *i. e.*, two wheeled bandies or carts drawn by ponies.
3rd Class-carts drawn by bullocks, and licenses shall be granted to owners subject to all the provisions contained in these Rules and to the following conditions :—

(1) That the carriage is in good order and repair in all its parts.

(2) That it is provided with two lamps in the case of carriages of the 1st and 2nd Classes and with one lamp in the case of those of the 3rd Class, which shall bear the carriage license number.

(3) That the horse is not or the horses are not less than the height named in the class in which the vehicle is licensed *i. e.* 14-2 high for the 1st class and 11-3 hands for the 2nd class and that no animal shall be worked at less than 3 years of age.

4. The licenses for Hackney Carriages and drivers shall be in the form attached to these rules and shall be printed on strong paper.

5. The fee for each carriage license shall be annually—

1st Class—Rs. 9
2nd Class—Rs. 4
3rd Class—Rs. 2

and for each driver's badge he shall pay a fee of one Rupee. The driver's license to be given or renewed free of charge.

6. On receipt of license from the Municipal office the license holder shall affix to his premises a Board on which shall be printed his name and license No.

200

7. The horses to be used in licensed carriages shall be thoroughly broken to harness in good condition and fit for public use and free from sores.

The Harness shall be complete and serviceable except in the case of carriages of third class.

A whip as ordinarily used by coachmen to be with each driver.

The use of sticks or leather straps is prohibited.

8. Two lamps lit with candles as ordinarily used shall be carried by 1st Class Hack carriages ; oil may be substituted for candles in the lamps of 2nd and 3rd class carriages provided the light is bright.

The lamps to be in good order and wind proof.

The one light to be carried by 3rd class hackney carriages shall be fastened when driving on the right hand side of the carriage and in a similar way to the lights of other hack carriages.

9. The carriages to be kept in good repair and sound as to their springs, doors and windows.

The carriages shall be varnished occasionally as may appear necessary to the President or Vice-President or any other officer that may be appointed by them in this behalf.

10. It shall be lawful for the President or Vice-President or any other officer that may be appointed by them in this behalf and officers of S. P. C. A. and Inspectors of Police at any time between sunrise and sunset to enter any premises on which licensed vehicles, animals, harness and other things used therewith are kept in order to carry out any provisions of those Rules and the proprietor or his agent shall afford every facility for inspection.

11. Licenses under these rules shall continue in force during the official year for which they are granted, but they are liable to revocation or suspension within that time by order of the President or Vice-President, Municipal Commission, on proof before him that the Proprietor or his agent has been guilty of any breach of the conditions of the license.

12. As often as any licensee shall change his residence he shall give notice thereof in writing signed by himself to the President or Vice-President or any other officer that may be appointed by them in this behalf and on failure to give that notice for one week after his change of residence he shall be liable to a penalty of Rs. (20) twenty.

13. Each license shall bear a serial number and that number shall be painted in a conspicuous place in English on 1st class carriages and in English and Kanarese or Hindustani on 2nd and 3rd class carriages.

The President or Vice-President, Municipal Commission, may on application allow Hackney carriages of a superior description to be sent out without being numbered.

The numbering shall be done at the Municipal office and the cost shall be included in the license fee.

14. The driver or Proprietor of a licensed carriage waiting on a Public Stand or publicly plying for hire shall at any time of the day or night be bound to give such carriage on hire to any person demanding the same unless for a good and sufficient reason the burden of proving which shall be on the driver or Proprietor so refusing.

15. The Municipality shall from time to time appoint places as stands for Licensed Hackney carriages.

Drivers of such carriages found waiting for hire at places other than those appointed or leaving their carriages without some one in charge shall be liable to forfeit their licenses to drive.

The Registration of the order in which Hackney carriages shall rank on the Stand shall be under the control of the Police.

Nothing herein contained is meant to interfere with passengers choosing their own carriages.

The list of Stands as at present appointed is given at the end of these rules.

203

ADVERTISEMENT,

The 20th June 1887.

Notice is hereby given that sealed tenders will be received at the office of the Executive Engineer, Bangalore Division, up to 5th July 1887, for restoring the Hennagara Tank, Registered No. 67, Anekal Taluk. An approximate estimate of quantities is given below. These quantities are not guaranteed. The work should be completed by the end of March 1888.

2. The plans, detailed estimate and conditions may be seen at the Executive Engineer's office at Bangalore between the hours of 11 A. M. and 4 P. M.

3. Tenders should be submitted on printed forms which may be obtained from the Executive Engineer. The tenders should be accompanied by a statement in the form given below, showing the rates at which the different items specified will be executed.

4. Each tender must be accompanied by a deposit of Rs. 50 in cash or Government promissory notes, as earnest money, and be superscribed "Tender for restoring the Hennagara Tank, Registered No. 67, Anekal Taluk," in default of which, tenders will be rejected.

5. The final acceptance of any tender will rest with the Executive Engineer, who does not bind himself to accept the lowest or any tender or to assign any reason whatever for the rejection of any tender.

6. Within 8 days of the acceptance of the tender, the successful competitor will be required to execute the usual contract bond, in default of which his tender will be considered cancelled, and his earnest money will be forfeited.

7. The name of the successful competitor, whose tender has been accepted, will be posted on the notice board in the Executive Engineer's Office in due course. No enquiries regarding the acceptance or rejection of a tender will receive any reply.

8. On acceptance of one of the tenders, the earnest money on rejected tenders will be returned.

Messrs. Dillow and Co., Bangalore, whose tender for the exclusive privilege of cutting firewood in the Kamasandra Jungles in the Bowringpet Taluk was accepted, having failed to execute the necessary agreement within the fixed time, their deposit of Rs. 100 has been forfeited to Government under para 8 of the Notice of the 14th March 1887, published at page 156, Part II of the *Mysore Gazette* No. 12, dated the 26th March 1887. Fresh sealed tenders will be received by the Deputy Commissioner, Kolar District, up to 6th August 1887, for the exclusive privilege of cutting firewood in the aforesaid jungles for a poriod of from 1 to 2 years.

2. Each tender shall contain the rate of seigniorage offered per cart-load or per ton of 68 cubic feet removed from the said jungles either in the rough or sawn or cut up into billets. No tenders shall be received unless accompanied by a deposit of Rs. 300 in cash or currency notes. For the purposes of the contract, 2 ordinary cart-loads shall be considered a ton.

3. The trees and the part of the jungles to be felled will be marked out by the Forest Department. The contractor shall bind himself in a reasonable penalty to fell only such trees in the manner required and not to cut or remove more than 400 tons a month or 4,800 tons in the year. No trees of reserved kinds or fruit trees, or trees bearing minor produce shall be lopped or cut down.

4. The contractor shall engage to cart and deliver firewood at the Gold mines at a rate not exceeding Rs. 8 a ton, and in the event of the whole quantity of wood not being required for the several Gold mines, he shall be at liberty to sell what is not wanted elsewhere and at any rate he likes.

5. Further particulars, together with the conditions of contract, can be ascertained by applying at the Deputy Commissioner's office.

6. Tenders will be opened by the Deputy Commissioner, or any officer nominated by him, at his office at noon on the 6th August 1887, in the presence of such tenderers as may choose to attend.

7. The Deputy Commissioner reserves to himself the right of rejecting any tender without assigning any reason for so doing.

8. The deposit of any successful competitor will be retained and will be forfeited if he fails to execute the necessary agreement on proper stamp or to furnish security to the amount of Rs. 500 in cash within *ten* days from the date of the acceptance of his offer being made known to him for the regular working and the due fulfilment of the terms of the agreement.

9. Tenders to be subscribed "Tenders for the exclusive privilege of cutting firewood from the Kamasandra Jungles."

ASHTAGRAM CHANNEL DIVISION.

The 28th June 1887.

Tenders are hereby invited for a portion of works in connection with the improvement and extension of the Rampur Channel in the Nanjangud Taluk.

I. The approximately estimated cost of which is about Rs. 35,000 exclusive of the revision of the project which enhances the cost by about $\frac{1}{11}$th roughly. Quantities are not guaranteed.

II. Tenders should be sent in sealed covers, superscribed "Tenders for a portion of Rampur Channel Works Contract Section————"to the Executive Engineer, Ashtagram Channel Division, and should reach him before 30th of September 1887.

III. The works to be carried out are the earthwork, *viz.*, widening and deepening of channel, the construction of a head sluice, distribution sluices, relieving weirs and repairs of old masonry works that may be retained, and clearing of silt under the annual repair estimate.

IV. The plans and the schedules of estimated quantities and rates for each contract section can be seen during office hours at the Ashtagram Channel Division Executive Engineer's Office, Mysore, where copies of the specifications for the Rampur Channel can also be had on the payment of Rs. 5 per copy. The contractor shall bind himself to carry out all works as per printed specifications and Superintending Engineer's specifications for tanks and channels. On application being made, tender forms will be supplied gratis.

V. The work has been divided into 3 sections, Nos. 2, 3 and 4; one or more of which may be tendered for by the same contractor, but tenders for the different sections must be made separately and in separate sealed covers.

VI. The Executive Engineer does not bind himself to accept the lowest or any tender, nor will he assign any reason for the non-acceptance of any tender.

VII. Contractors must execute contract bonds within 10 days of intimation being sent to them of the acceptance of their tenders.

VIII. No tenders will be received unless accompanied by a deposit of Rs. 100 as earnest money which will be returned to unsuccessful tenderers, but will be forfeited in the event of successful tenderers not executing their bonds within the prescribed time.

IX. The works shall commence not later than the 1st of January 1888 and completed before the 31st of May 1888 and 15 days further grace period at the instance of the immediate officer in charge will be allowed if works are found on the 31st of May 1888 all but complete.

X. The amount of security money to be deposited by contractor or contractors whose tender or tenders are accepted will, as per Superintending Engineer's Circular No. 110 of 20th August 1885, duly be intimated at time of executing bond, and such security shall be forfeited to Government on failure to carry out works as per terms of the same (bond).

XI. Materials as noted in Statement No. 2 are ready at site of head sluice and shall be accepted by the successful tenderer at rates paid for by Government and borne on its materials account.

Sections 169 (*a*) *and* (*b*).

Substitute the following for Sections 169 (*a*) *and* (*b*):

(*a*) As a rule, a pensioner must take payment in person, after identification, by comparison with the permanent pay order.

(*b*) A pensioner specially exempted by the Local Government from personal appearance; a female pensioner not accustomed to appear in public; or a male pensioner who is unable to appear in consequence of bodily illness or infirmity, may receive his or her pension upon the production of a Life Certificate, signed by a responsible officer of Government or by some other well-known and trustworthy person.

(*c*) A pensioner of any description who produces a Life Certificate signed by some person exercising the powers of a Magistrate of any class under the Criminal Procedure Code, or by any Registrar or Sub-Registrar under the Registration Act, or by any pensioned officer who, before retirement, exercised the powers of a Magistrate, is also exempted from personal appearance.

(*d*) In all cases referred to in the clauses (*b*) and (*c*) the Disbursing Officer must take precautions to prevent imposition, and must, before the first payment in each year, require proof, independent of that furnished by the Life Certificate, of the continued existence of the pensioner. For this purpose he should (save in cases of exemption from personal appearance granted by the Local Government) require the personal attendance and due identification of all male pensioners who are not incapacitated by bodily illness or infirmity from so attending, and in all cases where such inability may be alleged, he should require proof thereof, in addition to the proof submitted of the pensioner's existence.

FOREST DEPARTMENT.

NOTICE.
The 23rd June 1887.

Tenders are hereby invited for the right to collect cardamoms and pepper, the produce of the undermentioned Ghat Forests and Plantations in the Manjarabad Taluk of the Hassan District, on a lease for a period of 10 years, *viz.* from official year 1887—88 to 1896—97 inclusive.

1. Bisle Ghat Forest including Bidarada Udve.
2. Kaganire Ghat Forest.
3. Kemphole and Kenchankumari Forests.
4. Kabbinale and Malegadde Forests.
5. Nadathoppalu Plantation.

2. Tenders to be superscribed "Tenders for the lease of Cardamoms and Pepper of the Ghat Forests and Plantations" and be sent to the Deputy Commissioner of the Hassan District at Hassan so as to reach him on or before the 10th August 1887. The tenders will be opened at the Deputy Commissioner's office by the Deputy Commissioner or Forest officer of the District during office hours on the 10th August 1887 in the presence of the applicants, who may be present. The final disposal of the tenders will rest with the Inspector General of Forests and Plantations in Mysore, who reserves to himself full power to reject any or all of the tenders without assigning any reason.

3. Each tender must be accompanied by a deposit of Rs. 100 in cash or in currency notes. The deposits made by the applicants, whose tenders are rejected, will be returned to them in due course.

4. The applicant whose tender may be finally accepted by the Inspector General of Forests and Plantations, shall, within 15 days of the acceptance of his tender being communicated to him, deposit with the Deputy Commissioner a further sum in cash or currency notes to make up with the deposit previously made a sum equal to one-tenth of the amount of lease and shall execute an agreement on proper stamp, binding himself to conform to the conditions hereinafter set forth and if he fails or refuses to sign the agreement or to make the deposit required, the deposit already made will be forfeited to Government and the lease otherwise disposed of.

5. The lease for which tenders are now invited shall be subject to the following conditions :—

I. The amount of the lease shall be payable to Government in ten equal yearly instalments in the month of August, *i. e.* before gathering the crop of the season. Should the lessee fail to do so, the lease will be cancelled and the forest or plantation leased out resumed by Government. The deposits made by the lessee will be forfeited to Government.

II. On the expiration of the lease, the option of its renewal on such terms as may on due consideration be fixed by Government, will be given to the lessee for such further period as may be decided on in respect of such lease.

III. Leases being made solely for the collection and propagation of cardamoms and pepper, no crop of any other description will be cultivated in the forest leased out. It is not however intended that plantain, castor-oil or other trees necessary for the shelter or shade of cardamom plants and pepper vines should not be grown.

IV. No trees of any kind to be felled without the written permission of the Forest officer and no cardamom or pepper plants to be dug up and removed from the leased forests and plantation under any circumstances. Should the felling of any trees be deemed actually necessary to open the ground for the growth or propagation of cardamom plants and pepper vines, the lessee will make an application to the Forest officer, who shall mark the trees to be felled, and the trees so felled will be taken over by the Forest Department. If the lessee wants any of the trees, they will be delivered to him on payment of the prescribed seigniorage rates which are as follows; or even on lower rates at the discretion of the Deputy Commissioner :—

			Rs.
Poon	per tree	.. .. ..	15
Hesva	do	.. .. ..	10
Blackwood	do	.. .. ..	8
Nandi	do	.. .. ..	8
Hejani	do	.. .. ..	6
Ebony	do	.. .. ..	10
All other descriptions of trees	per tree	.. ..	$3\frac{1}{2}$
Bamboos per 1,000		.. .. ..	10

V. Lessees will have no right to any other forest produce save cardamoms and pepper, nor will they be at liberty to enclose, obstruct or otherwise interfere in any way with roads traversing the forests and plantations, the Government reserving its full rights of every description in all such forests and plantations.

VI. Cardamom and pepper leases obtained under these rules can be sold or otherwise alienated at the discretion of the lessee, provided that due intimation of such alienation is made to the Deputy Commissioner for record in his office and that the transfer of the lease is duly registered under the provisions of the Registration Act.

L. RICKETTS,
Inspector Genl. of Forests.

KOLAR DISTRICT.

NOTICE.

The 27th June 1887.

Messrs. Dillow and Co., Bangalore, whose tender for the exclusive privilege of cutting firewood in the Kamasandra Jungles in the Bowringpet Taluk was accepted, having failed to execute the necessary agreement within the fixed time, their deposit of Rs. 100 has been forfeited to Government under para 8 of the Notice of the 14th March 1887, published at page 156, Part II of the *Musore Gazette* No. 12, dated the 26th March 1887. Fresh sealed tenders will be received by the Deputy Commissioner, Kolar District, up to 6th August 1887, for the exclusive privilege of cutting firewood in the aforesaid jungles for a poriod of from 1 to 2 years.

2. Each tender shall contain the rate of seigniorage offered per cart-load or per ton of 68 cubic feet removed from the said jungles either in the rough or sawn or cut up into billets. No tenders shall be received unless accompanied by a deposit of Rs. 300 in cash or currency notes. For the purposes of the contract, 2 ordinary cart-loads shall be considered a ton.

233

3. The trees and the part of the jungles to be felled will be marked out by the Forest Department. The contractor shall bind himself in a reasonable penalty to fell only such trees in the manner required and not to cut or remove more than 400 tons a month or 4,800 tons in the year. No trees of reserved kinds or fruit trees, or trees bearing minor produce shall be lopped or cut down.

4. The contractor shall engage to cart and deliver firewood at the Gold mines at a rate not exceeding Rs. 8 a ton, and in the event of the whole quantity of wood not being required for the several Gold mines, he shall be at liberty to sell what is not wanted elsewhere and at any rate he likes.

5. Further particulars, together with the conditions of contract, can be ascertained by applying at the Deputy Commissioner's office.

6. Tenders will be opened by the Deputy Commissioner, or any officer nominated by him, at his office at noon on the 6th August 1887, in the presence of such tenderers as may choose to attend.

7. The Deputy Commissioner reserves to himself the right of rejecting any tender without assigning any reason for so doing.

8. The deposit of any successful competitor will be retained and will be forfeited if he fails to execute the necessary agreement on proper stamp or to furnish security to the amount of Rs. 500 in cash within *ten* days from the date of the acceptance of his offer being made known to him for the regular working and the due fulfilment of the terms of the agreement.

9. Tenders to be subscribed "Tenders for the exclusive privilege of cutting firewood from the Kamasandra Jungles."

M., on Monday the 8th August 1887, at Hariharpur before the Amildar of the Taluk, subject to the confirmation of the Deputy Commissioner of the District.

2. The sale shall be by public auction under the usual conditions and the land shall be knocked down to the highest bidder above the upset price, *viz.* Rs. 5 per acre. The deposit of one-fourth of the upset price to be made by the applicant shall, if the land be knocked down to him at the auction, be credited towards his deposit of 25 per cent of the purchase money payable under clause 4 of this notice and it shall be refunded to him if the land is purchased by any other person in the auction.

3. The upset price fixed as above shall include survey expenses and the right of Government to all reserved trees except sandal, which will always be reserved absolutely by Government.

4. The highest bidder should, immediately after the close of the sale, pay 25 per cent of the purchase money, and the remainder before sunset on the 15th day from the date of sale as provided for by the rules in force; in default, the land will be resold at the risk of the defaulter, who will have to make good the deficiency, if any, at the second sale.

5. The lands sold under these rules shall be held free of assessment for the first 3 years and half assessment for the next two years, the full assessment being payable from and after the sixth year. But before this concession is granted, the purchaser must bind himself in writing to pay the full assessment from the first year, in the event of his resigning the land after cutting down the timber on it or otherwise clearing any portion of it, but without having made any *bonâ fide* attempt to bring under cultivation the arable area included in it.

The statements of receipt and expenditure for the month of May last, audited by Mr. Virasangappa, were read and passed showing:—

Receipt	.	6,097	15	2.
Expenditure	..	5,156	7	1.

In passing the above accounts, the Municipal Commissioners present resolved that in future no work, original or repair, of the value of Rs. 100 and upwards, be carried out without the previous sanction of the Board. Estimates of such work be laid before the Board for sanction, at the monthly Meetings. The Vice-President protested with reference to the standing orders.

2. *Read Docket No.* 17, *dated the* 23*rd May last, from the Civil Surgeon in Mysore, applying for a gardener for the Nurse's quarters.*

Resolved that the gardener of the small garden in front of the Town Magistrate's Court be transferred to the Nurse's quarters, and that the former garden be looked after by the two gardeners of the Town Hall.

3. With reference to the Draft Rules for regulating the establishment and control of the Municipal Police, the Board resolve that a special Meeting be called on to discuss the draft.

4. *Read the Mysore Deputy Commissioner's Docket dated the* 22*nd May last, requesting the opinion of the Board as to the localities in which arrack shops are applied to be opened in the Mandi and Nazarbad Mohallas.*

Resolved that the applications be sent for opinion to the Mohalla Commissioners of those Mohallas.

5. *Read petition from Jamal Sab, contractor of daily fees collected in the Devaraj Market, complaining against the exemption in favor of the permanent shop-keepers.*

The said shop-keepers evidently appear to act against the interests of the contractor under cover of the exemption complained against.

Resolved that the exemption in the Istihar under which the contract was given out to the petitioner be cancelled and the contract resold.

6. Resolved that for the present an annual fee of Rs. 6 be levied on each license granted to auctioners.

7. Resolved that a fee of Rs. 3 be levied on each license granted to itinerant wrestlers.

II. Revising the rate of fee levied on sheep slaughtered in the Municipal slaughter house.

Resolution.—The existing rate of 2 pies being very low, the same be raised to pies 3 per head.

III. Estimate of the probable cost of constructing a verandah and extending the existing platform in the sheep slaughter house.

Resolution.—Estimated cost, *viz.* Rs. 454 approved, but the work to be carried out when funds are available.

IV. Statement showing the amount of compensation awarded to the owners of lands taken up in Dobbspet for Municipal purposes.

Resolution.—The amount of compensation, *viz.* Rs. 186 as fixed by the Vice-President and Mr. Cameron, Municipal Commissioner, No. 6 Division, is sanctioned. The sites thus acquired be reserved for Municipal purposes.

V. Selection of a suitable site for the construction of a Branch Dispensary, the present building being insufficient.

Resolution.—The site opposite to the present Branch Dispensary as selected by the Senior Surgeon is approved, and the President be authorized to take early steps to secure it with sufficient space around it to allow of an additional ward being built, and the work to be put on hand as early as possible, after the plan has been approved by Dr. McGann.

VI. Estimate of the probable cost of constructing a row of stalls by side of the lane leading to the Vegetable Market on the eastern side, as well as improving the gateway which has lately been opened at the said lane.

Resolution.—The work being of a reproductive and urgent nature, the same is sanctioned, and the work to be put on hand at once. The estimated cost thereof *viz.* Rs. 944 be met from "Reserve Funds" provided for in the current year's Budget. The estimate and plan be submitted to Government for formal sanction.

Additional Proposition.

I. Estimated cost of the temporary establishment to be entertained for the removal of silt from the main drain.

Resolution.—The entertainment of the following establishment for a period of 3 months at a cost of Rs. 255 be sanctioned, and the cost thereof be met from the provision under "Repairs Drains."

1. Overseer at Rs. 10 a month.
1. Peon Rs. 5 „
3. Carts for removing silt at Rs. 10 a month.
6. Drain cleaners at the rate of Rs. 5 a month.

Contingencies, *viz.* purchase of baskets, &c. at Rs. 10 a month.

A. SRINIVASACHARLU, B. B.,
Vice-President.

ASHTAGRAM CHANNEL DIVISION.

The 28th June 1887.

Tenders are hereby invited for a portion of works in connection with the improvement and extension of the Rampur Channel in the Nanjangud Taluk.

I. The approximately estimated cost of which is about Rs. 35,000 exclusive of the revision of the project which enhances the cost by about $\frac{1}{11}$th roughly. Quantities are not guaranteed.

II. Tenders should be sent in sealed covers, superscribed "Tenders for a portion of Rampur Channel Works Contract Section————"to the Executive Engineer, Ashtagram Channel Division, and should reach him before 30th of September 1887.

III. The works to be carried out are the earthwork, *viz.*, widening and deepening of channel, the construction of a head sluice, distribution sluices, relieving weirs and repairs of old masonry works that may be retained, and clearing of silt under the annual repair estimate.

IV. The plans and the schedules of estimated quantities and rates for each contract section can be seen during office hours at the Ashtagram Channel Division Executive Engineer's Office, Mysore, where copies of the specifications for the Rampur Channel can also be had on the payment of Rs. 5 per copy. The contractor shall bind himself to carry out all works as per printed specifications and Superintending Engineer's specifications for tanks and channels. On application being made, tender forms will be supplied gratis.

V. The work has been divided into 3 sections, Nos. 2, 3 and 4; one or more of which may be tendered for by the same contractor, but tenders for the different sections must be made separately and in separate sealed covers.

VI. The Executive Engineer does not bind himself to accept the lowest or any tender, nor will he assign any reason for the non-acceptance of any tender.

VII. Contractors must execute contract bonds within 10 days of intimation being sent to them of the acceptance of their tenders.

VIII. No tenders will be received unless accompanied by a deposit of Rs. 100 as earnest money which will be returned to unsuccessful tenderers, but will be forfeited in the event of successful tenderers not executing their bonds within the prescribed time.

IX. The works shall commence not later than the 1st of January 1888 and completed before the 31st of May 1888 and 15 days further grace period at the instance of the immediate officer in charge will be allowed if works are found on the 31st of May 1888 all but complete.

X. The amount of security money to be deposited by contractor or contractors whose tender or tenders are accepted will, as per Superintending Engineer's Circular No. 110 of 20th August 1885, duly be intimated at time of executing bond, and such security shall be forfeited to Government on failure to carry out works as per terms of the same (bond).

XI. Materials as noted in Statement No. 2 are ready at site of head sluice and shall be accepted by the successful tenderer at rates paid for by Government and borne on its materials account.

FOREST DEPARTMENT.

NOTICE.

The 23rd June 1887.

Tenders are hereby invited for the right to collect cardamoms and pepper, the produce of the undermentioned Ghat Forests and Plantations in the Manjarabad Taluk of the Hassan District, on a lease for a period of 10 years, *viz.* from official year 1887—88 to 1896—97 inclusive.

1. Bisle Ghat Forest including Bidurada Udve.
2. Kaganire Ghat Forest.
3. Kemphole and Kenchankumari Forests.
4. Kabbinale and Malegaddc Forests.
5. Nadathoppalu Plantation.

2. Tenders to be superscribed "Tenders for the lease of Cardamoms and Pepper of the Ghat Forests and Plantations" and be sent to the Deputy Commissioner of the Hassan District at Hassan so as to reach him on or before the 10th August 1887. The tenders will be opened at the Deputy Commissioner's office by the Deputy Commissioner or Forest officer of the District during office hours on the 10th August 1887 in the presence of the applicants, who may be present. The final disposal of the tenders will rest with the Inspector General of Forests and Plantations in Mysore, who reserves to himself full power to reject any or all of the tenders without assigning any reason.

3. Each tender must be accompanied by a deposit of Rs. 100 in cash or in currency notes. The deposits made by the applicants, whose tenders are rejected, will be returned to them in due course.

4. The applicant whose tender may be finally accepted by the Inspector General of Forests and Plantations, shall, within 15 days of the acceptance of his tender being communicated to him, deposit with the Deputy Commissioner a further sum in cash or currency notes to make up with the deposit previously made a sum equal to one-tenth of the amount of lease and shall execute an agreement on proper stamp, binding himself to conform to the conditions hereinafter set forth and if he fails or refuses to sign the agreement or to make the deposit required, the deposit already made will be forfeited to Government and the lease otherwise disposed of.

5. The lease for which tenders are now invited shall be subject to the following conditions :—

I. The amount of the lease shall be payable to Government in ten equal yearly instalments in the month of August, *i. e.* before gathering the crop of the season. Should the lessee fail to do so, the lease will be cancelled and the forest or plantation leased out resumed by Government. The deposits made by the lessee will be forfeited to Government.

II. On the expiration of the lease, the option of its renewal on such terms as may on due consideration be fixed by Government, will be given to the lessee for such further period as may be decided on in respect of such lease.

III. Leases being made solely for the collection and propagation of cardamoms and pepper, no crop of any other description will be cultivated in the forest leased out. It is not however intended that plantain, castor-oil or other trees necessary for the shelter or shade of cardamom plants and pepper vines should not be grown.

IV. No trees of any kind to be felled without the written permission of the Forest officer and no cardamom or pepper plants to be dug up and removed from the leased forests and plantation under any circumstances. Should the felling of any trees be deemed actually necessary to open the ground for the growth or propagation of cardamom plants and pepper vines, the lessee will make an application to the Forest officer, who shall mark the trees to be felled, and the trees so felled will be taken over by the Forest Department. If the lessee wants any of the trees, they will be delivered to him on payment of the prescribed seigniorage rates which are as follows ; or even on lower rates at the discretion of the Deputy Commissioner :—

					Rs.

All other descriptions of trees	per tree	..	..		$3\frac{1}{2}$
Bamboos per 1,000		..	..	..	10

V. Lessees will have no right to any other forest produce save cardamoms and pepper, nor will they be at liberty to enclose, obstruct or otherwise interfere in any way with roads traversing the forests and plantations, the Government reserving its full rights of every description in all such forests and plantations.

VI. Cardamom and pepper leases obtained under these rules can be sold or otherwise alienated at the discretion of the lessee, provided that due intimation of such alienation is made to the Deputy Commissioner for record in his office and that the transfer of the lease is duly registered under the provisions of the Registration Act.

KOLAR DISTRICT.

NOTICE.

The 27th June 1887.

Messrs. Dillow and Co., Bangalore, whose tender for the exclusive privilege of cutting firewood in the Kamasandra Jungles in the Bowringpet Taluk was accepted, having failed to execute the necessary agreement within the fixed time, their deposit of Rs. 100 has been forfeited to Government under para 8 of the Notice of the 14th March 1887, published at page 156, Part II of the *Mysore Gazette* No. 12, dated the 26th March 1887. Fresh sealed tenders will be received by the Deputy Commissioner, Kolar District, up to 6th August 1887, for the exclusive privilege of cutting firewood in the aforesaid jungles for a poriod of from 1 to 2 years.

2. Each tender shall contain the rate of seigniorage offered per cart-load or per ton of 68 cubic feet removed from the said jungles either in the rough or sawn or cut up into billets. No tenders shall be received unless accompanied by a deposit of Rs. 300 in cash or currency notes. For the purposes of the contract, 2 ordinary cart-loads shall be considered a ton.

3. The trees and the part of the jungles to be felled will be marked out by the Forest Department. The contractor shall bind himself in a reasonable penalty to fell only such trees in the manner required and not to cut or remove more than 400 tons a month or 4,800 tons in the year. No trees of reserved kinds or fruit trees, or trees bearing minor produce shall be lopped or cut down.

4. The contractor shall engage to cart and deliver firewood at the Gold mines at a rate not exceeding Rs. 8 a ton, and in the event of the whole quantity of wood not being required for the several Gold mines, he shall be at liberty to sell what is not wanted elsewhere and at any rate he likes.

5. Further particulars, together with the conditions of contract, can be ascertained by applying at the Deputy Commissioner's office.

6. Tenders will be opened by the Deputy Commissioner, or any officer nominated by him, at his office at noon on the 6th August 1887, in the presence of such tenderers as may choose to attend.

7. The Deputy Commissioner reserves to himself the right of rejecting any tender without assigning any reason for so doing.

8. The deposit of any successful competitor will be retained and will be forfeited if he fails to execute the necessary agreement on proper stamp or to furnish security to the amount of Rs. 500 in cash within *ten* days from the date of the acceptance of his offer being made known to him for the regular working and the due fulfilment of the terms of the agreement.

9. Tenders to be subscribed "Tenders for the exclusive privilege of cutting firewood from the Kamasandra Jungles."

KADUR DISTRICT.

NOTIFICATIONS.

The 4th July 1887.

Notice is hereby given that the undermentioned lands in the Koppa Taluk, Kadur District, applied for, for coffee cultivation, will be sold by auction at 11 A. M., on Monday the 8th August 1887, at Hariharpur before the Amildar of the Taluk, subject to the confirmation of the Deputy Commissioner of the District.

2. The sale shall be by public auction under the usual conditions and the land shall be knocked down to the highest bidder above the upset price, *viz.* Rs. 5 per acre. The deposit of one-fourth of the upset price to be made by the applicant shall, if the land be knocked down to him at the auction, be credited towards his deposit of 25 per cent of the purchase money payable under clause 4 of this notice and it shall be refunded to him if the land is purchased by any other person in the auction.

3. The upset price fixed as above shall include survey expenses and the right of Government to all reserved trees except sandal, which will always be reserved absolutely by Government.

4. The highest bidder should, immediately after the close of the sale, pay 25 per cent of the purchase money, and the remainder before sunset on the 15th day from the date of sale as provided for by the rules in force; in default, the land will be resold at the risk of the defaulter, who will have to make good the deficiency, if any, at the second sale.

5. The lands sold under these rules shall be held free of assessment for the first 3 years and half assessment for the next two years, the full assessment being payable from and after the sixth year. But before this concession is granted, the purchaser must bind himself in writing to pay the full assessment from the first year, in the event of his resigning the land after cutting down the timber on it or otherwise clearing any portion of it, but without having made any *bonâ fide* attempt to bring under cultivation the arable area included in it.

NOTICE.

The 8th July 1887.

It is hereby notified that a cheque No. 22A for Rs. 212—9—3 was drawn in favor of Ramaswami Mudaliar being the arrears due to him for work done on completing Holalkere-Hosdurga Road and Andanur tank. Should the contractor fail to attend himself or by his authorized agent at the Executive Engineer's office on or before the 10th October 1887, he will forfeit all claims to the amount shown as arrears.

J. B. CHALON,
Offg. Executive Engineer.

ASHTAGRAM CHANNEL DIVISION.

The 28th June 1887.

Tenders are hereby invited for a portion of works in connection with the improvement and extension of the Rampur Channel in the Nanjangud Taluk.

I. The approximately estimated cost of which is about Rs. 35,000 exclusive of the revision of the project which enhances the cost by about $\frac{1}{10}$th roughly. Quantities are not guaranteed.

II. Tenders should be sent in sealed covers, superscribed "Tenders for a portion of Rampur Channel Works Contract Section————————"to the Executive Engineer, Ashtagram Channel Division, and should reach him before 30th of September 1887.

III. The works to be carried out are the earthwork, *viz.*, widening and deepening of channel, the construction of a head sluice, distribution sluices, relieving weirs and repairs of old masonry works that may be retained, and clearing of silt under the annual repair estimate.

IV. The plans and the schedules of estimated quantities and rates for each contract section can be seen during office hours at the Ashtagram Channel Division Executive Engineer's Office, Mysore, where copies of the specifications for the Rampur Channel can also be had on the payment of Rs. 5 per copy. The contractor shall bind himself to carry out all works as per printed specifications and Superintending Engineer's specifications for tanks and channels. On application being made, tender forms will be supplied gratis.

V. The work has been divided into 3 sections, Nos. 2, 3 and 4; one or more of which may be tendered for by the same contractor, but tenders for the different sections must be made separately and in separate sealed covers.

VI. The Executive Engineer does not bind himself to accept the lowest or any tender, nor will he assign any reason for the non-acceptance of any tender.

VII. Contractors must execute contract bonds within 10 days of intimation being sent to them of the acceptance of their tenders.

VIII. No tenders will be received unless accompanied by a deposit of Rs. 100 as earnest money which will be returned to unsuccessful tenderers, but will be forfeited in the event of successful tenderers not executing their bonds within the prescribed time.

IX. The works shall commence not later than the 1st of January 1888 and completed before the 31st of May 1888 and 15 days further grace period at the instance of the immediate officer in charge will be allowed if works are found on the 31st of May 1888 all but complete.

X. The amount of security money to be deposited by contractor or contractors whose tender or tenders are accepted will, as per Superintending Engineer's Circular No. 110 of 20th August 1885, duly be intimated at time of executing bond, and such security shall be forfeited to Government on failure to carry out works as per terms of the same (bond).

XI. Materials as noted in Statement No. 2 are ready at site of head sluice and shall be accepted by the successful tenderer at rates paid for by Government and borne on its materials account.

2. Tenders to be superscribed "Tenders for the lease of Cardamoms and Pepper of the Ghat Forests and Plantations" and be sent to the Deputy Commissioner of the Hassan District at Hassan so as to reach him on or before the 10th August 1887. The tenders will be opened at the Deputy Commissioner's office by the Deputy Commissioner or Forest officer of the District during office hours on the 10th August 1887 in the presence of the applicants, who may be present. The final disposal of the tenders will rest with the Inspector General of Forests and Plantations in Mysore, who reserves to himself full power to reject any or all of the tenders without assigning any reason.

3. Each tender must be accompanied by a deposit of Rs. 100 in cash or in currency notes. The deposits made by the applicants, whose tenders are rejected, will be returned to them in due course.

4. The applicant whose tender may be finally accepted by the Inspector General of Forests and Plantations, shall, within 15 days of the acceptance of his tender being communicated to him, deposit with the Deputy Commissioner a further sum in cash or currency notes to make up with the deposit previously made a sum equal to one-tenth of the amount of lease and shall execute an agreement on proper stamp, binding himself to conform to the conditions hereinafter set forth and if he fails or refuses to sign the agreement or to make the deposit required, the deposit already made will be forfeited to Government and the lease otherwise disposed of.

5. The lease for which tenders are now invited shall be subject to the following conditions :—

I. The amount of the lease shall be payable to Government in ten equal yearly instalments in the month of August, *i. e.* before gathering the crop of the season. Should the lessee fail to do so, the lease will be cancelled and the forest or plantation leased out resumed by Government. The deposits made by the lessee will be forfeited to Government.

II. On the expiration of the lease, the option of its renewal on such terms as may on due consideration be fixed by Government, will be given to the lessee for such further period as may be decided on in respect of such lease.

III. Leases being made solely for the collection and propagation of cardamoms and pepper, no crop of any other description will be cultivated in the forest leased out. It is not however intended that plantain, castor-oil or other trees necessary for the shelter or shade of cardamom plants and pepper vines should not be grown.

IV. No trees of any kind to be felled without the written permission of the Forest officer and no cardamom or pepper plants to be dug up and removed from the leased forests and plantation under any circumstances. Should the felling of any trees be deemed actually necessary to open the ground for the growth or propagation of cardamom plants and pepper vines, the lessee will make an application to the Forest officer, who shall mark the trees to be felled, and the trees so felled will be taken over by the Forest Department. If the lessee wants any of the trees, they will be delivered to him on payment of the prescribed seigniorage rates which are as follows ; or even on lower rates at the discretion of the Deputy Commissioner :—

					Rs.
Poon	per tree	..	..	..	15
Hesva	do	..	..	..	10
Blackwood	do	..	..	..	8
Nandi	do	..	..	..	8
Hejani	do	..	..	..	6
Ebony	do	..	..	..	10
All other descriptions of trees	per tree	..	..	..	$3\frac{1}{2}$
Bamboos per 1,000		..	..	..	10

V. Lessees will have no right to any other forest produce save cardamoms and pepper, nor will they be at liberty to enclose, obstruct or otherwise interfere in any way with roads traversing the forests and plantations, the Government reserving its full rights of every description in all such forests and plantations.

VI. Cardamom and pepper leases obtained under these rules can be sold or otherwise alienated at the discretion of the lessee, provided that due intimation of such alienation is made to the Deputy Commissioner for record in his office and that the transfer of the lease is duly registered under the provisions of the Registration Act.

L. RICKETTS,
Inspector Genl. of Forests.

CHITALDROOG DIVISION.

NOTICE.

The 8th July 1887.

It is hereby notified that a cheque No. 22A for Rs. 212—9—3 was drawn in favor of Ramaswami Mudaliar being the arrears due to him for work done on completing Holalkere-Hosdurga Road and Andanur tank. Should the contractor fail to attend himself or by his authorized agent at the Executive Engineer's office on or before the 10th October 1887, he will forfeit all claims to the amount shown as arrears.

J. B. CHATON,
Offg. Executive Engineer.

ASHTAGRAM CHANNEL DIVISION.

The 28th June 1887.

Tenders are hereby invited for a portion of works in connection with the improvement and extension of the Rampur Channel in the Nanjangud Taluk.

I. The approximately estimated cost of which is about Rs. 35,000 exclusive of the revision of the project which enhances the cost by about $\frac{1}{11}$th roughly. Quantities are not guaranteed.

II. Tenders should be sent in scaled covers, superscribed ''Tenders for a portion of Rampur Channel Works Contract Section————"to the Executive Engineer, Ashtagram Channel Division, and should reach him before 30th of September 1887.

III. The works to be carried out are the earthwork, *viz.*, widening and deepening of channel, the construction of a head sluice, distribution sluices, relieving weirs and repairs of old masonry works that may be retained, and clearing of silt under the annual repair estimate.

IV. The plans and the schedules of estimated quantities and rates for each contract section can be seen during office hours at the Ashtagram Channel Division Executive Engineer's Office, Mysore, where copies of the specifications for the Rampur Channel can also be had on the payment of Rs. 5 per copy. The contractor shall bind himself to carry out all works as per printed specifications and Superintending Engineer's specifications for tanks and channels. On application being made, tender forms will be supplied gratis.

V. The work has been divided into 3 sections, Nos. 2, 3 and 4; one or more of which may be tendered for by the same contractor, but tenders for the different sections must be made separately and in separate sealed covers.

VI. The Executive Engineer does not bind himself to accept the lowest or any tender, nor will he assign any reason for the non-acceptance of any tender.

VII. Contractors must execute contract bonds within 10 days of intimation being sent to them of the acceptance of their tenders.

VIII. No tenders will be received unless accompanied by a deposit of Rs. 100 as earnest money which will be returned to unsuccessful tenderers, but will be forfeited in the event of successful tenderers not executing their bonds within the prescribed time.

IX. The works shall commence not later than the 1st of January 1888 and completed before the 31st of May 1888 and 15 days further grace period at the instance of the immediate officer in charge will be allowed if works are found on the 31st of May 1888 all but complete.

X. The amount of security money to be deposited by contractor or contractors whose tender or tenders are accepted will, as per Superintending Engineer's Circular No. 110 of 20th August 1885, be duly intimated at time of executing bond, and such security shall be forfeited to Government on failure to carry out works as per terms of the same (bond).

XI. Materials as noted in Statement No. 2 are ready at site of head sluice and shall be accepted by the successful tenderer at rates paid for by Government and borne on its materials account.

I. Read draft rules for regulating the establishment and control of Municipal Police, received with the Chief Secretary's Docket No. 335½—44, dated 11th May 1887, for the Board's opinion.

Resolved that the Board approve of the draft rules with the following modifications :—

(1) In rule 1 after the words " other duties " read "including the maintenance and submission of mortuary statistics and returns as at present." (Carried unanimously).

(2) In proviso to rule 4, after the words " buildings and property" read " and as Municipal office orderlies." (Proposed by Mr. Chidambram Iyer and seconded by Mr. A. Ananda Rao for the reason that there is now no other class of orderlies for the Municipal office and the Police have been doing the duty up to date approved by a majority-the Police Superintendent objecting to the addition of these words, in the interests of the department, on the ground that Police Constables should not be deputed as orderlies to any office, which is not the office of a Police Officer or Magistrate).

(3) In rule 8 after the word buildings read "provided for in the Budget."

II. Resolved (on proposition made by Mr. Chidambaram Iyer, and seconded by Mr. Shek Ibrahim) that the Board record their opinion that when Municipal Commissioners go out and find out any nuisance and other cognizable offences and report the same to the Police, the Police should take immediate notice and proceed with the cases in due course of law.

III. On Mr. A. Ananda Rao proposing that the Meeting be suspended as it was late, the President brought to the notice of the Board that in consequence of a Resolution passed at last Meeting requiring the previous submission to the Board of all estimates of Rs. 100 or more, the Board's executive were in an outward position, as there were several estimates on hand which the Board should consider at once, or the executive will either have to stop work which could not be consistent with their duty to Government, or to go on with it which will have the appearance of a disregard of the Board's authority and wishes. The President added that the Resolution was on principle a very serious one requiring much consideration and discussion before it might have been adopted, and that its adoption at last Meeting without adequate notice to submit it to the Board particularly required reconsideration.

Resolved (on proposition made by Mr. A. Ananda Rao, and seconded by Mr. Ganesh Singh) that the Resolution of last Meeting requiring that the Board's sanction should be previously obtained for works costing Rs. 100 or more be held in abeyance till the next Budget discussion.

T. ANANDA RAO,
President.

The 7th August 1887.

Notice is hereby given that sealed tenders will be received at the office of the Executive Engineer, Tumkur Division, up to 30th August 1887 for restoring the Gundagalla Tank, Registered No. 18, Pavagada Taluk. An approximate estimate of quantities is given below. These quantities are not guaranteed. The work should be completed by the end of March 1888.

2. The plans, detailed estimate and conditions may be seen at the Executive Engineer's office at Tumkur between the hours of 11 A. M. and 4 P. M.

3. Tenders should be submitted on printed forms which may be obtained from the Executive Engineer. The tenders should be accompanied by a statement in the form given below, showing the rates at which the different items specified will be executed.

4. Each tender must be accompanied by a deposit of Rs. 50 in cash or Government promissory notes, as earnest money, and be superscribed "Tender for restoring the Gundlahalli Tank." In default of which tenders will be rejected.

5. The final acceptance of any tender will rest with the Superintending Engineer, who does not bind himself to accept the lowest or any tender or to assign any reason whatever for the rejection of any tender.

6. Within 8 days of the acceptance of the tender, the successful competitor will be required to execute the usual contract bond, in default of which his tender will be considered cancelled, and his earnest money will be forfeited.

7. The name of the successful competitor, whose tender has been accepted, will be posted on the notice board in the Executive Engineer's Office in due course. No enquiries regarding the acceptance or rejection of a tender will receive any reply.

8. On acceptance of one of the tenders, the earnest money on rejected tenders will be returned.

RESIDENT IN MYSORE.

NOTIFICATION.

No. 2626–2357. *The 17th August* 1887.

The Officiating Resident in Mysore is pleased to direct that the following Rule be substituted for Rule 7 of the Rules for the election of Municipal Commissioners for the Civil and Military Station of Bangalore, published with Notification No. 24, dated 30th January 1884 :—

7. A general election of the Municipal Commissioners to represent the several classes mentioned in Rule 2 shall take place once in every two years on the dates fixed for each class as under :—

I.	European and Eurasians	1st August
II.	Muhammadans	8th August
III.	Hindus and others	15th August

or, in the event of such dates falling on a Sunday or a sanctioned public holiday, on the following day. The President of the Municipal Commission shall, on the dates above specified, convene a meeting of the electors of the class concerned, of which at least 7 days' previous notice shall have been given, and at such meeting the candidates for election shall be proposed and seconded. If the number of candidates does not exceed that of the Commissioners alloted to each class, such candidates shall be declared duly elected. Should the number of candidates however exceed the number of Commissioners representing such class, the election shall be determined by vote. The election by vote shall take place on a day to be then declared by the President of the Municipal Commission removed by an interval of not less than 3 days from the date of the meeting.

By Order,

L. W. KING,

Assistant to the Resident.

1. Read accounts for June showing—

Receipts	..	..	..	5,939—12—6.
Expenditure	..	..	..	4,709— 8—2.

Examined and passed by Mr. Virasangappa.

Approved.—Resolved that future statement of receipts contain an additional column for receipts during corresponding month of last year.

2. Read Docket No. 490, dated 7th June (ultimo), from the Sanitary Engineer, proposing a Bye-law prohibiting residents in the Fort from passing sand and other garbage of domestic vessels into the house drains emptying into the syphon traps placed in the streets.

Read also Docket No. 722, dated 29th July 1887, in continuation, showing the Madras Bye-law on the same subject.

Resolved that a Sub-Committee be appointed consisting of—

The Sanitary Engineer
Mr. Annaiya Pandit
,, Nanjundaraj Ars.
,, Ganesh Singh
Mr. Shek Ibrahim
,, Timmappa.
,, A. Ananda Rao
and ,, Raghavacharlu

to confer and devise a suitable means for securing the objects aimed by the proposed Bye-law and to report the same.

3. With reference to the opportunity for reduction of establishment presented by the loan of Overseer Mahalingachari's services to the Sanitary Engineer in connection with the Fort sewage works.

Proposed by Mr. A. Ananda Rao and seconded by Mr. Annaiya Pandit that the salary of Mahalingachari during such absence be credited to savings.

Amendment moved by Mr. Raghavachar and seconded by Mr. Ganesh Singh that arrangements having been made, the same stand for four months for which period Mahalingachari has been lent.

The amendment being put to the vote was carried by 8 against 5.

4. The Board then adjourned into Committee to the Fort to see the sewage drain works and thereafter local inspection it was generally considered expedient that the Sanitary Engineer try the experiment of providing small cisterns near the syphon taps by which sand, &c. may first be deposited before the water passes into the traps just as has been done in some places and judge the result before recourse is had to a Bye-law which must be difficult of enforcement particularly as sand and earth were used by people not merely for cleansing hands and feet as well as vessels.

NOTIFICATION.

No. 2626—2357. *The 17th August* 1887.

The Officiating Resident in Mysore is pleased to direct that the following Rule be substituted for Rule 7 of the Rules for the election of Municipal Commissioners for the Civil and Military Station of Bangalore, published with Notification No. 24, dated 30th January 1884 :—

7. A general election of the Municipal Commissioners to represent the several classes mentioned in Rule 2 shall take place once in every two years on the dates fixed for each class as under :—

I.	European and Eurasians	1st August
II.	Muhammadans	8th August
III.	Hindus and others	15th August

or, in the event of such dates falling on a Sunday or a sanctioned public holiday, on the following day. The President of the Municipal Commission shall, on the dates above specified, convene a meeting of the electors of the class concerned, of which at least 7 days' previous notice shall have been given, and at such meeting the candidates for election shall be proposed and seconded. If the number of candidates does not exceed that of the Commissioners alloted to each class, such candidates shall be declared duly elected. Should the number of candidates however exceed the number of Commissioners representing such class, the election shall be determined by vote. The election by vote shall take place on a day to be then declared by the President of the Municipal Commission removed by an interval of not less than 3 days from the date of the meeting.

By Order,
L. W. KING,
Assistant to the Resident.

II. Mortuary returns for the said two months are read and recorded.

III. Read letter from Messrs. Orr and Sons submitted by the Executive Engineer, giving information of the probable cost of a clock proposed to be put up on the District office tower.

Resolved that having regard to the great cost involved on this proposal and to the various other demands upon the resources of the Municipality to improve the drainage and the water-supply of the Town, the proposal of the clock may for the present be dropped.

IV. In noticing with regret the fact that in consequence of the usual day of the meeting as laid down in Proceedings No. XII of November 1884 having been changed last month no meeting was held, the present meeting resolves that in future the appointed day may be adhered to strictly as otherwise both the official and non-official members will be put to inconvenience.

P. N. KRISHNA MURTI,
President.

The 20th August 1887.

Tenders for the supply of draft bullocks will be received at the Office of the Superintendent of Park and Train, Q. O. Sappers and Miners, up to 17th September 1887.

1. The number of pairs of bullocks, which shall be good, strong and tractable, required daily is about 8 together with drivers who shall be grown-up men and not boys.

2. The bullocks shall be at the Sapper Barracks regularly at 7 A. M., each and every day of the week.

3. The Superintendent shall have the power of rejecting any bullocks or drivers considered unsuitable.

4. If required for any exceptional work, both bullocks and drivers may be required to remain in the Sapper Lines all night.

5. In the event of failure to fulfil any of the above conditions, the Superintendent shall be empowered to levy a fine of rupee one per day per pair of bullocks.

6. In the event of any dispute, the decision of the Commandant of the Corps to be final.

7. The repeated failures of any of the above conditions shall determine the contract.

8. Payment shall be monthly in arrears.

9. The successful tenderer shall be required to sign a bond with the above conditions set forth.

10. The rates tendered shall be expressed by pair of bullocks per month.

RESIDENT IN MYSORE.

NOTIFICATION.

No. 2626--2357. *The 17th August* 1887.

The Officiating Resident in Mysore is pleased to direct that the following Rule be substituted for Rule 7 of the Rules for the election of Municipal Commissioners for the Civil and Military Station of Bangalore, published with Notification No. 24, dated 30th January 1884 :—

7. A general election of the Municipal Commissioners to represent the several classes mentioned in Rule 2 shall take place once in every two years on the dates fixed for each class as under :—

I.	European and Eurasians	1st August
II.	Muhammadans	8th August
III.	Hindus and others	15th August

or, in the event of such dates falling on a Sunday or a sanctioned public holiday, on the following day. The President of the Municipal Commission shall, on the dates above specified, convene a meeting of the electors of the class concerned, of which at least 7 days' previous notice shall have been given, and at such meeting the candidates for election shall be proposed and seconded. If the number of candidates does not exceed that of the Commissioners alloted to each class, such candidates shall be declared duly elected. Should the number of candidates however exceed the number of Commissioners representing such class, the election shall be determined by vote. The election by vote shall take place on a day to be then declared by the President of the Municipal Commission removed by an interval of not less than 3 days from the date of the meeting.

FOREST DEPARTMENT.

NOTIFICATIONS.

The 9th August 1887.

Sealed tenders will be received up to the 30th September 1887 by the Assistant Conservator of Forests, Shimoga District, for supplying the undermentioned Depôts by contract with timber and bamboos from the date of contract up to the end of May 1888, both days inclusive :—

I. Shimoga.
II. Ainur.
III. Shikarpur.
IV. Siralkoppa.
V. Channagiri.
VI. Lakvalli
VII. Tarikere.
VIII. Kanabur.

2. Tenders to be superscribed "Tenders for the supply of timber and bamboos to the..... Depôt or Depôts."

3. The quantity to be supplied to each Depôt and the block of forest selected for fellings with other information will be found on the notice board in the Assistant Conservator's Office.

4. No tenders will be received unless accompanied by a deposit of Rs. 100 in cash or currency notes.

5. Each tender should specify the rate per cubic foot in case of timber and poles and the rate per 100 in case of bamboos.

6. The Forest Officer reserves to himself the right of rejecting any tender without assigning any reason for so doing.

7. The tenderer is bound to fell, square and cart to the Depôt all the trees marked in the forests by the Forest Department.

8. The deposit money will be forfeited if the successful tenderer does not execute a contract bond on a proper stamp paper within one week from the date on which his tender was accepted.

9. The form of contract bond and the conditions thereof, with any other additional information, will be made known on application at the Office of the Assistant Conservator of Forests.

L. RICKETTS,
Inspector General of Forests.

The 25th August 1887.

Tenders are invited up to the 15th October 1887 for the clearance of 200 acres of forest land and for the digging of 200,000, eighteen inch cubic pits in the following localities :—

Sidihalli (Sorab Taluk)	50	do	..	50,000	,,

2. The tenders must specify the rate for clearing and pitting separately and may be given for either of the above or for both.

3. In clearing all trees, saplings and bamboo clumps must be cut at a height not exceeding 2 feet from the ground. All trees and saplings fit for logs or poles and serviceable bamboos should be cleared of branches and thorns and left lying on the ground. All such branches, thorns and other undergrowth should be collected in heaps and burnt and the locality must be quite ready for pitting by the end of April 1888. The pitting must be completed by the end of June 1888.

4. The successful tenderer will be required to make a deposit of Rs. 100 within three days of the acceptance of his tender for the due fulfilment of his contract.

5. If sufficient progress be not shown in jungle clearing by the end of December 1887 or in pitting by the end of May 1888, the Assistant Conservator will be at liberty to cancel the contract, the contractor forfeiting the deposit amount.

6. The contractor will be liable to forfeit his deposit amount if the whole clearing or pitting contracted for be not completed within the time fixed in this Notification and he will not be paid for part of the work done.

7. Tenders to be sent to the Assistant Conservator of Forests, Shimoga District, who does not bind himself to accept the lowest tender or to assign any reason for rejecting any tender.

8. Any other information required will be furnished on application at the office of the Assistant Conservator of Forests, Shimoga District,

E. P. LOVERY,
Asstt. Conservator of Forests,
Shimoga District.

II. Proposal regarding the entertainment of an additional Medical pupil for the City Maternity.

Resolution.—The entertainment of an additional Medical pupil is sanctioned subject to the approval of Government. The allowance, *viz.* Rs. 15 per mensem or Rs. 180 per annum, to be met from the savings under head "Maternity."

III. Docket No. 284—1001, dated 20th June 1887, from the Executive Engineer, Palace Division, requesting to be informed whether the Municipality would contribute towards the construction of a chuttrum at the City Railway Station.

Resolution.—Having regard to the present state of finances, the Board regret their inability to contribute any sum towards the above purpose. The Vice-President should be, however, requested with reference to Board's Resolution dated 25th February last, to ascertain from Tiruvengadammal, who applied for a site near the Railway Premises to build a chuttrum on, at her own cost, whether she would contribute the required sum, *viz.* Rs. 8,000 or any part of it, towards the above charitable institution.

IV. Letter from the Chief Secretary to the Dewan of Mysore, No. 2074—112, dated 7th May 1887, to the address of the Deputy Commissioner, Bangalore District, on the subject of the proposed removal of the village of Upparhalli situated to the south of Palace.

Resolution.—Recorded. A copy of the above letter to be forwarded to the President, Municipality, Civil and Military Station, for information, with a request that he will kindly intimate whether his Municipality would be prepared to contribute towards the cost of the proposed diversion of the existing sewage drains in the villages of Dobbspet and Upparhalli to the nearest main sewer instead of allowing the fluid sewage to be first collected in a cistern and then removed as at present. The arrangement would be of [illegible] advantage in a sanitary point of view and also in maintaining the purity of water in Miller's T[illegible]

[illegible]f the Dewan of Mysore, No. 1919-20—179, dated 8th July 1887, regarding [illegible]be adopted for the employés of the City Municipality.

Resolution.—The main object of the Municipal Commissioners in introducing into this Municipality the pension scheme, was to secure the services of good and trustworthy men to the office establishment and more particularly to the revenue Collection and Account branch and they are of opinion that the said scheme should not be made applicable to every Municipal servant, as otherwise it will prove a heavy burden on the Municipal resources. The Commissioners would now resolve that the present applicant Venkatramanaiya, who belonged to the Collection branch, be recommended to Government for an invalid pension according to Civil Pension Code and they further resolve that a list showing the rank or designation of such officials as in their opinion are to be allowed the privilege of pension under the Pension Code be laid before the next Board for approval and transmission to Government.

VI. Proposed widening of the roadway leading to the Woollen Mill from Cotton Pettah high road by the side of Kengeri Gate Police station.

Resolution.—Sanctioned. The cost thereof, *viz.* Rs. 210, be met from the provision made under head "Compensation" in the current year's budget.

VII. Proposed removal of the bonded Warehouse for excisable articles to premises known as Cattle Pound near the General Market.

Resolution.—The Board observe that the bonded Warehouse immediately adjoining the Government Girls' School has only a small court-yard attached to it, hence carts laden with excisable articles that come there for clearance of duty are very often compelled to stand on the public street causing great obstruction and inconvenience to the public. The Commissioners also consider the removal of the Koti from its present building as very necessary for the purpose of adding the same to the Government Girls' School, the number of pupils attending the above School having largely increased of late and the present School building being inadequate. For these reasons the proposed removal of the bonded Warehouse to the Cattle Pound is sanctioned. The Board also sanctions the necessary repairs to be executed to the Cattle Pound and Girls' School buildings as now enlarged, to render them suitable for the purpose they are intended for. The Board further sanctions the stone building on the edge of the late Cart-stand situated on the Mysore road being converted into a Cattle Pound. The charges of the works above indicated be met from the allotment under head "Repairs" in the current year's budget.

3. The quantity to be supplied to each Depôt and the block of forest selected for fellings with other information will be found on the notice board in the Assistant Conservator's Office.

4. No tenders will be received unless accompanied by a deposit of Rs. 100 in cash or currency notes.

5. Each tender should specify the rate per cubic foot in case of timber and poles and the rate per 100 in case of bamboos.

6. The Forest Officer reserves to himself the right of rejecting any tender without assigning any reason for so doing.

7. The tenderer is bound to fell, square and cart to the Depôt all the trees marked in the forests by the Forest Department.

8. The deposit money will be forfeited if the successful tenderer does not execute a contract bond on a proper stamp paper within one week from the date on which his tender was accepted.

9. The form of contract bond and the conditions thereof, with any other additional information, will be made known on application at the Office of the Assistant Conservator of Forests.

L. RICKETTS,
Inspector General of Forests.

The 25th August 1887.

Tenders are invited up to the 15th October 1887 for the clearance of 200 acres of forest land and for the digging of 200,000, eighteen inch cubic pits in the following localities :—

SHIMOGA MUNICIPALITY.

Proceedings of a meeting of the Shimoga Municipal Board held at the office of the Vice-President on the morning of the 30th August 1887.

Present.	*Absent.*
Vice-President.	
K. Nagesha Rao, Esq.	The Executive Engineer.
Mr. M. Narasimlu Naidu, Acting Amildar.	The Civil Surgeon.
	Mr. T. Venkatappa.
Members.	,, T. Bhima Rao.
	,, Honna Nayik.
Mr. K. Vedantaiengar.	
,, M. Ramprasad Tivari.	
,, N. Mojappa.	
,, A. Sitaramappa.	

1. Read accounts of receipts and expenditures for July 1887.

The receipts under the head of Octroi amounted to Rs. 284-15-3 as contrasted with Rs. 534-14-½ under the same head in the month of July last year. The falling off has been mainly in the items of duty on piece goods and oils.

The expenditures during the month amounted to Rs. 1,519—11—4 including Rs. 391—1—10 on account of work executed to the Park well.

Resolved that the accounts be passed with the remark that the decrease above noticed is far from satisfactory.

2. Read docket No. 22 of the 6th August 1887 from the Police Assistant Commissioner enclosing a bill for Rs. 33—3—0 for six bull's eye lanterns to be used by the Town Police.

The meeting observe that this item is not provided in the budget estimate for the current year; and they regret that in the present state of their funds they are not in a position to find means for the charge. If timely intimation is given, provision will be made in the budget for 1888—89.

3. Read Shimoga Amildar's Ittilla No. 124, dated 9th July, together with records in connection with the complaint from Krishnarajpur Venkataramana Sastri, &c., that with the intention of preventing the residents of their street from taking water of the public well (situated in the open space where the people set Kama every year during the Holi festival) Harihar Gunde Rao has commenced to build a house, and that the building work must be stopped.

The Board find that in the year 1884 the residents of Krishnarajpur street lodged a suit in the Civil Courts against Harihar Gunde Rao and another, that the latter prevented the former from setting Kama in the open space (Maidan) in dispute; and decrees were passed in favor of the residents of the street, *vide* decrees filed in the record in O. S. No. 528 of 1884 on the file of the Shimoga uMnsiff's Court and Appeal Suit No. 35 of 1885 on the file of the District Court, Nagar.

In the existence of the Court decisions as above set forth, the Board consider that they cannot interfere in the matter. The only course open is for the aggrieved party to take action through Courts according to law.

4. Read Ittilla No. 364, dated 16th July 1887, in *re* the compensation claimed by H. Srinivas Rao owing to some land having been taken up for new roads and planting avenues, &c., in the Bidarkatte kaval (Maharaja's Park) the grazing of which he had purchased for the year Vyaya, 1886—87, for Rs. 104.

Resolved that a remission of Rs. 35 be granted from the amount due from H. Srinivas Rao on account of the hulbanni sale, as it appears that after the sale was conducted roads were laid out and many plants were put down on the road sides and other spots in the Park.

5. Read Shimoga Amildar's Ittilla No. 1725, dated 23rd instant, enclosing a statement of remissions to be granted in the town mohatarfa on account of previous years arrears.

Resolved that remissions to the amount of Rs. 31 be granted as detailed in the marginal statement.

2. A. Dasappa	...	2	8	0
3. H. Srinivas Rao	...	20	0	0

Total.....		31	0	0

6. Read record ending with yádi from Mr. T. Raghavendra Rao, Assistant Commissioner, Kadur District, for a reduction in the amount of mohatarfa imposed upon his bungalow at Shimoga.

Resolved that the valuation of Mr. Raghavendra Rao's bungalow be reduced from Rs. 5,000 to Rs. 3,000 to correspond with that of other bungalows here, and that accordingly the tax payable per annum be reduced from Rs. 17 to Rs. 12.

II. Docket No. 403—1319, dated 4th August 1887, from the Executive Engineer, Palace Division, forwarding plan and estimate amounting to Rs. 1,098 for fixing stand posts at junction of Taluk Cutcherry and Akkipete roads where it is proposed to distribute the tank water by laying line of 3″ piping from the sluice of Dharmambudhi tank.

Resolution.—The project is a desirable one; but it is not clear from the plan now laid before the Board whether it is a part of the general scheme to supply water to the whole town or otherwise. The consideration of the project to be therefore deferred pending the receipt of further information from the Executive Engineer, Palace Division.

KADUR DISTRICT.

NOTIFICATION.

The 15th October 1887.

Notice is hereby given that the undermentioned lands in the Chikmagalur Taluk, Kadur District, applied for coffee cultivation, will be sold by auction at 11 A. M., on Monday the 21st November 1887 at Chikmagalur, before the Amildar of the Chikmagalur Taluk, subject to the confirmation of the Deputy Commissioner of the District.

2. The sale shall be by public auction under the usual conditions and the land shall be knocked down to the highest bidder above the upset price, *viz.* Rs. 5 per acre. The deposit of one-fourth of the upset price to be made by the applicant shall, if the land be knocked down to him at the auction, be credited towards his deposit of 25 per cent of the purchase money payable under clause 4 of this notice and it shall be refunded to him if the land is purchased by any other person in the auction.

3. The upset price fixed as above shall include survey expenses and the right of Government to all reserved trees except sandal, which will always be reserved absolutely by Government.

4. The highest bidder should, immediately after the close of the sale, pay 20 per cent of the purchase money and the remainder before sunset on the 15th day from the date of sale as provided for by the rules in force, in default the land will be resold at the risk of the defaulter, who will have to make good the deficiency, if any, at the second sale.

5. The lands sold under these rules shall be held free of assessment for the first three years and half assessment for the next two years, the full assessment being payable from and after the sixth year. But before this concession is granted, the purchaser must bind himself in writing to pay the full assessment from the first year, in the event of his resigning the land after cutting down the timber on it or otherwise clearing any portion of it, but without having made any *bonâ fide* attempt to bring under cultivation the arable area included in it.

FINANCIAL DEPARTMENT.

NOTIFICATION.

The 27th October 1887.

As there are reasons for thinking that the provisions of the Stamp Act regarding the stamping of Bills of Exchange, Hundis, &c., are not strictly observed in this Province, the Superintendent of Stamps, Mysore, has the honor to republish, for general information, Notification of Government No. 142, dated 11th September 1873, published at page 146 of the *Mysore Gazette*, Part I.

A. RANGASWAMAIENGAR,
Supt. of Stamps, Mysore.

No. 142. *The 11th September* 1873.

In order to remove doubts which may exist on some points connected with the operation of the General Stamp Act of 1869 in Mysore, the following explanatory memo is published for general information.

1. It has been laid down by the Government of India * that wherever the words "British India" are used in the Act they shall be held to mean the Territories of Mysore."

* See Government of India, Foreign Department, Notification No. 13 J. of 18th January 1870, Mysore Gazette, dated 5th February 1870.

2. Bills of Exchange drawn in Mysore should be executed on paper impressed with a Mysore stamp, excepting those which are subject to a stamp duty of one anna, and which should be stamped with a Mysore Receipt Bill or Draft Label [*vide* Section 5, (*a*)].

3. Bills of Exchange drawn in British India and bearing a stamp of the Government of India have been specially exempted, under the orders quoted in the margin of para 1, from Mysore Stamp duty when negotiated in Mysore; and in like manner Bills of Exchange drawn in Mysore and bearing a proper Mysore stamp, are exempt from payment of the Government of India stamp duty when negotiated in British India.

4. Bills of Exchange and Promissory Notes drawn in any place in India not forming part of the territories of the British Government of India (such, for example, as Pondicherry and Travancore) or drawn in any place *out of India*, should be stamped with a Mysore adhesive stamp label of the proper value before they can be legally negotiated in Mysore. The labels to be henceforward used in such cases are the ordinary "Receipt Bill or Draft" labels, which are printed on green ground with the word "Mysore" and the values in white.

5. Under Section 5 of the General Stamp Act any document chargeable with a duty of one anna, besides Bills of Exchange, may, if executed in Mysore, be stamped with an adhesive Mysore stamp label. Until a label is authorized for the general purposes provided for in the Act, the labels to be used will be those described in para 4.

6. Transfers made on scrip representing shares in public companies, should be stamped with the special adhesive labels prescribed for stamping such transfers. They are printed on a blue ground with the words "Mysore Transfer Stamps" and the values in white.

7. Documents other than those which the Act permits to be stamped with an adhesive label, as described in the preceding paragraphs, must, if executed in Mysore, be executed on *impressed* Mysore stamp paper.

8. Documents executed out of Mysore (other than Bills of Exchange drawn in British India), if relating to property in Mysore, are subject to the payment of Mysore stamp duty under Section 4, Clause 2 of the Act, even if they have paid the stamp duty of the place in which they were executed. Such documents must be dealt with by Public Officers in Mysore agreeably to the provisions of Section 24 of the Act.

"By Order,"
H. W. WELLESLEY.
Offg. Secretary.

2. The sale shall be by public auction under the usual conditions and the land shall be knocked down to the highest bidder above the upset price, *viz.* Rs. 5 per acre. The deposit of one-fourth of the upset price to be made by the applicant shall, if the land be knocked down to him at the auction, be credited towards his deposit of 25 per cent of the purchase money payable under clause 4 of this notice and it shall be refunded to him if the land is purchased by any other person in the auction.

3. The upset price fixed as above shall include survey expenses and the right of Government to all reserved trees except sandal, which will always be reserved absolutely by Government.

4. The highest bidder should, immediately after the close of the sale, pay 20 per cent of the purchase money and the remainder before sunset on the 15th day from the date of sale as provided for by the rules in force, in default the land will be resold at the risk of the defaulter, who will have to make good the deficiency, if any, at the second sale.

5. The lands sold under these rules shall be held free of assessment for the first three years and half assessment for the next two years, the full assessment being payable from and after the sixth year. But before this concession is granted, the purchaser must bind himself in writing to pay the full assessment from the first year, in the event of his resigning the land after cutting down the timber on it or otherwise clearing any portion of it, but without having made any *bonâ fide* attempt to bring under cultivation the arable area included in it.

II. Docket No. 1172, dated 25th August 1887, from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore, regarding the appointment of members to the Hospital Committee.

Resolved.—That Messrs. A. Srinivasacharlu, Rai-Bahadur, Vice-President and Murry Gungiah, Municipal Commissioner, No II Division, be appointed as members to the Hospital Committee to represent the Board. It is further resolved that Deputy Commissioner be addressed to move the Government to nominate three members on their behalf and the Lady Superior be likewise requested to appoint members to represent her interests as required by the conditions of transfer.

III. Letter No. 1171, dated 25th August 1887, from the same Officer, forwarding correspondence on the subject of the transfer of certain persons from the Town Hospital to the Girdlestone Ward.

Resolution.—That the Honorary Secretary to the Friend-in-need Society be requested to furnish for the information of the Board a statement showing the number of incurables that have been admitted to the Ward from City of Bangalore since the establishment of the Institution. The Commissioners would, at the same time, desire to record that the three persons alluded to in the letter of the Honorary Secretary to the Friend-in-need Society to the address of the Senior Surgeon, were, in Board's opinion, fit and proper persons to be admitted to the Girdlestone Ward.

IV. Memo showing the cost of providing clothes to the Langarkhana paupers.

Resolution.—The Board, in passing the estimate for Rs. 273—9—0 being the probable cost of clothes to be issued to the paupers in Langarkhana, desire to observe that as the certificates now held by the parties give them the right to receive rations to the end of their lives, it is desirable that these certificates should be periodically examined by the President or Vice-President to satisfy himself as to the identity of the persons and also in view to prevent fraudulent transfers by sale or otherwise. It is also resolved that as regards future admissions, certificates be issued only for a term of one year which can be extended.

V. Petition from Mahomed Yakub Sahib regarding his land in Dobbspet together with Collector's report thereon.

Resolution.—The Board consider it unnecessary to purchase the land in question, and the party be informed that he is at liberty to dispose of the land or cultivate the same as he may think proper.

VI. Letter from the Honorary Secretary, Girls' School Committee, bringing to notice the necessity for additional teachers to the School.

Resolution.—The Board resolve that the application from the School Committee for an additional staff of teachers be submitted to Government for sanction. The Commissioners think that under circumstances represented, some of the additional staff of teachers are very necessary.

A. SRINIVASACHARLU, R. B.,
Vice-President.

FINANCIAL DEPARTMENT.

NOTIFICATION.

The 27th October 1887.

As there are reasons for thinking that the provisions of the Stamp Act regarding the stamping of Bills of Exchange, Hundis, &c., are not strictly observed in this Province, the Superintendent of Stamps, Mysore, has the honor to republish, for general information, Notification of Government No. 142, dated 11th September 1873, published at page 146 of the *Mysore Gazette*, Part I.

A. RANGASWAMAIENGAR,
Supt. of Stamps, Mysore.

The 11th September 1873.

No. 142.

In order to remove doubts which may exist on some points connected with the operation of the General Stamp Act of 1869 in Mysore, the following explanatory memo is published for general information.

1. It has been laid down by the Government of India * that wherever the words "British India" are used in the Act they shall be held to mean the Territories of Mysore."

* See Government of India, Foreign Department, Notification No. 13 J. of 18th January 1870, Mysore Gazette, dated 5th February 1870.

2. Bills of Exchange drawn in Mysore should be executed on paper impressed with a Mysore stamp, excepting those which are subject to a stamp duty of one anna, and which should be stamped with a Mysore Receipt Bill or Draft Label [*vide* Section 5, (*a*)].

3. Bills of Exchange drawn in British India and bearing a stamp of the Government of India have been specially exempted, under the orders quoted in the margin of para 1, from Mysore Stamp duty when negotiated in Mysore; and in like manner Bills of Exchange drawn in Mysore and bearing a proper Mysore stamp, are exempt from payment of the Government of India stamp duty when negotiated in British India.

4. Bills of Exchange and Promissory Notes drawn in any place in India not forming part of the territories of the British Government of India (such, for example, as Pondicherry and Travancore) or drawn in any place *out of India*, should be stamped with a Mysore adhesive stamp label of the proper value before they can be legally negotiated in Mysore. The labels to be henceforward used in such cases are the ordinary "Receipt Bill or Draft" labels, which are printed on green ground with the word "Mysore" and the values in white.

5. Under Section 5 of the General Stamp Act any document chargeable with a duty of one anna, besides Bills of Exchange, may, if executed in Mysore, be stamped with an adhesive Mysore stamp label. Until a label is authorized for the general purposes provided for in the Act, the labels to be used will be those described in para 4.

6. Transfers made on scrip representing shares in public companies, should be stamped with the special adhesive labels prescribed for stamping such transfers. They are printed on a blue ground with the words "Mysore Transfer Stamps" and the values in white.

7. Documents other than those which the Act permits to be stamped with an adhesive label, as described in the preceding paragraphs, must, if executed in Mysore, be executed on *impressed* Mysore stamp paper.

8. Documents executed out of Mysore (other than Bills of Exchange drawn in British India), if relating to property in Mysore, are subject to the payment of Mysore stamp duty under Section 4, Clause 2 of the Act, even if they have paid the stamp duty of the place in which they were executed. Such documents must be dealt with by Public Officers in Mysore agreeably to the provisions of Section 24 of the Act.

"By Order,"
H. W. WELLESLEY.
Offg. Secretary.

MYSORE BUDGET ESTIMATES FOR 1888-89.

Circular No. 1692, *dated 2nd November* 1887.

The Comptroller has the honor to request that the Heads of Offices and Departments will be good enough to prepare their Budget Estimates of Receipts and Disbursements for the year 1888-89 and despatch them to this Office not later than the 15th December next.

As an exception the receipt budgets of the Districts may be deferred until the 15th January to enable the Deputy Commissioners to form reliable estimates for 1888-89, under the heads of Land Revenue, Forests, Sayer and Mohatarfa.

The figures to be entered under estimates for 1887-88 are those shown in the printed budget of this Office for that year. Full explanation should be given for any differences between the estimates for 1887-88 and 1888-89.

Forms of District Budgets will be supplied to the Deputy Commissioners from the Office of the Superintendent, Government Stationery, to whom they should apply.

To—The Treasury Officers, Districts and Taluks, Circular No. 1694, *dated 3rd November* 1887.

There being reason to apprehend that the accounts required to be kept by Licensed Stamp Vendors are not regularly examined, the Comptroller has the honor to draw the attention of Treasury Officers of Districts and Taluks to Rules 11 and 12 published with this Office Circular No. 807, dated 29th September 1870, which are reproduced in the margin for ready reference, and to request that special care may be taken in future to see that the accounts of Stamp Vendors are examined once a quarter as required by the Rules quoted above. It is also requested that when these accounts are completely written up they may be taken from the Stamp Vendors, a receipt being passed to them for the same and carefully preserved in the Treasury records.

Rule 11. The account books of Vendors will be sent for and examined once a quarter by the local Treasury Officer, in order to ensure their being properly kept up.

12. Stamp Vendors purchasing stamps for ready money will be required to keep the daily account No. II only.

A. RANGASWAMAIENGAR,
Comptroller.

The 10th October 1887.

Under Section 9 of the Revised Forest Rules of 1878, the boundaries of the undermentioned Forest in the Bangalore District are published for general information :—

Muggur Forest.

The Forest of Muggur is in one piece surrounded by a demarcation line (being cut) of the standard width of one gunter's chain = 22 yards. The length of this line is 32 miles, one furlong and 22 yards; it is marked throughout by large mile stones, 5 feet above the ground and by small furlong stones a foot high. The mile stones are numbered consecutively, commencing on the bank of the "Arkavati river" and the furlong stones are numbered consecutively within each mile.

Going from left to right as the hands of a watch, the demarcation line has on the left the following villages or prominent land-marks :—

On the North.

1. Kote Kuppa. ಕೋಟೆಕುಪ್ಪ. | 2. Bevinamaradadoddi ಬೇವಿನಮರದದೊಡ್ಡಿ. | 3. Alanatta. ಆಲನತ್ತ.

On the East.

2.	Yarlapodu.	ಯರ್ಲಪೋಡು.	5.	Kalegaudanadoddi.	ಕಾಳೇಗೌಡನದೊಡ್ಡಿ.
3.	Bannimukkudlu.	ಬನ್ನಿಮುಕ್ಕುಡ್ಲು			

On the South.

1. Honaganahalli ಹೊನಗನಹಳ್ಳಿ and a range of hills separating the Forest from that of the Salem District, and the Cauvery river from that of the Coimbatore District.

On the West.

1.	Arkavati.	ಅರ್ಕಾವತಿ.	3.	Arakoppa.	ಅರಕೊಪ್ಪ.
2.	Sivenagaudanadoddi.	ಶಿವೇನಗೌಡನದೊಡ್ಡಿ.	4.	Halakuli.	ಹಾಲಕುಳಿ.

There are two enclosures in the Forest, *viz.*, Muggur and Madivala. These enclosures are marked by simple demarcation lines 6 feet broad.

The 11th October 1887.

The undermentioned recently captured elephants and any that may be captured in the meanwhile will be sold by public auction at Nissen, 43 miles from Mysore, in Heggaddevankote Taluk, on **14th** November 1887 by the Superintendent of Forests, Mysore District.

Purchasers to bear all expenses of up-keep from date of purchase.

L. RICKETTS,
Inspector General of Forests.

POLICE DEPARTMENT.

NOTIFICATION.

The 28th October 1887.

Sealed tenders are hereby invited for making up of about three thousand coats and three thousand pairs of trowsers of khaki drill to be supplied by the office of the Inspector General of Police, according to approved sample available for inspection. The clothing will have to be made up in the Head-Quarter Police Office, Public Buildings, under the superintendence of an official of the office of the Inspector General of Police appointed for the purpose.

2. The different sizes and number of each will be specified on acceptance of the tender.

3. The above tenders should reach this office by the evening of the 10th November 1887. The lowest rate for making up each suit (a coat and a pair of trowsers) should be clearly specified in the tender.

4. The tenders will be opened by the Head-Quarter Police Assistant Commissioner at 12 A. M., on the 11th idem.

5. The acceptance of the tender will rest with the Inspector General of Police who does not bind himself to accept the lowest or any tender or to assign any reason for the rejection of any tender.

L. RICKETTS,
Inspector Genl. of Police.

KADUR DISTRICT.

NOTIFICATIONS.

The 15th October 1887.

Notice is hereby given that the undermentioned lands in the Chikmagalur Taluk, Kadur District applied for coffee cultivation, will be sold by auction at 11 A. M., on Monday the 21st November 1887 at Chikmagalur, before the Amildar of the Chikmagalur Taluk, subject to the confirmation of the Deputy Commissioner of the District.

2. The sale shall be by public auction under the usual conditions and the land shall be knocked down to the highest bidder above the upset price, *viz.* Rs. 5 per acre. The deposit of one-fourth of the upset price to be made by the applicant shall, if the land be knocked down to him at the auction, be credited towards his deposit of 25 per cent of the purchase money payable under clause 4 of this notice and it shall be refunded to him if the land is purchased by any other person in the auction.

3. The upset price fixed as above shall include survey expenses and the right of Government to all reserved trees except sandal, which will always be reserved absolutely by Government.

4. The highest bidder should, immediately after the close of the sale, pay 20 per cent of the purchase money and the remainder before sunset on the 15th day from the date of sale as provided for by the rules in force, in default the land will be resold at the risk of the defaulter, who will have to make good the deficiency, if any, at the second sale.

5. The lands sold under these rules shall be held free of assessment for the first three years and half assessment for the next two years, the full assessment being payable from and after the sixth year. But before this concession is granted, the purchaser must bind himself in writing to pay the full assessment from the first year, in the event of his resigning the land after cutting down the timber on it or otherwise clearing any portion of it, but without having made any *bonâ fide* attempt to bring under cultivation the arable area included in it.

NOTIFICATION.

The 27th October 1887.

As there are reasons for thinking that the provisions of the Stamp Act regarding the stamping of Bills of Exchange, Hundis, &c., are not strictly observed in this Province, the Superintendent of Stamps, Mysore, has the honor to republish, for general information, Notification of Government No. 142, dated 11th September 1873, published at page 146 of the *Mysore Gazette*, Part I.

A. RANGASWAMAIENGAR,
Supt. of Stamps, Mysore.

No. 142. *The 11th September* 1873.

In order to remove doubts which may exist on some points connected with the operation of the General Stamp Act of 1869 in Mysore, the following explanatory memo is published for general information.

1. It has been laid down by the Government of India * that wherever the words "British India" are used in the Act they shall be held to mean the Territories of Mysore."

* See Government of India, Foreign Department, Notification No. 13 J. of 18th January 1870, Mysore Gazette, dated 5th February 1870.

2. Bills of Exchange drawn in Mysore should be executed on paper impressed with a Mysore stamp, excepting those which are subject to a stamp duty of one anna, and which should be stamped with a Mysore Receipt Bill or Draft Label [*vide* Section 5, (*a*)].

3. Bills of Exchange drawn in British India and bearing a stamp of the Government of India have been specially exempted, under the orders quoted in the margin of para 1, from Mysore Stamp duty when negotiated in Mysore; and in like manner Bills of Exchange drawn in Mysore and bearing a proper Mysore stamp, are exempt from payment of the Government of India stamp duty when negotiated in British India.

4. Bills of Exchange and Promissory Notes drawn in any place in India not forming part of the territories of the British Government of India (such, for example, as Pondicherry and Travancore) or drawn in any place *out of India*, should be stamped with a Mysore adhesive stamp label of the proper value before they can be legally negotiated in Mysore. The labels to be henceforward used in such cases are the ordinary "Receipt Bill or Draft" labels, which are printed on green ground with the word "Mysore" and the values in white.

5. Under Section 5 of the General Stamp Act any document chargeable with a duty of one anna, besides Bills of Exchange, may, if executed in Mysore, be stamped with an adhesive Mysore stamp label. Until a label is authorized for the general purposes provided for in the Act, the labels to be used will be those described in para 4.

6. Transfers made on scrip representing shares in public companies, should be stamped with the special adhesive labels prescribed for stamping such transfers. They are printed on a blue ground with the words "Mysore Transfer Stamps" and the values in white.

7. Documents other than those which the Act permits to be stamped with an adhesive label, as described in the preceding paragraphs, must, if executed in Mysore, be executed on *impressed* Mysore stamp paper.

8. Documents executed out of Mysore (other than Bills of Exchange drawn in British India), if relating to property in Mysore, are subject to the payment of Mysore stamp duty under Section 4, Clause 2 of the Act, even if they have paid the stamp duty of the place in which they were executed. Such documents must be dealt with by Public Officers in Mysore agreeably to the provisions of Section 24 of the Act.

"By Order,"
H. W. WELLESLEY.
Offg. Secretary.

The 10th October 1887.

Under Section 9 of the Revised Forest Rules of 1878, the boundaries of the undermentioned Forest in the Bangalore District are published for general information :—

Muggur Forest.

The Forest of Muggur is in one piece surrounded by a demarcation line (being cut) of the standard width of one gunter's chain = 22 yards. The length of this line is 32 miles, one furlong and 22 yards; it is marked throughout by large mile stones, 5 feet above the ground and by small furlong stones a foot high. The mile stones are numbered consecutively, commencing on the bank of the "Arkavati river" and the furlong stones are numbered consecutively within each mile.

Going from left to right as the hands of a watch, the demarcation line has on the left the following villages or prominent land-marks :—

On the North.

1. Kote Kuppa. ಕೋಟೆಕುಪ್ಪ. | 2. Bovinamaradadoddi ಬಂವಿನಮರದದೊಡ್ಡಿ. | 3. Alanatta. ಆಲನತ್ತ.

BANGALORE CENTRAL JAIL.

NOTICE.

The 11*th November* 1887.

Notice is hereby given that sealed tenders will be received by the undersigned up to 1st day of December 1887, for the supply by contract of all articles of diet, &c., required for the use of the prisoners confined in the Bangalore Central Jail and District Lock-up from 1st January to 31st December 1888, both days inclusive.

2. No tenders will be received after the date above mentioned.

3. Tenders to be superscribed "Tenders for the supply of provisions for the Central Jail and District Lock-up."

4. No tenders will be received unless accompanied by a deposit of Rs. 500 in cash or currency notes.

5. Tenders will be opened by the Superintendent, Central Jail, at his office on the date above named, in the presence of such tenderers as may choose to attend.

6. All tenders must distinctly and separately specify the rate per convict per diem for the following classes, *viz* :—

1.	Native laboring convicts	A class.
2.	Do do	B class.
3.	Do short term	C class.
4.	Native non-laboring males, females and under-trials	D class.
5.	Juveniles and infirms	E class.
6.	Europeans and East Indians.	F class.

The estimated daily average number of convicts for 1888 is about 500.

7. The rates tendered must, in addition to the articles specified in the diet scales, include hospital and infirm diet, extras to sick and hospital perishable articles including wine, spirits, beer, &c., extra rations to out-door prisoners, earthen pots and chatties for drinking, &c., lotas and plates, soap-nut (sigekayi) for bathing purposes, rice, milk, bread, sugar, &c., for prisoners' children required to be regularly supplied for the use of the convicts.

The contractor will supply ragi grain to be ground by convicts, and it will be issued as flour.

8. The Superintendent reserves to himself the right of rejecting any tender without assigning any reason for so doing.

9. The deposit of the successful competitor will be retained and will be forfeited if he fails to execute the contract bond, or to furnish security to the amount of Rs. 1,500 in cash or Government bonds within one week from the date of the acceptance of his contract being made known to him.

10. No advance of cash will be made to the contractor. Payments for the articles supplied will be made by the Superintendent, Central Jail, as soon as possible, after the 1st of each month.

11. A store-room will be made over to the contractor in which he can keep all non-perishable articles. Perishable articles, such as meat, &c., must be at the Jail by 8 A. M. daily.

12. The contract must not be sub-let.

13. A fine not exceeding Rs. 150 will be levied at the discretion of the Superintendent of the Central Jail for any infringement of the stipulation of the contract, or for the supply of any inferior articles, and, if frequently violated, the contract may be annulled, and the security confiscated to Government.

14. The decision of the Superintendent of the Central Jail to be final in all questions of infringement of contract.

15. The contractor will be bound to purchase vegetables from the Jail garden for the use of the prisoners at 40 lbs. per rupee.

16. Any further information can be obtained by applying to the Superintendent's Office.

17. This contract will be subject to the confirmation of the Inspector General of Prisons in Mysore.

18. In case the contractor after taking the contract is not willing to carry out his agreement, he shall give at least one month's notice and shall forfeit the security money to Government. The contractor will also be bound to make good to Government any loss which may arise from his failure or by Government having to purchase the articles specified in the contract in the local markets at higher rates than those contracted for.

N. B.—No concessions of any description will be allowed in the above contract.

IN THE CHIEF COURT OF MYSORE.

Civil Side.

Rule of Practice No. 69, *dated* 10*th November* 1887.

The Inspector General of Police having represented that the removal of original diaries and other registers kept in a Police Station for production before the Civil Courts would cause serious inconvenience in the conduct of Police work, the Chief Court directs that whenever a Civil Court considers it necessary, for the ends of justice, to peruse any entries in such diaries or registers, the Police officer in whose custody the papers are, may be summoned to produce or cause to be produced certified copies of, or extracts from, the diaries or registers, subject to the provisions of the Indian Evidence Act. Such summons should be transmitted through the Deputy Commissioner or Police Assistant Commissioner, to whom the said officer is subordinate.

2. The original registers, &c., should be called for only in cases in which it is shown that their production cannot be dispensed with, and the purpose for which they are required cannot be effectually answered, by the production of copies or extracts.

By Order,

L. ANANTASWAMI RAO,
Registrar.

BANGALORE CENTRAL JAIL.

NOTICE.

The 11*th November* 1887.

Notice is hereby given that sealed tenders will be received by the undersigned up to 1st day of December 1887, for the supply by contract of all articles of diet, &c., required for the use of the prisoners confined in the Bangalore Central Jail and District Lock-up from 1st January to 31st December 1888, both days inclusive.

2. No tenders will be received after the date above mentioned.

3. Tenders to be superscribed "Tenders for the supply of provisions for the Central Jail and District Lock-up."

4. No tenders will be received unless accompanied by a deposit of Rs. 500 in cash or currency notes.

5. Tenders will be opened by the Superintendent, Central Jail, at his office on the date above named, in the presence of such tenderers as may choose to attend.

6. All tenders must distinctly and separately specify the rate per convict per diem for the following classes, *viz*:—

1.	Native laboring convicts	A class.
2.	Do do	B class.
3.	Do short term	C class.
4.	Native non-laboring males, females and under-trials	D class.
5.	Juveniles and infirms	E class.
6.	Europeans and East Indians.	F class.

The estimated daily average number of convicts for 1888 is about 500.

7. The rates tendered must, in addition to the articles specified in the diet scales, include hospital and infirm diet, extras to sick and hospital perishable articles including wine, spirits, beer, &c., extra rations to out-door prisoners, earthen pots and chatties for drinking, &c., lotas and plates, soap-nut (sigekayi) for bathing purposes, rice, milk, bread, sugar, &c., for prisoners' children required to be regularly supplied for the use of the convicts.

The contractor will supply ragi grain to be ground by convicts, and it will be issued as flour.

8. The Superintendent reserves to himself the right of rejecting any tender without assigning any reason for so doing.

9. The deposit of the successful competitor will be retained and will be forfeited if he fails to execute the contract bond, or to furnish security to the amount of Rs. 1,500 in cash or Government bonds within one week from the date of the acceptance of his contract being made known to him.

10. No advance of cash will be made to the contractor. Payments for the articles supplied will be made by the Superintendent, Central Jail, as soon as possible, after the 1st of each month.

11. A store-room will be made over to the contractor in which he can keep all non-perishable articles. Perishable articles, such as meat, &c., must be at the Jail by 8 A. M. daily.

12. The contract must not be sub-let.

13. A fine not exceeding Rs. 150 will be levied at the discretion of the Superintendent of the Central Jail for any infringement of the stipulation of the contract, or for the supply of any inferior articles, and, if frequently violated, the contract may be annulled, and the security confiscated to Government.

14. The decision of the Superintendent of the Central Jail to be final in all questions of infringement of contract.

15. The contractor will be bound to purchase vegetables from the Jail garden for the use of the prisoners at 40 lbs. per rupee.

16. Any further information can be obtained by applying to the Superintendent's Office.

17. This contract will be subject to the confirmation of the Inspector General of Prisons in Mysore.

18. In case the contractor after taking the contract is not willing to carry out his agreement, he shall give at least one month's notice and shall forfeit the security money to Government. The contractor will also be bound to make good to Government any loss which may arise from his failure or by Government having to purchase the articles specified in the contract in the local markets at higher rates than those contracted for.

N. B.—No concessions of any description will be allowed in the above contract.

SHIMOGA MUNICIPALITY.

Proceedings of a Meeting of the Shimoga Municipal Board held at 8 A. M. on the morning of the 27th October 1887 in the Office of the President at Shimoga.

Present.	*Absent.*
Vice-President.	
K. Nagesha Rao, Esq.	Executive Engineer.
D. A. Choksi, Esq., Civil Surgeon.	
Members.	
Mr. Narasimmal Naidu, Sheristadar for Amildar.	
" K. Vedantaiengar.	
" M. Ramaprasad Tivari.	
" T. Bhima Rao.	
" N. Mojappa.	
" A. Sitaramappa.	
" T. Venkatappa.	
" Honna Naik.	

1. Read accounts for the months of August and September 1887. The Board find that in August the receipts under Octroi amounted to Rs. 587—9—1½ as against Rs. 492—11—8½ in the same month last year, showing an increase of Rs. 94—13—5 and the expenditure amounted to Rs. 1,215—12—10. In September 1887, the income under Octroi was Rs. 616—11—10 as against Rs. 613—8—3 in that month last year, giving an increase of Rs. 3—3—7 and the expenditure was Rs. 685—9—11. Resolved that the accounts be passed.

2. Read letter dated 30th August 1887 from the Revd. Mr. B. Robinson, Wesleyan Missionary at Shimoga, in reply to a letter from the Vice-President expressing his willingness to become a member of the Board.

The Board unanimously approved of the nomination of the Revd. Mr. B. Robinson as a member of the Board.

3. Read Shimoga Amildar's Ittilla No. 181 of 30th August 1887 regarding the supply of certain articles of furniture for the use of the Shimoga Town Police Central Station.

Resolved that as the item above referred to is not included in the current year's budget and also as funds do not permit of the same being sanctioned as a special case, consideration be given to this subject at the time of preparing the next year's budget on receipt of a formal proposal with previous reference as to from which Department the last supply of furniture was made.

4. Read Amildar's Ittilla No. 201, dated 11th September 1887, submitting an estimate for Rs. 339 for gravelling roads in the Maharaja's Park.

Resolved that provision may be made for this work in the next year's budget as funds are now short.

5. Read letter from Mr. Ramaprasad Tivari proposing the extension of the Rangare street across the Pettah to join a branch of the Timmappana Koppal road and Krishnarajpur road near Kotval Katte. It is true that these projects will, besides improving the Pettah and the Town in general, work out to some extent, the Kumbargundi project. It appears that some correspondence also regarding this took place some years ago.

Resolved that the above correspondence with a probable estimate of expenditure to be incurred on account of the above projects be submitted at the sitting of the Board in January 1888 for discussion.

6. Proposed by Doctor Choksi and unanimously resolved that, if the Municipal sweepers persist for the future also in not attending to their work regularly, necessary steps would be taken by the Vice-President as regards the removal of these and substitution of others by sending for some new men from Bangalore or Mysore.

7. Proposed by Doctor Choksi, seconded by Mr. Ramaprasad Tivari, and unanimously resolved that as the task of keeping the roads in good order and preventing nuisances has become almost impossible owing to the want of summary powers especially after the withdrawal of convicts formerly detailed for work in the town, the passing of the bye-laws applied for in proceedings of 31st May and 19th July would strengthen the hands of the present Municipal staff and enable them to attend to sanitation better.

FINANCIAL DEPARTMENT.

FRACTIONS OF A PIE NOT TO BE ENTERED IN ACCOUNTS.

To—The District and Taluk Treasury Officers, Circular No. 1696, *dated 24th November* 1887.

As an unauthorized practice of showing fractions of a pie in the Treasury accounts exists in some of the Districts, the Comptroller has the honor to invite their attention to Note 3, Rule 17, Chapter 17, of the Civil Account Code and to direct that no fractions of a pie be received or paid or entered in the accounts.

Fractions occurring in the present accounts should be adjusted at the earliest available opportunity.

Whenever part of a pie is found due to or by the Government, fraction in excess of half a pie should be treated as one pie, that below being left out of calculation.

WEEKLY REPORT OF CASH IN THE DISTRICT AND TALUK TREASURIES.

To—The Deputy Commissioners of Districts, Treasury Department, Circular No. 1695, *dated 24th November* 1887.

2. Letter dated 16th September 1887, from J. Cameron, Esq., Municipal Commissioner, No. VI Division, reporting on the application of one Sher Khan Saib, for building a compound wall, &c., on the site near Cubbon Park.

Resolved.—That the question of acquiring the two pieces of land referred to in the letter above quoted, and which the Municipal Overseer values at Rs. 975 be referred to the Amildar and Messrs. J. Cameron and A. S. Raghavacharlu, Municipal Commissioners, for enquiry and report.

3. Docket No. 1092, dated 20th September 1887, from the Deputy Commissioner, Bangalore District, requesting to be informed whether the Municipality is prepared to pay a compensation of Rs. 2,907—12—8 for the lands required for the erection of hackney carriage stand.

Resolved.—That the question of purchasing the land required for the erection of hackney carriage stand referred to in Docket No. 1092, dated 20th September 1887, of the Deputy Commissioner, Bangalore, be deferred till next meeting of the Board, for further enquiry as to the proper value of the land, as the sum of Rs. 2,907—12—8 seems too large.

4. Municipal School returns for the half year ending 30th September 1887 together with letter dated 22nd September 1887, from the Honorary Secretary, Municipal School, recommending an increase to the pay of the 1st Assistant Master.

Resolved.—That the School returns be recorded and the question regarding increase of pay to the 1st Assistant Master be referred to the Municipal School Committee for re-submission to the Board with such remarks as they may consider necessary to make regarding the application of the 1st Assistant Master for increase of pay.

3. The upset price fixed as above shall include survey expenses and the right of Government to all reserved trees except sandal, which will always be reserved absolutely by Government.

4. The highest bidder should, immediately after the close of the sale, pay a deposit of 25 per cent of the purchase money inclusive of the deposit referred to in para 2 and the remainder before sunset on the 15th day from the date of sale as provided for by the rules in force; in default the land will be resold at the risk of the defaulter, who will have to make good the deficiency, if any, at the second sale, but will have no claim to the excess if any.

5. The lands sold under these rules shall be held free of assessment for the first three years and on half assessment for the next two years, full assessment being payable from and after the sixth year. But before this concession is granted, the purchaser must bind himself in writing to pay the full assessment from the first year, in the event of his resigning the land after cutting down the timber on it or otherwise clearing any portion of it, but without having made any *bonâ fide* attempt to bring under cultivation the arable area included in it.

II. Reappropriation statement of budget provisions for the year.

Resolution.—The Board find the proposed reallotments absolutely necessary and recommend the same for early sanction of Government.

III. Deferred proposition regarding the acquisition of land in Ganigar Pete for the erection of Hackney Carriage stand.

Resolution.—Referred to a Sub-Committee of Vice-President, Amildar, Messrs. J. Cameron and B. Murry Gungiah to select 4 or more smaller and less costly sites.

IV. Disposal of tenders for the lighting of the City of Bangalore.

Resolution.—Out of seven tenders received that of Narasimmaiya, the present lighting contractor, offering to light at the rate of 14 annas per month per lamp is accepted.

V. Entertainment of 5 additional sweepers for conservancy of Gavipur, Guttahalli, Malenahalli, Kanakanapalya and Madigarapalya (Hanumantapura) ; and of a temporary Overseer to superintend roads and conservancy of the suburban villages till they are brought up to standard.

Resolution.—Owing to the neglected state of the suburban villages both in point of conservancy and roads, the employment of 5 additional sweepers and a special temporary Overseer to supervise the same is sanctioned pending approval of Government.

VI. Letter No. 1493, dated 19th October 1887, from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore, forwarding for favorable consideration an application from the Matron of the Maternity for an increase of pay.

Resolution.—It is brought to the notice of the Board that the Matron at Mysore is in receipt of 75 rupees a month and that the Matron here should also get similar pay, but owing to want of funds, an increase of Rs. 15 is sanctioned from this month and from April next, it should be raised to Rs. 25. The Board also resolve that the President be requested to address Government for a grant-in-aid from Local or Provincial Funds towards costs of the "Maternity," as its expenses are increasing and many patients come from the District.

VII. Arrangements to be made for the Fruit and Flower Show in December next.

Resolution.—The next Horticultural Show should be held at the Municipal Garden on or about 2nd January next, the Acting Vice-President and Messrs. J. Cameron, B. Murry Gungiah, B. Sitaramaiya, Khazi Abid Shariff Saib and S. V. Annaiyappa Chetti to form a Committee and work out details.

VIII. Draft rules for the sanitation and conservancy of cart-stands within Municipal limits.

Resolution.—The draft rules are approved and are to be submitted to Government for sanction.

IX. Letter, dated 14th November 1887, from Colonel Magrath, President of the Park Fair Committee, requesting liquidation of debts incurred during the Xmas fair of 1884.

Resolution.—To prevent the matter being taken into Courts, the Board resolve to contribute Rs. 400 to be paid after the close of the financial year, there being no funds available now. As the general public outside the Municipal limits also took part and enjoyed the late fair, the President be requested to address Government for a grant-in-aid towards this contribution.

X. Statement showing cost for making badges and belts for the Octroi Department, also badges with straps for jatka-drivers.

Resolution.—Sanctioned. Badges and belts for Octroi Department to be provided for in next year's budget.

XI. Application from Messrs. Appavu Chetti and Sons for a piece of ground situated near Agrahar gate on the Mysore road.

Resolution.—The matter be referred to a Sub-Committee composed of the President, Senior-Surgeon, Vice-President and Amildar for selection of a suitable site and disposal.

The 14th December 1887.

Memo of additional propositions to be laid before the next meeting of the City Municipal Board to be held on Wednesday the 21st December 1887 at 7-30 A. M.

1. Proceedings of the Dewan of Mysore Camp No. 2089, dated Mysore, 4th December 1887, sanctioning the resolution passed by the Board regarding the levy of enhanced rates from the Sattis and Yajamans.

2. Letter No. 639—2072, dated 8th December 1887, from the Executive Engineer, Palace Division, regarding the construction of a chuttrum near the City Railway Station.

3. Proceedings of the Sub-Committee disposing of the application from Messrs. Appavu Chetti and Sons for a piece of ground near Agrahar gate.

4. Proceedings of a Sub-Committee for settling a fresh site for the sweepers' huts.

KADUR DISTRICT.

NOTIFICATION.

The 21st November 1887.

Notice is hereby given that the undermentioned lands in the Mudgere Taluk, Kadur District, applied for for coffee cultivation, will be sold by auction at 11 A. M., on Monday the 9th January 1888 at Mudgere, before the Amildar of the Mudgere Taluk, subject to the confirmation of the Deputy Commissioner of the District.

2. The sale shall be by public auction under the usual conditions and the land shall be knocked down to the highest bidder above the upset price, *viz.* Rs. 10 per acre. The deposit of one-fourth of the upset price made by the applicant shall, if the land be knocked down to him at the auction, be credited towards his deposit of 25 per cent of the purchase money and it shall be refunded to him if the land is purchased by any other person in the auction.

3. The upset price fixed as above shall include survey expenses and the right of Government to all reserved trees except sandal, which will always be reserved absolutely by Government.

4. The highest bidder should, immediately after the close of the sale, pay a deposit of 25 per cent of the purchase money inclusive of the deposit referred to in para 2 and the remainder before sunset on the 15th day from the date of sale as provided for by the rules in force; in default the land will be resold at the risk of the defaulter, who will have to make good the deficiency, if any, at the second sale, but will have no claim to the excess if any.

5. The lands sold under these rules shall be held free of assessment for the first three years and on half assessment for the next two years, full assessment being payable from and after the sixth year. But before this concession is granted, the purchaser must bind himself in writing to pay the full assessment from the first year, in the event of his resigning the land after cutting down the timber on it or otherwise clearing any portion of it, but without having made any *bonâ fide* attempt to bring under cultivation the arable area included in it.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

WEATHER SUMMARY FOR MAY 1887.

The principal features of interest in the meteorology of the past month have been on the one hand the excessive heat and dryness of Upper India, on the other the progress of a well-marked and moderately intense cyclonic storm from the Bay into North Bengal.

Except during the passage of the abovementioned storm, pressure over India has maintained great uniformity in its general distribution. It has been steadily high on the west coast of the Peninsula, low over Orissa, Northern Bengal, and the east of the Central Provinces, and lowest over the Punjab. Compared with the average of the month, there was a slight excess of pressure at Bhuj, along the west coast of the Peninsula, at a few inland stations in the Peninsula, and at Colombo. Elsewhere pressure has been in defect—most so in the Punjab, where at Sialkot and Rawalpindi the deficiency amounted over a tenth of an inch. The largest excess was at Karwar and Mangalore (+·037 inch), the largest defect at Rawalpindi (—·104 inch), so that the amplitude of the variation from the normal throughout the whole of India amounted to ·141 inch.

The winds have been generally very steady. They have been moderate or light from the westward (north-west to south-west) over the west coast, the Peninsula, and the Central Provinces; strong from the southward (south-west to south-east) over the Bay and Bengal; and variable, but generally southeasterly, up the Gangetic valley. On the whole, the Bay of Bengal branch of the summer monsoon has been much stronger and earlier than that on the West Coast. The latter up to the close of the month was very feeble, neither the rain-fall nor the strength of the wind on the Malabar and Konkan Coasts being equal to the average. On the contrary, on the Bengal side the southerly winds were generally strong, on some occasions exceedingly so, and the moisture which they brought up occasioned very heavy rain around the head of Bay and as far north-west as Behar.

In Upper India temperature was much above the average, and the air both on the hills and on the plains was excessively dry. At Murree the moisture in the atmosphere was as much as 26 per cent below the normal on the average of the month, and at nearly all places in North-Western India the deficiency considerably exceeded 10 per cent. At Rawalpindi the mean 10 A. M. temperature of the month was almost 10° above the average, but from this point the amount of the excess gradually decreased till over Bengal, the greater part of the Peninsula, and in Burmah it disappeared and was replaced by a deficiency.

Rain-fall was deficient over the greater part of the country, but was slightly in excess in the Berars, Khandesh, Orissa, and Lower Bengal, and largely in excess over Northern Bengal and Berar.

The Cyclone.—On 23rd May the wind began to blow strongly from south about Cape Negrais, and stormy squally weather prevailed off the West Pegu Coast. The depression which was causing these unsettled conditions subsequently travelled slowly north-westward towards the head of the Bay; on the 24th it lay between False Point and Akyab, on the 25th between False Point and Saugor Island, and in the early morning of the 26th it apparently crossed the Orissa Coast near Balasore, and by 10 A. M. on that day had reached Midnapore. During its progress up the Bay the wind had blown with a well-marked cyclonic circulation, and had risen to the force of a strong gale (rates of 60 to 69 miles per hour) over the head of the Bay. From newspaper reports the barometer near the centre of the storm fell as low as 28·200 inches; but the lowest reading given by any of the meteorological stations was 28·42 inches at Balasore at 4-30 on the morning of the 26th. After crossing the coast the storm advanced rather quickly through Chutia Nagpur to South Behar, and then, while drifting slowly northward towards North Behar, gradually filled up and disappeared. It occasioned very heavy rain-fall all over Orissa, Chutia Nagpur, Behar, and Central and Northern Bengal, the principal amounts beyond those already quoted in the daily reports being—

WEATHER SUMMARY FOR JUNE 1887.

During the past month the weather over India has been somewhat changeable. At times both branches of the monsoon current have blown with normal strength, and have occasioned heavy rains over a considerable part of India; at others both currents have been feeble, and the accompanying rainfall partial and intermittent.

The Bombay monsoon current broke on the West Coast quite at the commencement of the month. It set in somewhat feebly on the Malabar Coast on the 3rd; by the 4th it had extended as far north as Karwar; by the 5th to Bombay; and by the 7th it had penetrated inland over a large part of the Central Provinces. During the whole of this period very unsettled weather had prevailed over the Arabian Sea, where a cyclonic storm had apparently been formed. This storm disturbed the normal distribution of pressure, and as a consequence the barometric gradient along the West Coast of India was less steep and less regular than usual, hence the monsoon current in that region was feebler and less steady than the normal, though under the influence of the depression the rainfall was exceptionally heavy. On the 8th the rainfall at the Coast stations fell off somewhat, and by the 9th the storm over the Arabain Sea had disappeared. With its dispersion the wind direction became normal, and strong south-west to west-south-west winds set in across the West Coast, and continued until the 16th. They brought heavy rain to the Coast districts, the average daily fall at Goa, Ratnagiri, and Karwar for the period 9th to 15th June being about 4 inches, and much cloud and vapour, though only moderate rain, to the Deccan, Central Provinces, and Central India. On the 17th the Bombay current was evidently becoming feebler; and from that date until almost the close of the month an unusually weak monsoon was blowing across the Coast. As a consequence, the rainfall decreased quickly; and from the 20th to the 29th the weather was fairly fine in Western India, and a well-marked break in the rains obtained. In the Central Provinces, the Berars, and Khandesh this break was less marked than on the West Coast, the weather continuing showery; but in the Bombay Deccan the weather was abnormally fair.

The information with regard to the unsettled weather which prevailed off the Bombay Coast during the first week of the month is, at present, incomplete; but the logs of ships which were traversing the Arabian Sea at this time showed that—

On June the 6th and 7th the storm was forming between longitude 68° and 70° and latitude 70° and 18°. The Peninsular and Oriental steamer *Assam*, which left Bombay at 5-35 P. M. on the 7th, had squally weather from south-west and south-south-west. The *Draco* had a strong squall of wind and rain from north-north-east. At noon on the 7th the centre of the storm was in latitude 17°30′ and longitude 68°50′, or about 350 miles west-south-west from Bombay.

On the 8th the *Assam* had a moderate south-south-east gale in the forenoon, and a strong easterly to east-north-easterly gale in the afternoon. The storm centre crossed this ship's track, and immediately afterwards a terrific south-east gale was experienced. The lowest barometer reading was 29·10 inches at midnight on the 8th. The apparent position of the storm centre at noon on the 8th was latitude 17°50′ and longitude 68°10′, so that the movement was very slowly west-north-westward.

On the 9th between noon on the 8th and noon on the 9th the storm had moved very much more quickly, the apparent position of the centre at noon on the 9th being latitude 18°20′ and longitude 65°, about 200 miles west-north-west of its position on the previous day. The *Assam* in 17°50′ and 67°1′ had squally southerly winds; the *Clan Forbes* in latitude 17° and longitude 65° had a terrific gale from south-south-west; and the *Lorma Doone* in latitude 19°48′ and longitude 64°33′ had a hurricane from north-east.

Between the 9th and 10th the storm had again moved very quickly, the centre at noon on the latter date being apparently in latitude 19° and longitude 61°10′. The *Assam* in latitude 17°25′, longitude 63°33′, had a southerly squally gale; the *Rothesay* in latitude 14°39′, longitude 58°13′, had a heavy south-south-west gale; the *Clan Forbes* in latitude 16°36′, longitude 66°, a strong south-west gale; the *Darien* in latitude 17°16′, longitude 62°40′, a south-westerly hurricane; the *Lorna Doone* in latitude 19°52′, longitude 63°53′, a south-south-east fresh gale and the barometer as low as 28·80 inches; the *Nizam* in latitude 16°6′, longitude 59°19′, a strong south-west gale, with furious squalls and heavy rain; while the *Albany* in latitude 19°49′, longitude 60°35′, on the north-western side of the centre had a northerly gale, with the barometer marking 29·10 inches.

On the 11th the rate of movements of the storm seems to have slackened considerably. The centre apparently passed over the *Albany* at noon on the 11th in latitude 19°4′ and longitude 60°25′, when the barometer marked about 28·75 inches. For about 15 minutes after noon a dead calm prevailed over the ship, during which numerous birds, hawks, &c., flew about the rigging. At the end of that time the wind, which had previously been north, burst out with hurricane force from south. The *Assam* in latitude 17°23′, longitude 62°10′, and the *Nizam*, hove to in about latitude 15°30′ and longitude 58°54′; both had hard south-west gales.

On the Bengal side strong monsoon winds blew from the 1st to the 3rd of June, and heavy falls of rain, ranging from 5 to 15 inches, occurred over Burma and Bengal. After the 3rd the current steadily decreased in force, and the rainfall fell off till, by the 8th, an almost complete break in the rains was reported from Northern India. On the 10th however, a change took place. This change was brought about by the formation of a small storm over the head of the Bay. On the morning of the 12th the centre of the storm was approaching Ganjam, and rain was falling heavily in the Carnatic and the Circars. On the 13th the storm centre crossed the coast between Gopalpore and Vizagapatam and rain was falling over Burma, Bengal, Assam, and Orissa; and on the 14th the depression was crossing the Central Provinces, causing general moderate rain over the Central part of India and at some places in the North-West. Between the 14th and 17th the force of the monsoon current was moderate and the weather showery. On the 18th the current again strengthened; and on the 19th a small depression formed over the head of the Bay. This depression travelled towards Central Behar, and by the 21st had reached Patna. It had given fairly general rain to a large part of Northern and North-Eastern India; and the strong monsoon winds it engendered brought unusually cool, damp weather to a large part of Northern and North-Western India. On the 21st the storm broke up; and after the 23rd the monsoon current decreased rapidly. The rainfall became first moderate and intermittent, and finally ceased almost entirely, and a break in the rains set in, which lasted until the close of the month.

In the south of the Peninsula there was little to call for remark during the earlier half of the month; but, with the break in the rains in Northern and Central India, a period of heavy rainfall set in over the Madras Presidency, which raised the month's fall above the average.

In Upper India the weather has been generally hot and oppressive. On the 2nd and 3rd thunderstorms and rather heavy falls of rain occurred on and near the hills of the Punjab and the North-Western Provinces; but the temperature on the whole was high during the first eight days of the month. After the 8th more cloud and moisture prevailed, and the heat was somewhat mitigated; but in the latter half of the month the weather again became hot with dry westerly winds, and temperatures exceeding 110° were registered at almost all stations in the Punjab. At Dera Ismail Khan on the 30th the thermometer in the shade reached 118°.

The mean pressure of the month on the whole exceeded the normal average, the principal exceptions being the hill stations of the North-West Himalaya, the West Coast (except Bombay, Cochin and Mangalore), Guzerat, Sind, and the Circars, in all of which districts pressure was deficient.

Temperature was below the mean, except at some stations in the North-Western Provinces, the Punjab, and Sind, where the average was exceeded. The defect was greatest and most general in Western, Central, and Southern India, amounting to over 5° at Cochin and Neemuch, and to over 4° at Seoni and Hyderabad (Sind).

The month's rainfall has been generally fair. In the Punjab, the North-Western Provinces, Rajputana, Sind, Guzerat, Bengal and Circars, Burma and the Deccan, the amount has been short; but in the majority of cases the deficiency is not large. It is mostly attributable to the weakness of the Bengal current, and to the fact that the monsoon storms, which have been formed over the Bay, have been less numerous and less lasting than is the case in years of normal conditions, and that they have not penetrated into Upper India. The Bombay and Malabar Coasts and the districts fed by the Bombay current have generally had excessive rain; and this is also the case in Mysore and the Carnatic.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 9th August 1887.

No. 2700-8—71, DATED 9TH AUGUST 1887.

ORDER.—The water-rate of Rs. 4 per acre prescribed by Proceedings No. 7005—R. 75, dated 23rd November 1878, is in respect of Inam lands irrigated by Government irrigation channels drawn from rivers. This rate is too high—

(*a*) for Inam lands irrigated by Government tanks,
and (*b*) for Inam lands irrigated by a private branch channel drawn from a Government irrigation channel.

2. As regards case (*a*), it would perhaps be desirable to fix some uniform rate. The Survey Superintendent is requested to report what rate he would recommend or whether he would prefer to fix the rate in each individual case. It is believed such cases are not likely to be very numerous.

3. As regards case (*b*), the Dewan would fix the water-rate at Rs. 3 per acre, *i. e.*, $\frac{1}{4}$ less than the full water-rate, on the principle on which wet lands under private tanks are assessed. The opinion upon this question of the Superintendent of Revenue Survey and of the Deputy Commissioners is requested.

R. VIJAYINDRA RAO,
Chief Secretary.

INTERNATIONAL EXHIBITION OF INDUSTRY, SCIENCE & ART TO BE HELD IN GLASGOW DURING THE SUMMER OF 1888.

Regulations for Exhibitors.

Date. 1. AN INTERNATIONAL EXHIBITION OF INDUSTRY, SCIENCE, AND ART, under the patronage of Her Majesty the Queen, will be held in Glasgow in 1888.

Opening. 2. The Exhibition will be opened early in May, and will continue open for a period of about six months.

Objects. 3. The principal objects to be exhibited are comprised in the accompanying classification, which must not be considered to be exhaustive.

4. It is not intended to issue any Awards.

Expenses to be borne by Exhibitors. 5. Charge will be made for space, except in special cases to be determined by the Executive Council. The charge for space inside the Building will be 2*s.* per square foot, with a minimum charge of £2 10*s.* Whatever vacant space Exhibitors require around their Exhibits, beyond the usual passages, will have to be paid for, and Exhibitors requiring wall-space must mention the fact when making application, when they will be informed on what conditions it will be granted. Space in the grounds will be let at rates to be arranged by the Committee, but in such cases plans must accompany application, and all surface damage must be made good by the Exhibitor on removal. Payment to the extent of 25 per cent of the amount payable must accompany the application, and the balance must be forwarded on receipt of the notice of allotment. In no case, however, can the deposit be less than the minimum charge of £2 10*s.* Exhibits will on no account be allowed to be placed unless payment has been arranged. Spaces not occupied seven days previously to the opening of the Exhibition will be otherwise allotted, and all payments made in respect thereof absolutely forfeited. Exhibitors will have to pay all expenses of conveying, delivering, arrang-

579

ing, fixing, and removing their Exhibits, and also the cost of the erection of all fixtures, screens, and counters when required ; and they must personally, or by a representative, superintend the transmission, reception, unpacking, installation, and (at the close of the Exhibition) the removal of their goods. The Executive Council reserve to themselves the right of doing whatever may be considered necessary at the expense of the Exhibitor, unless this regulation is strictly complied with. Should any goods be deposited in the Exhibition premises during the absence of the Exhibitor or his representative, the Executive Council will not be responsible for any loss or damage from whatsoever cause arising.

Motive Power.

6. Motive power, gas and water, will be supplied by the Executive Council free of charge within certain limits, and subject to certain regulations. Exhibitors requiring motive power must fill up the special Application Form which has been prepared for this Section, and which will be supplied by the Secretary upon application. Exhibitors requiring Counter Shafting, Pulleys, and Belting, must supply these at their own expense.

Application to Exhibit.

7. Schedules of application for space may be had from the Secretary, W. M. Cunningham, 27, St. Vincent Place, Glasgow. These must be filled up and returned on or before 1st October 1887. The decision of the Space Committee will be notified as soon as possible after that date.

Nature of Exhibits.

8. The nature of the articles which it is proposed to exhibit must be fully specified in the Form of application for space.

Right to refuse Exhibits.

9. The Executive Council reserve the right to refuse any Exhibit, without stating any reason for so doing.

Foreign and Colonial Exhibits.

10. The Foreign and Colonial Commissioners appointed by the respective Governments are invited to communicate with the Secretary. The Executive Council will place at their disposal all information and plans that may be useful to them.

Foreign Countries.

11. Applicants for space from countries in which no Commissioner has been appointed will correspond directly with the Secretary.

Railway Rates.

12. The Executive Council will endeavour to obtain from the various Railways and Carriers special terms for the conveyance of Exhibitors' goods to and from the Exhibition, and these arrangements will be communicated to intending Exhibitors.

Marks on Packages.

13. All packages containing goods for Exhibition must have painted on them the distinctive mark together with the name and address of the Exhibitor, and the allotment number of the space. Labels for this purpose will be supplied to each Exhibitor.

I. E. G. 1888.

Marks on Foreign Packages.

14. Packages from Foreign Countries must likewise have painted on them the distinctive mark. They must also be marked in such a way as to show distinctly the name of the Exhibitor and the country from whence they come, as well as the allotment number of the space.

I. E. G. 1888.

Dimensions of Cases, &c.

15. No Case, Counter, Platform, Screen or Partition must (without special permission) exceed the following dimensions :—

Show cases and partitions	..	10 feet above the floor.
Counters ...	...	2 feet 6 inches above the floor.
Platforms ...	..	1 foot above the floor.

580

16. Exhibitors may erect Railings around their Stands, and provide Canopies, subject to approval; in every instance these Railings and Canopies must be within the area of the space allotted. In the case of machinery in motion, it is imperative that it be sufficiently railed.

Railings and Canopies.

17. The Flooring must not be altered, removed, or strengthened, except by sanction of the Executive Council, and at the expense of the Exhibitor.

Flooring.

18. No Exhibitor will be permitted to display Exhibits in such a manner as to obstruct the light, or project beyond the space allotted, or impede the view along the open spaces, or occasion injury or inconvenience to other Exhibitors.

Obstructions.

19. In order to insure uniformity of decoration, no Exhibitor will be allowed to put up flags, banners, or other kind of decorations without permission, and for covering counters, screens, or partitions, a material will be selected, which may be bought by Exhibitors at the building.

Decorations.

20. Signs or Name-boards must be placed to the satisfaction of the Space Committee, and must in no case interfere with the lighting. They must be black, with gold letters.

Sign-boards.

21. All Hand-bills, Printed Matter, &c., connected with Exhibits, and intended for gratuitous distribution, must first receive the approval and authority of the Executive Council, which permission may be withdrawn at any time.

Hand-bills.

22. Cases must be unpacked immediately on arrival, and the empty cases removed by the Exhibitors or their Agents. The Executive Council cannot accept any responsibility with reference to empty cases, which must be at once removed from the buildings at the expense of the Exhibitors. The Executive Council reserve to themselves the right of doing whatever may be considered necessary, at the expense of the Exhibitors, unless this rule is strictly complied with.

Empty Cases.

23. Exhibitors will be required to provide all necessary attendance, and to keep their Stands and Exhibits properly cleaned and in good order during the whole period of the Exhibition. The Executive Council reserve the right to impose a penalty for a breach of this regulation and to order the removal of any Attendant whose behaviour they consider unseemly.

Attendance.

24. No Exhibitor will be allowed to transfer any portion of the space allotted to him or to allow any other than his own duly-admitted Exhibits to be placed thereon except by permission of the Executive Council.

Non-transfer of Space.

25. All Goods must be exhibited in the name of the individual or Firm signing the Application Form.

Name.

26. Exhibitors are requested to mark the selling price of the articles exhibited for the information of visitors, to whom they may explain their Exhibits; but they will in all cases be forbidden, unless special permission in writting has been obtained from the Executive Council, to invite or to allow visitors to purchase goods for removal at the time of purchase, the Exhibition being intended for the purpose of display. Orders can be taken within the Exhibition, but the goods must be delivered from establishments outside. Special Regulations will, however, be made with regard to perishable articles manufactured in the Exhibition.

Selling.

27. No Exhibit or part thereof can be removed before the close of the Exhibition without the special permission of the Executive Council. Exhibits not removed within fifteen days after the close of the Exhibition will be warehoused at the cost and risk of the owners, and whatever may remain after three months will be sold by auction, and the proceeds applied to defray expenses.

Removal.

28. No goods will be received prior to March 1888, without special permission, nor after 20th April 1888; but prior arrangements may be made for Motors, Boilers, or any Exhibits requiring under-building.

Date of Reception.

29. Special care will be required by the Executive Council, who may make special regulations, in cases where Fire or Gas is used by Exhibitors, and a responsible officer will be appointed to carry out the injunctions of the Council in this respect. Exhibitors will require to effect their own assurance on their Exhibits.

Fire Risk.

30. No explosives, or any substances which, in the judgment of the Executive, are dangerous, will be admitted, but they may be represented by models.

Dangerous Substances.

31. Spirits, oils, corrosive substances, and generally all substances which might spoil other articles or inconvenience the public, can only be exhibited in solid and suitable vessels.

Spirits, Oils, &c.

32. The Executive Council reserve to themselves the right of examining or testing any of the Exhibits. If any damage or injury shall be occasioned during the Exhibition by any exhibited machine, implement, or article, to any visitor or other person, then the Exhibitor to whom such machinery, implement, or article may belong, shall be responsible for in the first instance, and shall besides indemnify and hold harmless the said Council from or against all actions, suits, expenses, and claims on account or in respect of any such damage or injury which may be so caused.

Testing. Damage caused by Exhibits.

33. No article exhibited may be copied, photographed, drawn, or reproduced in any manner without the special permission of the Exhibitor and of the Executive Council.

Photography, &c.

34. Passes to the Exhibition will be granted to Exhibitors and to a reasonable number of attendants. If these Passes be used by any but those to whom they are issued, they will be immediately cancelled.

Passes.

35. The Executive Council reserve to themselves the sole right of compiling and printing a Catalogue of Exhibits, under Regulations which will be duly notified.

Catalogue.

36. The right to alter, amend, add to, or cancel any of these Rules, is reserved by the Executive Council.

Right to alter Rules.

37. All who become Exhibitors shall be held by so doing to signify their compliance with the whole of these Regulations, together with such other Regulations as the Executive Council may issue from time to time.

Rules binding.

38. The Executive Council reserve the right to remove the Exhibits of any one who does not conform to the Regulations.

Right of Removal.

39. The Executive Council will not be responsible for loss or damage occurring from any cause whatsoever to any Exhibit or other property belonging to any Exhibitor or any other person.

Non-Liability.

READ ALSO—The following Notification, dated the 22nd April 1887, issued by Messrs. Finlay, Muir & Co., on behalf of the Glasgow Exhibition Executive Council :—

Glasgow International Exhibition.

An International Exhibition will be opened at Glasgow in May 1888, for which specimens of art-exhibits will be received from private exhibitors.

2. Besides articles which will be displayed at the Exhibition during the whole time it is kept open, extra sets of art-manufactures will be accepted for sale and immediate delivery to purchasers. Stalls will be opened at the Exhibition for the sale of such articles. The price of articles sold either at the Exhibition or in the stalls will be at once realised and remitted to the exhibitors in India every week or fortnight as it may be found convenient.

3. Articles of inferior workmanship, or articles on which an undue price has been put, will not be accepted.

4. Applications for space should be made in the accompanying form before the 1st of July next. If the exhibits are approved, space will be given free.

5. The Exhibition authorities undertake to pay freight of such exhibits from Calcutta, Bombay, or Madras to Glasgow, and the same of unsold articles returned from Glasgow to the above-mentioned ports. Inland freight in India must be borne by the exhibitor.

6. All exhibits must be despatched from India before the 1st of January 1888.

7. The authorities of the Glasgow International Exhibition have, with the permission of the Government of India and the Trustees of the Indian Museum, entrusted the general arrangements of the Indian section of this Exhibition to Mr. T. N. Mukharji, F. L. ADDRESS

OF THE

DEWAN OF MYSORE

TO THE REPRESENTATIVE ASSEMBLY AT MYSORE,

on Friday, the 30th September 1887.

GENTLEMEN :—By command of His Highness the Maharaja, it is my privilege to lay before you today, the statements of the revenue and expenditure of the past year, which, from a financial point of view, has been the most prosperous in the history of the Province.

During each successive decade of the last 50 years, the average total revenue realized stood as follows :—

1836—37	to	1845—46	...	73 lakhs.
1846—47	to	1855—56	...	78 lakhs.
1856—57	to	1865—66	...	97¼ lakhs.
1866—67	to	1875—76	...	105¼ lakhs.
1876—77	to	1885—86	...	101½ lakhs.

During the past year, our revenue reached the unprecedented figure of 127½ lakhs, a result to which almost every item of revenue has contributed as will be seen from the statements I am now about to read.

Land Revenue.—The most important feature in the foregoing statements is the large increase of nearly 11 lakhs under Land Revenue. Out of this increase about $7\frac{1}{2}$ lakhs were due to increased activity in the collection of revenue arrears, and to the better ability of the ryots to pay them owing to the general prosperity of the year, but the balance, namely, about 80 lakhs, may safely be regarded as the amount of normal land revenue for the year.

At the last meeting, I explained at some length the progress of this important item of our revenue during the past half century, and pointed out that it had then already fully recovered from the effects of the Famine of 1876—78. The figures before us show that it is now 7 lakhs better than it ever was. This satisfactory result is due to a marked extension of the cultivated area, owing partly to a highly prosperous season and partly to the extensive repairs recently executed to tanks and other works of irrigation. Improved communication by means of the Railway and new roads, and the prevalence of fair prices for agricultural produce have afforded a strong stimulus to agriculture all over the country, while the equalization of rates under the Survey settlement is already producing beneficial results.

The increase of over a lakh under "Forests" is accounted for by the better sale of sandalwood, which realized Rs. 6,48,348 against Rs. 4,74,436 in the previous year. The income from sale of timber was, however, less by about a lakh, as the accounts of 1885—86 included a sum of Rs. 1,42,000 on account of Railway sleepers, while, during the past year, the revenue from this source was only Rs. 32,000.

From Gold Mining, an income of Rs. 51,000 was derived—Rs. 47,000 on account of the 5 per cent Royalty, and Rs. 4,000 on account of leases granted.

All other items of revenue generally show a small increase under each head.

594

The total expenditure of the year amounted to Rs. 1,09,09,153 against Rs. 1,01,16,957 in 1885—86. The large increase of Rs. 7,92,196 is explained by the following principal items :—

Rs. 3,00,000	Addition to the Civil List of His Highness the Maharaja.
„ 1,92,000	Remuneration of village servants in Taluks into which the Survey settlement was recently introduced.
„ 94,000	Under "Forests" owing to extension of planting and felling operations.
„ 1,40,000	Under "Public Works" chiefly Irrigation.
„ 57,000	Under "Revenue," "Judicial" and "Police," owing to the reconstitution of Districts and Taluks abolished in December 1882.
„ 18,000	Owing to the new temporary Departments of Archæological Research and Geological Survey.
„ 10,000	Under "Stamps" owing to the supply of dies for Court Fee Labels, which formerly used to be supplied by the British Government.
Rs. 8,11,000	Total.

The Railway was managed by the State during the first 3 months of the year, till 1st July 1886, when it was transferred to the Southern Mahratta Company. During that period, the receipts amounted to Rs. 1,13,468 against an expenditure of Rs. 1,15,486, which included the outlay on capital works and on surveys, aggregating about Rs. 46,000.

The net surplus of the year amounted to Rs. 18,11,556, after paying (*a*) excess expenditure on the Railway and (*b*) excess credits of the Civil and Military Station. This, added to the revenue surplus on 1st April 1886 (Rs. 32,65,955), gave an opening balance of Rs. 50,77,511 at the beginning of the current year.

(*a*) Rs. 2,018.
(*b*) „ 35,781.

Budget Estimates for 1887—88.—The budget estimates of receipts amount to Rs. 1,16,39,452 against an actual income of Rs. 1,27,58,508 in the past year. The difference is due to the fact that the land revenue is estimated at only Rs. 76,97,000, being the average of the actual realizations of the past three years. It is probable that this estimate errs on the side of caution, for I think we ought to be able to secure a much larger revenue, if, within the next week, we get the few showers of rain, which are so much wanted now for our standing dry crops all over the Province.

A total expenditure of Rs. 1,14,89,452 has been estimated for, being Rs. 5,80,000 more than the actual disbursements of 1886—87. An increase of about 3¼ lakhs is provided for under "Public Works," of nearly a lakh under "Forests," and one lakh on account of the Jubilee Memorial Hall at Mysore and donation to the Indo-Colonial Institute in London. The provision for the Police has had to be raised by over ½ a lakh, under circumstances which will be explained hereafter; while, in the Medical Department, an improved Vaccine and other establishments, and a larger supply of medicines are expected to involve an additional cost of over Rs. 30,000.

Before taking leave of the subject of Finance, it only remains for me to add that, pending instructions from the Government of India, no settlement has taken place of the Railway Revenue Account for the last 9 months of the year, nor has any definite action been taken either towards the actual liquidation of the Famine debt, out of the money advanced by the Southern Mahratta Company, or towards the payment of the guaranteed interest to that Company. In the meantime, however, the surplus cash available is invested partly in Government 4 per cent securities and partly in the Madras Bank as current deposit, carrying, under a special arrangement, an interest of 2 per cent per annum.

Public Works.—I now come to make a few observations on the important subject of Public Works. As regards the Railway, it is only necessary to remark that the extension of the line from Gubbi to Harihar is being vigorously pushed forward by the Southern Mahratta Company, and that the proposal to follow a more direct route than the one *viâ* Tiptur, Arsikere, Kadur and Birur, has been definitely abandoned.

I am glad to observe that the traffic returns on the open lines appear to be steadily on the increase, and this I take to indicate the increasing general prosperity of the country. The transfer of the Railway to foreign capitalists enabled us in the last two years to devote to Irrigation much larger sums than we had been in a position to allot whilst Railway construction was one of the first annually recurring charges. This policy we are still pursuing; 10½ lakhs are set apart this year for our tanks and channels alone; and as the financial outlook at present is most hopeful, it is the intention of His Highness' Government to still further expand our operations so as to develop to the utmost the irrigation capabilities of the Province. I must not however fail to notice that it takes considerable time and thought to thoroughly mature irrigation projects, and that the supply of labor may be found inadequate for the work we would fain see executed in each year. The members of this Assembly have brought to notice year after year what appeared to them to be promising and desirable projects. These have invariably been made, or are now being made, the subject of careful investigation, and such of them as have warranted

596

our sanction, whether on account of the fair revenue which may be expected to be derived therefrom, or in the evident interests of local prosperity, are now under execution, or will be so in due course. You may thus rest assured that no effort on our part will be spared in pushing to an early completion all schemes which are within our means and which are practicable from an engineering point of view. Already there is under preparation a definite programme of work to be undertaken during the next 5 years and it will include all projects which, so far as our present knowledge goes, offer reasonable hope of success.

Tank Maintenance.—I informed you last year that the tentative scheme for labor contributions from ryots for the earthwork of all tanks yielding a revenue up to Rs. 300, had been introduced into 8 selected Taluks. You will be anxious to hear what measure of success has attended this attempt to re-establish a custom which, though formerly well recognized, has unfortunately been allowed to fall into disuse in recent years. At the outset, there was, as indeed was anticipated, some opposition to the scheme in a few instances. But when it became known that the Government were in earnest and meant at once to do their part of the work, and only expected the ryots to do what legitimately was their share, the people readily recognized their obligations, and all opposition speedily disappeared. In the Nelamangala, Sira, Chellakere, Mandya and Shimoga Taluks, the scheme has been so far fairly successful, but in Arsikere, Kolar and Kadur Taluks, the efforts of the Revenue officials have, till recently, proved abortive from various causes, chiefly, the want of perseverance and tact on the part of the Amildars of those Taluks. On the whole, however, a fair measure of success has been achieved, and an extension of the scheme to other Taluks is now being effected. This necessitates our giving to the Amildar of every Taluk, a competent subordinate to help him in giving proper effect to the scheme, as each tank to be restored, however small, involves a certain amount of estimating, measuring and execution of masonry work, which the Amildars and the ordinary revenue staff are unable, without additional aid, properly to attend to. It is accordingly deemed necessary to give to each Taluk a Tank Overseer, to promote tank restorations, and at the same time, to enforce the maintenance of all tanks. Trained Overseers are however not ready to hand but the gradual disbandment of the Revenue Survey establishment offers the opportunity for training for these duties the best of the late Revenue Survey Measurers and drafting them gradually into our Shekdar service, which, I need scarcely remind you, remains to be placed on a sound and efficient footing.

The Government are thus giving full effect to the scheme as regards minor tanks with a revenue up to Rs. 300, but at the same time they feel also convinced that the revival of this ancient custom, may, with great benefit to the ryot, be extended to *all* tanks in the Province. Indeed, so far as the principle is concerned, there

S97

is no difference, between tanks with a revenue of Rs. 300 and tanks above that limit. But, owing to the magnitude of the earthwork required to the latter, it was judged prudent to start with the limit of Rs. 300. The experience gained on these minor works shows most clearly that the ryot, to whom his tank is every thing, is not only not averse to his contributing his share of labor, but has, in many places, cheerfully come forward to make the revival of the system a complete success. The promise of Government to do at once the masonry and stonework to minor tanks, on the condition of the completion of the earthwork by the ryots themselves, has already led to the ryots under some of the larger tanks voluntarily undertaking to do the earthwork to their tanks also, provided a sluice and waste-weir were promptly given them as had been promised to tanks below the 300 Rupee limit. With regard to very large tanks, however, requiring heavy earthwork, it may not be proper to throw the whole burden on the ryots. To meet such exceptional cases we may perhaps continue the present system of demanding a money contribution in partial commutation of the ryots' obligation, or the better alternative would probably be to prescribe the maximum value of the earthwork, which, owing to past neglect, has now to be made good. In this matter, however, a great deal must always be left to the discretion of each Deputy Commissioner.

I need scarcely remind you gentlemen that the principle that the villagers must do the earthwork required for the proper mainten ance of their tanks, and appeal to the Government only when stone-work or masonry work is required, is an ancient custom of the land, as old as the tanks themselves. Successive Chief Commissioners of the Province took advantage of every opportunity to impress this principle upon the Executive officers of the Government. When the Irrigation Cess was imposed, the Government restricted the appropriation of the funds thereby raised, to the repair and improvement of tanks, as distinguished from mere "maintenance," which was expressly declared to continue as an obligation on the part of the ryots. So lately as October 1873, the Chief Commissioner in the Public Works Department laid down elaborate rules for the enforcement of this obligation as regards a particular class of tanks, *viz.* those already dealt with by that Department. The practical enforcement however of the ryots' obligation as regards all our tanks—whether brought up to standard by the Public Works Department or not—has varied very much with each District officer's appreciation of the importance of this part of his duty. In some Districts, notably in the Bangalore District, the ryots were made to fulfil their obligation, and the tanks generally are in excellent condition; elsewhere, as in Tumkur and Mysore, the ryot was allowed to forget his duty to his tank and the tanks generally are in very bad order. To add to this unsatisfactory condition of things, the Famine intervened and completely disorganized our administrative machinery. And the different opinions from time to time expressed as to the future tank-policy of the Government contributed not a little to unsettle people's minds.

598

Under such circumstances, His Highness the Maharaja's Government deem it of paramount importance to declare and enforce a definite policy on the question, and hence the scheme above described which aims at the re-establishment of a formerly fully recognized custom—a scheme moreover which is essential for the well-being of the Province, for, it is possible in no other way to cope with the work of maintaining, in perfect safety, the enormous number of tanks, large and small, scattered all over the Province. When once this end is attained,—and it is possible to attain it only by the ryot making good the deficiencies due to his past neglect—the annual work required of him for proper future maintenance will indeed be very slight, and the Government will always undertake all work of improvement, all stone and masonry work, and also repair all damage done by breaches and other inevitable accidents beyond the power of the ryot to avert.

Such in brief is the tank-policy of the Government. And I here appeal to you, as Representatives of the various Taluks of the Province, to endeavour at every opportunity to impress on the people of your Taluks, that Government, in pursuing this policy, are influenced solely by the desire to place their magnificent tank-system on a thoroughly satisfactory and workable footing; that the ultimate benefit will be to the ryots and villagers concerned; and that, in contributing voluntary labor to works on which not only their food-supplies but their domestic water-supply mainly depend, they are but reverting to a time-honored custom.

I will only add that it is proposed to issue shortly a complete set of Rules on the subject of ryots' obligations to tanks. Copies of a draft of these Rules will be circulated among you, and the Government will be glad to receive from you any practical suggestions you may wish to offer, so as to better secure the end we have in view.

River Channels.—The future of our tanks is not of more importance to the various Districts of the Province than is the future of the Ashtagram River Channels to the Mysore and Hassan Districts. Their improvement and extension still engage the attention of our Public Works Department, and will continue to so engage it until the capabilities of our western rivers have been developed to the utmost extent of our power.

The enlargement and extension of the Jodi Rampur Channel is now well in hand, and a project is under consideration for the restoration of the Hulhalli Channel from the same anicut.

The extension of the Ramasamudram Channel to a distance of 10 miles beyond its former limit, is under execution, whilst a branch to the Kammanhalli valley to command 1,000 acres of land, is being surveyed.

The Rajaparameswari Channel is also being improved.

The question of extending the fine Virjanadi Channel is still under consideration. The best solution is not easy, for, although at first sight, it may appear that this channel commands and carries an ample supply, and that there is much rich irrigable land below an old extension which can still be traced, the levels and alignment of its bed and the height of the anicut from which it is derived materially limit its carrying power, and, as a fact, there is often much difficulty, towards the close of the irrigation season, in affording an adequate supply to the lands already irrigated.

The Anandur Channel also is now being improved, and in view to increasing its capabilities, the feasibility of restoring the Cholenahalli Anicut and Channel, the latter closely connected with the Anandur Channel, is now being investigated.

The possible restoration of the Madapur Anicut and Channel, or an alternative proposal of raising the Sriramadevara Anicut also commands the attention of our Public Works Department, as also proposals for improving and extending the old system of channel irrigation from the Yagachi River.

Roads.—I may now advert more briefly to our Public Works other than those connected with irrigation. Our net work of roads is being gradually extended, in the directions in which the requirements of trade or local demands indicate that extensions are necessary, and in this connection, Railway feeders find of course an important place.

Through the Kolar Gold fields, a metalled and bridged road is now being run which will connect the mines, on one side with the Kamasamudram Station of the Madras Railway, and on the other with the Bowringpet Station. The necessity of a first class road to facilitate communication with the Gold fields was impressed upon us by the rapid development of the mines during the last two years and the enormously increased traffic in this part of the District consequent thereon.

A long-talked-of road from Magadi to Closepet is now being pushed through and the important road to the west of the Bababudan Hills, to open out the fertile Jagar Valley is rapidly approaching completion. New secondary or District roads and the improvement of old ones are not forgotten, and the bridging of all streams which are an obstacle to intercommunication is gradually being effected. Amongst the more important bridges now under execution, I may mention the great Belur bridge, the Sulekere and Kumadvati bridges. Any of you who may have had occasion to travel to Belur, to Malebennur from Harihar or *vice versa* and from Sorab to Shimoga will know what impediments to travel were the unbridged Yagachi River, the Sulekerehalla and the Kumadvati.

Amongst miscellaneous works of public improvement, I must not omit to mention that we have thought it desirable to devote considerable sums to the sanita-

600

tion of the Capital of the Province and to the improvement of its water-supply, in connection with which, I may mention in conclusion, that surveys are now being made in view to setting at rest the feasibility and cost of the long-vexed question of bringing into Mysore the sacred waters of the Cauvery.

Under the various heads of Public Works our actual expenditure during the past year and the budget grants for the current year are as follows :—

	Actuals. 1886—87.	Budget. 1887—88.
	Rs.	Rs.
Irrigation	... 7,68,904	10,67,812
Communications	... 7,97,548	8,47,872
Buildings	...2,53,417	3,49,302
Miscellaneous Public Improvements	...1,06,979	1,34,264
Total..	...19,26,848	23,99,250

Towards these works, the Budget grant from Provincial Funds amounts to 16 lakhs, the balance being available from District and other funds. Next year, we hope to devote to the same services a still larger sum should projects be forthcoming to justify an enhanced grant and should our somewhat limited number of Engineers prove themselves equal to the task. You will thus observe that the liberal grants which we are making in the furtherance of Public Works of all kinds, and which we propose to still further enhance in the near future, compare most favorably with what was done in pursuance of a similar policy in the most prosperous years of the enlightened British administration of the Province.

Gold Mining.—The examination of the auriferous tracts in Mysore, to which reference was made in my Address to you last year, has been recently completed. The preliminary investigations were undertaken by Mr. Lavelle, the original Kolar Concessionaire, aided by Mr. Marsh; and the localities indicated by them have been examined by Mr. Bruce Foote, Superintendent of the Geological Survey of India, whose services were kindly lent to us for the purpose by the British Government. The reports made by these gentlemen have been published, and much useful information is thus placed before the public in regard to the various important gold bearing tracts in the Province. The Government have also been able to adopt a definite policy in regard to the grant of mining leases, and revised rules on the subject have recently been published. These rules differ from those previously in force only in three important particulars, *viz*:—

1st, in the provision made for the grant of prospecting licenses;

2ndly, in attaching to the lease a condition that, within two years of its *grant, a company be formed with a paid-up working capital of not* less than £ 5,000 per square mile;

and 3rdly, in the express reservation of the right of the Government to limit the aggregate area to be granted for the time being, and to dispose of mining leases for such area by public competition.

It is hoped that the system of prosepecting licenses would be the means of enabling an intending investor to make a proper selection of the land required for mining purposes, and to spend in prospecting operations the necessary capital with the certainty of acquiring a right to such land as he may consider most valuable within the area prospected.

The condition that a certain amount of working capital shall be forthcoming within a reasonable period will, it is hoped, discourage mere speculation, and, at the same time, attract to the enterprise *bonâ fide* working companies.

The Government moreover have decided that it would not be right to grant away immediately the whole of the auriferous lands at their disposal, for, to do so would involve a needless sacrifice of their right to a fair revenue from this source, without in any way helping the real promotion of the enterprise, in all parts of the Province—an end for which no sacrifice would indeed be too great. At the same time, however, the Government are anxious to meet all *bonâ fide* demand for mining land, and they have accordingly fixed the limit of area to be granted in the current year at 35 square miles, in addition to the 8 square miles for which leases have already been promised. The system of competition by means of tenders, while affording a satisfactory adjustment of the claims of different applicants for the same land, will be the means of testing their actual market value under existing circumstances. Already men of influence and capital in England are, to some extent, attracted to our auriferous lands, and we may therefore entertain the reasonable expectation of an early and satisfactory development of the enterprise in parts of the Province outside Kolar, to which District it has practically hitherto been limited.

Before concluding this section of my Address, I wish briefly to advert to the action of the Government in some matters of general importance, which came under discussion in previous meetings of this Assembly.

For the difficult problem of garden assessment in the Malnad, a partial solution has been found in the Shraya Rules recently issued. The publication of these rules has been delayed hitherto owing to the difficulty experienced in placing a proper and satisfactory construction on Section 115 of the Draft Revenue Regulation now before the Government of India. This section has been the subject of a prolonged discussion with Mr. J. B. Lyall and with Mr. Fitzpatrick, from both of whom the Durbar have received most valuable help. On a careful examination of our revenue resources, and in particular, of the revenue derived from gardens, and bearing in mind the importance of uniformity in our system of assessment, His Highness' Government have arrived at the conclusion that it is necessary to retain in our revenue system

602

a special garden rate, which has the sanction of the usage of the country and of our past revenue history. The Government accordingly propose to make their intention in the matter quite clear by adding the necessary clause to the Section in question. The Shraya Rules recently issued, however, meet an acknowledged present want, though they merely give formal effect to a very old system which fell into disuse on the introduction of the Revenue Survey. The rules offer liberal encouragement for the making of new gardens, as they allow—

1st, in the case of Malnad arecanut gardens, a nominal assessment of 4 annas per acre per annum for 12 years, and for a progressive assessment during the next 3 years ;

and 2ndly, in the case of other arecanut and all cocoanut gardens, an assessment of 4 annas per acre for 9 years and a progressive assessment for the next 3 years.

The views expressed at the last meeting of the Assembly incline me to believe that these terms will give general satisfaction.

The vexed question of the enfranchisement of Kodagi inams has at last been dealt with in a way calculated to afford the just relief which has so persistently been demanded in the Maidan Taluks of the Province. My recent visit to the Kolar District, where Kodagi tanks most abound, enabled me to study this question attentively. I have now little doubt that the complaint from Kodagidars is not so much against the justice of the Rules for enfranchisement sanctioned by the Government, as against the effect which has been given to them by the Inam Department. It is only too clear that Kodagi inams granted in reality for "construction and up-keep" of tanks have, in great many cases, been treated as those granted for "up-keep" only and thus, instead of being confirmed hereditarily on $\frac{1}{4}$ or $\frac{1}{2}$ quit-rent as they ought to have been, were enfranchised at $\frac{1}{2}$ quit-rent or for one life only. In other cases, when it was not clear whether an inam was for "construction and up-keep" or for "up-keep" only, the benefit of the doubt has been given to the Government and not to the Inamdar. Under such circumstances, His Highness the Maharaja's Government have directed a re-investigation and re-settlement by the Inam Department of all doubtful cases on the complaint of the parties concerned. The result of the re-settlement will doubtless remove all reasonable grounds for complaint, for, few Kodagidars, if any, ask for the complete restoration of the inams, and the consequent revival of their obligation to maintain the tanks, as a condition of the tenure.

On the subject of Inamdars' right to a share of the toddy revenue, the conflicting claims of the Inamdars and of the Government Abkari revenue have received most careful consideration, and the Government propose to offer to the Inamdars concerned the alternative of either the purchase of their rights by Government on a

just and fair valuation, or a system of rules to regulate and enforce the payments to be made to them by the Government Abkari Contractors. The subject will probably come under discussion at this meeting of the Assembly, and I do not therefore feel called upon to say more in regard to it at present.

The abandonment of the mohatarfa tax on looms is a question which has been again pressed upon the attention of the Government, who, I am glad to say, hope to be able ere long to abolish it altogether. This measure, when carried into effect will afford considerable relief to the weaver class which is so notoriously poor, and which suffered so severely during the late Famine. It will, I trust, be the means of bringing back to their former homes in Mysore, many families who have had, owing to this impost, to emigrate and settle in the adjoining Territories. The weaving industry by means of manual labor, is everywhere steadily declining, from causes over which we have no control, and it is only just that Government should give them such help as lies in its power. The annual revenue involved is about Rs. 50,000 Provincial and Rs. 12,000 Municipal.

I may also mention here that it is proposed to equalize the rates of the octroi on cloths levied by the various Municipalities. The present rate is 3 per cent *ad valorem* on the Indian Manufacture and 1½ per cent on sea-borne goods, while Mysore-made goods are exempt on the ground of the loom tax. Since the abolition of the import duty on sea-borne goods, there is no justification for the lower rate for them, and the abolition of the loom tax would make Mysore Manufacture again liable to the octroi. The rates being fixed on a uniform principle, resort to this species of taxation will of course be left to the discretion of each Municipality.

Police.—The Police Department has fairly kept pace with the general progress of the Administration, and in view to securing improved efficiency, the Government have had to sanction an addition to its cost amounting to Rs. 53,638 per annum. It will be in your recollection that in the general reductions which the financial necessities of the State demanded just before the Rendition, the number of subordinate Police officers was considerably reduced, and the remuneration of the officers who were retained was also cut down. You will observe that reduction of the number and pay of officers who continued to discharge, more or less, the same responsible duties was not calculated to promote zeal or efficiency. It has therefore been found necessary to afford some measure of relief to the subordinate service in the shape of improved pay and prospects. The numerical strength of the Force has also received some accession wherever it was absolutely required. Though we have restricted our measures of reform to the most urgent necessities of the case, it has been found unavoidable to make a considerable addition to the Police grant.

The re-organized scheme of the Police service thus set on foot has not long been in work, and it is therefore too early to pronounce decidedly on its merits;

604

but the objects of His Highness' Government in placing it on a more satisfactory basis are already beginning to be realized in the more faithful report of crime, in the more successful detection and prosecution of offenders, in the closer surveillance of criminal gangs and classes, and in the more vigorous suppression of organized crime.

There is a great deal, doubtless, yet to be done. The Police Force has to be brought up to a better standard of education. Detection of crime has to be reduced to more of a system and less dependent upon lucky chance or quasi-confessions. The Village Police remains to be placed upon a more satisfactory footing, especially in the matter of grain emoluments, and its co-operation secured in a larger measure.

Forest.—Turning now to Forest administration, it is only necessary to observe that much has been done not only in the way of conserving additional tracts of forest and jungle, now being overworked and on the road to ultimate destruction, but also in that of forming extensive plantations of the more valuable kinds of timber producing trees. A speedy return for the outlay on these plantations cannot be expected; but the growth of teak seedlings in the Lakvalli jungles has been so promising, that ultimate handsome profits can be safely predicted.

The increased demand for fuel to feed the Railway and to meet the domestic requirements of the people, and the growing wants at the Gold mines, which our forests and jungles cannot, unaided, be depended upon to meet entirely, have been anticipated in some measure by extensive fuel-planting on account of Government. The increased expenditure thereby occasioned is money well spent and will bring in ample returns. The consumption of fire-wood at the Gold mines is so great, as alone to force up the price of fuel within the near future to a figure which promises that fuel plantations will pay even better than ordinary agriculture. In fact, the time has come, I think, for special encouragement being given to the promotion of private enterprise in fuel-planting, and the Government have now under consideration, a scheme under which special inducement will be given for the formation of private fuel-plantations on Government waste land.

Sandalwood constitutes the most important item of our Forest revenue, and it behoves the Government to insure an unfailing supply of it by carefully fostering young seedlings naturally reproduced, as likewise by artificial means. Efforts to grow sandal did not, till recently, meet with much success owing to imperfect information as to its habits. It is now grown in plantations with fair success, but being capricious in growth and choice of soil, it yet remains to be proved whether

the artificially-produced tree will have the same quality of scent as the self-grown. This doubt alone points to the necessity of carefully husbanding all natural growth; and the system of Sandal Manegars now partially revived, will doubtless be useful in our efforts in this direction.

Education.—The measures taken to promote the various branches of education, as described last year, combined with seasons favorable to the prosperity of a people so largely agricultural as those of Mysore, are undoubtedly bearing fruit in every direction. The numbers now under instruction in all classes of schools considerably exceed those of any previous period. Especially is this the case in the elementary schools, which are of such great importance as forming the basis of the whole Educational system.

In secondary schools also, a good advance has been made. Under the stimulus of the recently instituted Mysore Local Examination, a general preparation is going on for examinations in the Vernacular, while the Middle School Examination affords a similar goal to the Municipal and other English Schools in Taluk Stations. As regards the Mysore Local Examination, it is further proposed to recognize it as a test for some of the subordinate grades of the public service.

In higher education, the two principal Colleges make a good show in the University pass-lists, and the increasing number of collegiate students has led to Bangalore being appointed a centre for the B. A. Examination. On the Vernacular side, an important step has been taken in the establishment of the Karnataka Bhashojjivini Sabha, having for its object the revival and cultivation of the Kannada language and literature. A College has been opened in connection with the scheme, and scholarships attached to it, which will induce natives of the literary class to give themselves to a systematic study of the language—a study which, it is to be feared, has fallen too much into neglect. Advantage has also been taken of the Jubilee of Her Majesty the Queen Empress to found an Institute at Mysore as a memorial of the occasion, in which it is proposed to make as complete a collection as possible, of ancient manuscripts, both Sanskrit and Kannada, and to provide facilities to scholars for consulting and obtaining copies of the works.

In female education, Her Highness the Maharani's Girls' School at Mysore continues to take the lead, and the Girls' School in Bangalore has recently been placed on a similar footing under a Hindu Committee, controlled by the Municipality, the effects of which have already proved beneficial.

On all these various educational agencies, it may be allowed here to quote the words of the Viceroy, Earl Dufferin, in reply to one of the Addresses presented to His Excellency on the occasion of his late visit to Mysore :—"I am very glad that "you have touched upon the question of education, as it gives me an opportunity "of expressing, in as earnest and as strong language as I can command, the extra-

606

"ordinary pleasure I have experienced in seeing on every side such manifest signs "of the deep interest with which that subject is regarded in this State, as well as the "liberal and intelligent energy with which its development is being prosecuted. "When I passed along what I imagine must have been a quarter of a mile of street, "lined on either side with rows, eight or ten deep, of the youth of the country, "congregated under their respective teachers, I felt that you were laying, broad "and deep for all time to come, the foundations of a prosperous future. But great "as has been my satisfaction at all these proofs of the progress made in the matter "of general education, I was still more pleased by a sight, which, I imagine, is not "to be seen in any other part of India, and that is, the appearance of rows and "rows of young ladies belonging to high-caste families assembled together under "the same admirable system, and enjoying, as far as I can understand, as extensive "opportunities of acquiring knowledge, of enlarging their experience and of "strengthening their understandings, as could be found in any of the most advanced "cities of Europe."

Archæology.—The work of examining and collecting ancient inscriptions has been extended over six more Taluks, and information of great value obtained for the early history of the country. The volume of Jaina inscriptions at Sravan Belgola is approaching completion, and will throw much light on hitherto obscure points in the history and literature of the country, besides furnishing much information of great interest. It is intended in future to make special arrangements for printing, which will allow of a more speedy publication of results than is now possible.

Along with the collection and translation of inscriptions, it is proposed to combine other branches of research in order to carry out a complete archæological survey of the country. Attention will be directed to illustrating the plan and architecture of typical buildings and monuments, and measures taken to conserve or even restore them as may be deemed necessary. Antiquities of all kinds will fall within the province of the survey, and all objects of special interest will be at once brought to the knowledge of the public. The arrangements for collecting ancient manuscripts have already been referred to under "Education". These undertakings cannot, it is hoped, fail to give life to the national history and lead to a greater appreciation of local interests.

There is one more subject, gentlemen, on which you will permit me to make a few observations: It is this Assembly, its constitution, and conduct of business.

I need scarcely tell you that this is the seventh time we meet, having been called together in the very first year of the Rendition. The earnest desire of His Highness was to take you into his confidence and make known to you the views and objects of his Government in the adoption of various measures for the administration of the country; he hoped thereby to obtain the benefit of your honest and

practical suggestions, and thus to advance the real welfare of his people. He now directs me to say that his hopes have been very fairly realized, and that the success attained in the past six years is an encouragement to his Government to persevere in their endeavours to make this Assembly of still greater use for the good administration of the Province. I am sure that in the Rules of 13th August last, you recognize His Highness' desire to secure in this Assembly as full a representation as possible of every interest in the country, and the most complete information regarding the wants and wishes of every class of his subjects. You will observe that these Rules provide for the first time a very important qualification, namely, the Property qualification. We expect great benefit to accrue from this step, for Property carries with it great responsibilities, and always makes the owner more sober in his views, more practical and just in his suggestions. In one shape or other, it governs the constitution of the popular assemblies of the west; and in applying it to an agricultural country like ours, we have naturally accorded the first place to the land-holder and have provided that each of our sixty-six Taluks may send five of its largest land-holders. In the provision which enables our 8 Local Boards and 92 Municipalities to nominate members for this Assembly from their respective bodies, there is a fair guarantee for the proper representation of all classes and localities, while the privilege given to each of the more important Associations to depute a member to this Assembly may be the means of securing at our discussions the views of the more advanced section of the community. The Government think that these rules might be trusted to do good service for the time being, though they must of course be changed and improved as time goes on and more experience is gained.

I have now to draw your attention to the few simple rules published regarding the conduct of business. They are all designed to make our discussions more useful, to place at your disposal such information as may enable you to study previously the subjects regarding which you may wish to speak, and to give to your observations the authority and weight which the opinions of individual members can never be expected to possess. And I need only add that in this Assembly, the first place of importance must always be given to the discussion of subjects in which the public at large are directly interested, and under present circumstances, such interest is best ascertained by the desire for their discussion evinced by a majority, or at least an influential section, of the members who meet here. At the conclusion of this meeting, we shall be in a better position to form an opinion on the suitability of the rules now framed, and any alterations or additions required, could then be readily adopted.

Gentlemen, at the beginning of this year, you were here to receive His Highness the Maharaja's illustrious guest, the Viceroy and Governor General of India, Earl Dufferin. I need not remind you—for the whole proceeding must be very vivid in your recollection—how His Excellency was pleased with the evidences of

608

the peace and welfare of this part of India, and how he congratulated His Highness the Maharaja upon calling to his counsels, men of your intelligence and influence. His Highness trusts that you will draw encouragement from these words of Earl Dufferin, and continue to evince in administrative measures the same interest as heretofore.

His Highness directs me also to inform you that in the next cold weather, he proposes to proceed to Calcutta to return the visit of His Excellency the Viceroy.

From W. R. Lawrence, Esq., C. S., Under-Secretary to the Government of India, To The Secretary to the Governments of Madras, Bombay, Bengal and the Punjab, the Chief Commissioner, Central Provinces, Ajmere and Coorg, Revenue and Agricultural Department (Agriculture), Circular No. 46—16-28 A, dated Simla, the 26th August 1887.

Sir,—In continuation of the previous Circulars noted in the margin, I am directed to forward for information a copy of a report by Dr. E. Bonavia on the cultivation of the date-palm in India and to suggest that it should be communicated to Agricultural Departments and to District Officers and others who are interested in the experimental cultivation of the palm.

No. 3—15-9 A, dated the 1st May 1886.
No. 52—15-21 A, dated the 20th September 1883.

2. As Dr. Bonavia is convinced that plants raised from seed will generally yield true varieties, the Government of India is of opinion that future importations should ordinarily be confined to seeds as they can be readily obtained and at little expense. The Government of India is willing to assist in procuring from Persia or Egypt any seeds which may be required for cultivation and to make an aggregate annual grant not exceeding Rs. 500 for this purpose, but in consideration of the importance of date culture in India it is hoped that———will be able to contribute towards the cost of importing seeds and it is now desired that the quantity of seed required by————together with the amount of money if any which can be contributed towards the cost of purchase and freight may be communicated to the Government of India as early as possible.

I have, &c.,

W. R. LAWRENCE,
Under-Secy. to the Govt. of India.

Dated London, the 4th July 1887.

From—Dr. E. Bonavia, Brigade-Surgeon, Indian Medical Department (on leave), To—Secretary to Government, N.-W. Provinces and Oudh.

SIR—I have the honor to submit, to the Government of the North-Western Provinces and Oudh, the following information regarding the date-palm.

2. Convinced as I am that this useful tree, if largely introduced in India, would eventually be of great benefit to the people, I have collected information about it from all the countries where it is extensively grown. This information I now beg to place at the disposal of the Government of India.

3. As there may still be some doubts in India whether *seedling* date-trees are of any value, I paid particular attention to this point in making inquiries. In a letter from Sir R. Lambert Playfair, Her Majesty's Consul-General for Algeria and Tunis, dated Algiers, the 11th January, 1887, the following is stated: "From what you say, I have no doubt that off-sets could be sent to India without much difficulty; but really there is very little necessity for making the experiment. Seeds are sure to germinate, and the experience of the Arabs here is, that the fruit of seedlings is quite as good as that of trees propagated by suckers. The only objection is, that there is the risk of obtaining an undue proportion of male trees." Then C. Regnier in his "Observations sur le Palmier Dattier, et sur sa culture en Egypt," says: "Seedlings sometimes produce bastard varieties. More frequently they perpetuate well-known varieties. At other times *new* kinds are raised, which are afterwards propagated by off-sets."

4. The foregoing is good evidence of the value of seedling date-trees. We have, however, proof of it in India already. Before leaving India on leave, I sent, to the Director of the Royal Gardens at Kew, a fine collection of dates, solely from seedling trees grown in Oudh and Multan. They are now in the Economic Museum at Kew. Moreover, what Sir Lambert Playfair considers as a slight objection to raising seedling trees, I would consider an advantage, at first, for India. Fertilization of the female flowers by the pollen of the males is not generally known yet in India. An excess of males among females would therefore ensure a crop, and would not disappoint the growers. In course of time India would possess fine varieties of date-trees, and then it could easily furnish its own off-sets of female trees, and fertilize them, as they do in other countries. In addition, the great advantage of seeds just now is, that they cost comparatively little to import, and can be made into fruit trees, with less trouble than off-sets, so that all the places in India where the date-tree can be grown with advantage may be rapidly furnished with this important tree at a small cost.

5. The following interesting extract about the date-tree is from a recent book, called "Tunis: the Land and its People," by Chev. de Hesse Wartegg. I give it in order to show what can be done with the date-tree. At chapter 13, page 276, he says: "South Tunis—on both sides of the large salt marsh, Sebcha Pharaon, which latter reaches far into Algiers—is a beautiful country of palms, which is not surpassed by anything on the shores of the Nile. Thirty oases lie close together in a row, and divide the desert land of the ancient Numidia from the large salt lake, which is dry during nine months of the year. This palm region *par excellence* is known in Africa under the name of 'Beled-el-Djerid,' and no fruit is valued higher than the sweet large and juicy 'Djerid' date, which also fetches the highest prices in the European markets." At page 279 he says: "The slender stems of the palm-trees often reaching a height of 100 feet, display their transparent rustling canopy. The sun is a necessity to them, and while they rejoice in his burning rays, they keep the earth at their feet in cool shade, and thus aid the growth of the figs, oranges, lemons, almonds, olives, and pistachio trees. The latter grow between and under the palms, the damp ground beneath being covered by the most luxuriant growth of herbs and grass. It is, therefore, a threefold vegetation." At page 280 it is stated that "of these oases, Gaffa is the largest, and possesses a palm-forest of about 200,000 trees, and is inhabited by from 3,000 to 4,000 Arabs and Berbers. In the oases of 'El Gettar,' water is not nearly so plentiful, and camels raise it with difficulty from draw-wells; but the date palm is here so exclusively the source of livelihood of the few hundred inhabitants, that there is no choice left to them, and they must get water at any price. In 'El Gettar' a palm-forest extends over a tract of land three kilometers long, and the entire region north of the 'Sebcha Pharoan' possesses no less than a million and-a-half of palm trees, with as many olive, orange, and almond trees growing between." Then south of the Great Shott "is the extensive district of the oases of Nefzani, with palm-forests of more than 300,000 trees, and with from 18,000 to 20,000 inhabitants, living in 40 villages."

6. The foregoing information is of some importance. It shows (*a*) that the date-tree flourishes in saline soils. It would, perhaps, be more accurate to say that *some varieties* of date-trees do so, as there are hundreds of kinds. There does not appear to be any doubt, however, that the "Djerid" date of Tunis is a very fine kind, and fetches a good price in the European markets. (*b*) It gives some idea of the population that can live almost exclusively on the produce of these date forests, bartering any surplus fruit for other commodities. (*c*) It shows that not only where water is near the surface can the date-palm be grown, but also where water is obtained with great labour. (*d*) It shows that where date-trees can be grown, and where water is easily obtained, there also oranges, lemons, and other fruit-trees can be readily grown on a large scale under the shade of these palms and between them.

7. In India, both in Rajputana and in Sindh, on both sides of the Indus, the conditions are such that if Arabs and Berbers had possession of those tracts of country, they would probably, in less than 50 years, turn them into gardens.

8. In my investigations, nothing appears to be more clear than that there are *two distinct classes* of dates—(1) those that ripen on the tree, or soon after they are plucked, and are those which are met with in European fruit-shops; and (2) those which do *not* ripen like the above (a raisinified date), but remain hard and crisp, and are either eaten in that condition, or cured in various ways.

9. The following information, by Senor Don Maximo Laguna, was courteously furnished by the Secretary to Her Majesty's Legation in Madrid: "The few varieties distinguished in Elche (Spain) are based on the character of the fruit. That which is most esteemed is the one producing the date called '*Candix.*' This ripens and sweetens *on the tree.* The others are of a yellower colour, harder, and with a smooth skin. In order that the latter may be fit to eat, it is necessary to smear them with vinegar, and cover them up for two days. Then they become sweet and agreeable. They will keep in this state for five or six days, after that they spoil, so that only the quantity immediately needed is prepared. Although in Elche artificial fertilization is practised by attaching male flowers to the female bunches, more frequently male trees are planted with females: one male to two or three females and at a little distance from them."

10. There is a notion that the date-tree is unsuited to a damp climate, and that it can only ripen fruit when its roots get into sub-soil water and its head remains in a dry, heated atmosphere. This notion may have arisen in two ways—*first*, because the date-tree may have first been known only under such conditions and being intimately associated with Arabs, who inhabited regions mostly under such conditions; *second*, because the *best* varieties of dates, the choice ones of European markets, are those probably grown under such conditions. But it does not at all follow that an edible and very nourishing and useful date cannot be grown under totally different conditions.

11. In passing recently through Egypt I saw, along the railway, a number of date-trees, with their fruit only lately gathered, with their roots in water still lying on the land from the recent inundation of the Nile. Moreover, in Egypt the date-tree has been associated with man from a very remote period. In the book called "*Viâ* Cornwall to Egypt," by C. F. Gordon Cumming, at page 137, I find the following: "In the time of the Romans, the Egyptians gave receipts for taxes on fragments of tiles: about 1,600 years ago. A number of them are receipts for payments of poll-tax, cattle-tax, *palm-tree tax*, &c. One receipt for a poll-tax is dated A. D. 103-104." ..... "After the conquest of Assyria, 1,500 years before Christ, large quantities of bitumen were paid in tribute to the Pharoahs, and with this the mummies were thenceforth prepared. The bodies of the poor were merely saturated with natron or bitumen, baked in an oven, swathed in woollen rags, and then tied up in a rough mat of *palm leaves* or '*papyrus*.' Thus they were laid in rows of thousands, in the great sepulchres." In Egypt, therefore, we have not only the annual regular rising of the Nile, inundating more or less the whole country on both its banks, but also the date-palm known there for hundreds—perhaps thousands —of years before the Christian era. It is in Egypt, therefore, if anywhere, that we ought to find evidence of this useful tree having, in the course of ages, suited itself to almost two diametrically opposed conditions of life. In order to obtain some proof of this, I wrote to the Head of the Public Works Department of Egypt for information on the date-tree of Egypt. Major Ross, R. E., of the Indian Irrigation Department, very kindly issued a circular to a number of officials, who were in a position to afford information on this matter, giving the questions which I had sent. Colonel Moncrieff, with his letter dated 15th June, 1887, very courteously forwarded all the notes collected to me, and added a memorandum of his own on each, regarding the reliability, carefulness, and power of observation of the sender. The officials who collected this information are—

Mr. Biancardi, for many years Traffic Manager of the Railway, and a great horticulturist;
Bechara Takla Beg, a Syrian Editor of a well-known Arabic newspaper;
A man of the Domains, a very practical native;
Mr. E. W. P. Foster, of the Bengal Irrigation Department, a most careful and pains-taking officer, whose statements are pretty sure to be the result of close inquiry;
Mr. Marshall Hewat, an Engineer of a good many years' residence in Egypt;
Dr. Harvey, of the American Mission, an old resident in Egypt;
Wilson Bey, a shrewd Scotch Mechanical Engineer: he has had many years' experience of Egypt;
Captain R. H. Brown, R. E., of the Bengal Irrigation Department, a careful and accurate man; and
Mr. Arnold Perry, a young English Engineer.

12. Colonel Scott Moncrieff, R. E., Under-Secretary of State, Public Works Department, Egypt, in forwarding the above notes, and in reply to a question of mine, states: "The Nile rises with wonderful regularity in July. In September it is over nearly all the country, attaining its maximum in Cairo about 15th October, after which it goes down very fast, and the inundation is over early in November." It should be noted that from July to November is exactly the period in which the dates swell, color, and ripen, and all those date-trees which happen to be on inundated ground have not only their roots under water, but are surrounded by a damp atmosphere, from the immense sea of water which the Nile makes. I should say during that period, which is the hottest of the year, the atmosphere would be similar to that of the North-Western Provinces of India in the rains, if not generally more damp.

13. In order to avoid repetitions I shall here give only a *résumé* of all the notes received; all say that the *best* dates are produced by trees on dry land, which is irrigable, and sometimes also on trees which are close to the desert; that some of the best kinds of dates are grown on sandy lands, which can be irrigated when required; that those on low lands, to which water has access, are not bad, but they are not so good as the foregoing, and that whether the air and soil are damp or dry makes little difference. In the latter case, they should be irrigated as often as necessary. The trees planted in Rosetta, Aboukir, Ramleh, and Gabbary are all in a damp atmosphere, and bear also good qualities of fruit. Mr. Foster says that "in Rosetta the best kinds are *Zaghloul* (red) and *Samuni* (yellow), cultivated on high sandy hills. The roots are probably in moist soil, as the spring level is high after floods. These, as a rule, are never irrigated. There are, however, lots of dates grown on lower, though sandy soil, which have improved very much in quality since the opening of the Rosetta canal has rendered irrigation easy. The drier the soil with surface irrigation, it appears the better is the produce. In Gizeh, date-trees are on lands subject to flooding on the basin system. Water may remain over the

roots of the tree for 70 days without injury (!) ; a longer period will damage the produce. It is better, however, to reduce the time of inundation. From 20 to 70 days' flooding is *ordinary*. Unless flooded, the outturn of fruit is small, and quality is inferior. Three kinds of dates are grown in Gizeh, the best of which is *Sewi*, a yellow variety ; *Amhat*, a very moist kind, turning from yellow to dark brown when ripe ; and *Hayani*, a red variety. The best dates of Gizeh are grown in yellow clay ; sandy soils and ordinary black Nile deposit do not produce so good a date." Mr. Biancardi says : "I have seen plantations accidentally inundated, with their crop injured. Too much water is not required. We have solitary trees in the middle of the canals. They look healthy, but bear no fruit." He does not, however, mention whether these solitary trees happen to be males or females ; or if the latter, whether the people take the trouble to fertilize them in the midst of the canal ; solitary trees can be found under the most favorable conditions, and still remain fruitless. Dr. Harvey says : "Date trees are sometimes inundated for one to three months, and that the trees are not injured by excess of water ; and that trees on inundated ground produce most and best. On this point, however, some say that there is little difference whether the trees are inundated or not, a dry soil and a dry atmosphere are not essential to the production of a crop of dates."

14. Without taking into consideration the fact that the date-trees in Oudh have undoubtedly produced very fine fruit, it appears to me evident from the replies sent from Egypt that, although a dry climate and soil, even where irrigation is difficult, will perhaps produce the best date, which will dry on the tree, and become the most suited for long keeping and for exportation ; a damp soil and atmosphere —nay, an excess of these conditions—will not only, as a rule, not injure the date-tree, but will produce an edible and valuable crop. There can hardly be any doubt that in the thousands of years during which the date-tree has been associated with man in Egypt, different kinds have come into existence, some of which are suited to a dry soil and atmosphere, and some to conditions which are exaggeratedly the reverse of the above. It is not improbable that some of these Egyptian varieties might be found suited also to the damper climates of India, such as Bombay and Bengal.

15. All the replies say that, usually, there is no such thing as a bunch of dates ripening *all at the same time*. On the driest land and on the borders of the desert, the dates are allowed to remain until the whole bunch is ripe ; but in most places the dates of each bunch are gathered in several pickings, either by hand, or the bunch is shaken over a large net slung under it. They are either eaten as they come ripe off the tree, or dried in the sun, and prepared in various ways. Often the bunches are cut off in their red or yellow stage, and sold in the bazaars. They are eaten by the people, although they are astringent and have no sweetness. When the individual dates on a bunch begin to ripen, the whole is often cut off and hung in the houses of both natives and Europeans. The dates are then picked off and eaten, as they ripen. A kind of jam is made of the unripe fruit, or they are salted and eaten as condiment, and the shrivelled ones are removed from the bunch, to give strength to the remainder.

16. The weight of dates from a full-grown tree is given from 50 to 500 lbs., according to circumstances and the care given to the trees. The life of a date-tree is given from 80 to 100 years, and that it is certain that some trees now standing are between 100 and 200 years old. Their life generally comes to an end by being blown down in a storm. As long as they live, with proper care, they produce abundantly every year.

17. The cultivation of the date tree is very extensive in Egypt, and the crop is immense. Most of the natives live for fully three months both on the unripe and on the dry dates. The dates are cheaper to them than common bread, and the poorer classes keep the date-stones, and use them as fuel. Many uses are made of the trunks, leaves, leaf-stalks, fruit-stalks, and the fibre of date trees. Vinegar and spirit are made from the fruit. The trees which are most cared for give the largest and best crops. Pigeon-dung is largely used for manuring date-trees, so are horse and other manures utilized. Dust from old villages is also used. I fancy this corresponds to the *nona* of Indian cultivators. It is probably a compound of *nitrate of potash*. Manure is mostly used in Lower Egypt. In Upper Egypt, the tilling of the soil between the date trees is supposed to supply the necessary aliment. A hundred date-palms are said to require the labour of *one* man for three months a year. The lower decayed leaves are removed once a year.

18. The practical native, employed on the Domains, gives the following names of distinct kinds : Hayani, A'rabiate, Kababi, Bind Eysha, Zanar, Sergni, Rawaked, Samuni, Zaghlaul, Chetich, O'm Nasreddin, A'layly, Amri, Chihayet, A'koula, Mokarba, Bemeri, Zokour, Boimaghal, Abrimi, Sokant, Hafer-el-Gnedi, Bezelnaka, Sobazenab, Gandila, Khodrawy, El Siwy, El Wahy, and others. The best

of these, however, are Zaghlaul, El Amri, El Sokaut, El Gandila, El Khodrawy, El Abrimi, and El Siwy. Mr. Biancardi says the best varieties are Ghazali, Hayani, Amri, Aklawi, Beyd-el-Gamal, Bint Eysha and Eglani. While Wilson Bey, the Scotch Mechanical Engineer, says the best of all is the *Amhat*, a small brown date grown at Gizeh, on sandy soil, which is not inundated. Then comes the *Amri*, a fine large date, black when ripe. When ripe, it bears transport to the Levant, Greece and other parts of Europe. It grows in Shirkieh, Fakoos, Salhieh, and Abu-Kebir. *Samuni*, a large yellow date when ripe. It grows in sandy soil about Rosetta, and is not inundated. *Zaghlaul*, a fine rich date, sometimes plucked and eaten in its red and unripe state. It is also grown on sandy soil near Rosetta. The following he gives as inferior dates, *viz.*: *Hyani*, a coarse date, often eaten unripe and red. It grows on clayey soil, in the Calioubieh. It is sometimes inundated. *Bint Eysha*, a small date, known all over the lower country, and grown in artificially-irrigated districts. *Aglani*, grown on clayey soil and irrigated parts of the Shirkieh.

19. Mr. Biancardi, who is not only a practical man of business, but also a horticulturist, gives the following details in his notes, which may be of some value: "The young trees should be obtained from Abuhammed, Oren, or Salhieh, detached from the parent tree. They generally stand from four to five feet high, and are about three years old. They are wrapped up in palm-tree fibre, and transplanted in January and February. They would stand the voyage to Bombay well. They would only require the envelope over their roots damped once a day. On arrival at destination they should be planted in deep holes, one for each, up to their bottom leaf. The tree is then to be wrapped up in old matting, and watered every day for 40 consecutive days, and then on alternate days, till four months are over. The roots are then supposed to be long enough to feed themselves, and the trees are then treated like any other fruit-tree. Such a thing as a full-grown tree dying for want of water is not known. A *nakhal* or two (date tree cultivators) should be engaged to go with them, and carry out the process. They would teach the Indians in two or three years how to deal with these trees. In about five years 20,000 Egyptian trees, treated as explained, would yield £10,000 a year (according to Egyptian reckoning). The cost of 20,000, at a shilling each, would be £1,000. Their total weight would be 1,000 tons. They could reach India and be planted for the amount of £3,000 all told. They would require 200 acres of waste and poor land, which might be purchased for a small sum. Taking into consideration the four or five years which will have to elapse before they fruit, and the interest on the capital engaged, the total amount expended before the first crop would probably reach £6,000. Admitting that half the trees would die, or be fruitless, the other 10,000, producing half crop only, would represent £5,000 revenue for the first year. The first crops of a date tree are not large. Some give one and some two bunches the first year. The number of bunches continue to increase till the trees reach the age of 15 years, when they will give as many as 10 to 12 bunches." Mr. Biancardi may have added that, with care, a date-tree will go on producing this amount *annually* for 100 years or more.

20. No one probably is going to try date-planting in India on this scale; but it is not improbable that some of the Rájputána Chiefs, or His Highness the Nizam of Hyderabad, might be inclined to try the experiment on a small scale, and engage a couple of Egyptians to accompany the young trees, and treat them as they do in Egypt. Sir R. Temple, in his "Journals of Hyderabad," says: "Below the Manjhera Valley, and between the rivers Manjhera, Bhima and Kristna, lies the most important part of the Nizam's Dekkan. This area comprises marked variations of contour, soil, and climate, and is either studded with hills or else literally fluctuates with undulations. The eastern portion is dotted over with artificial lakes or reservoirs, constructed by the Hindu dynasties, and known as tanks. Indeed it is the finest scene of tank irrigation in all India, and it is here that the Pakhal lake is situated, which is probably the largest sheet of water in the Peninsula." He goes on to say: "Geologically speaking, it may be said in general terms that in the north and west blackish trap and dark heavy soils prevail; while in the remainder, that is, the south-east portion, reddish granite and laterite rocks and lighter soils prevail. These geological divisions affect the agriculture and produce in the most marked manner, for in the black soils are raised cotton and wheat, while the red soils produce the spring and autumn harvests of rice, dependent entirely on 'tank' irrigation. Hence it is that even in this land of 'tanks,' the light soil districts are *par excellence* those of the artificial lakes." According to the above description, the Nizam's territories would appear to be cut out by nature for the successful growth of the Egyptian date-tree on a large scale. After the trees had taken root, the tank-water infiltration would afford them the sub-soil moisture they delight in; while growing both cotton and wheat might be grown between the young date-trees, and when fully grown, oranges, lemons, and fig-trees, &c., might be grown under their shade, as is done in Tunis. From what I saw of the Nizam's territory, I believe that in that fertile soil where water would be available, many of the European fruit trees might be successfully

grown, and with regard to date-trees, not only those grown in Egypt on the higher land might succeed, but also those grown on lower lands, and would in time feed the people of the Dekkan for several months in the year.

21. In all my researches about the date-trees, I have endeavoured to combat and get rid of the exploded notion that, unlike many others, the date-tree is a fixed and unchangeable organism, as fixed as the notion books and people have got of it. Actual facts, however, show that within certain limits it has adapted itself in course of time to its surroundings in Egypt and other places. From a tree luxuriating in a desert climate, it has suited itself to soils subject to inundation, for several months; to the vicinity of the sea, to saline soils, &c.; in some localities producing the finest dates; in others inferior ones; but *everywhere* feeding the people and their cattle. We need not go very far to search for a plant that has been far more yielding to circumstances than this. The rice-plant is admittedly a tropical plant largely grown in Burma, Ceylon, South India, and Bengal. Nevertheless, out of the hundred and more varieties of rice, some have adapted themselves to the climate of Northern India, as far as Peshawar to that of the valleys of the interior of the Himalayan mountains; to that of Afghanistan, Italy, America and others; and no doubt that among the hundred and more varieties of date-trees some are suited to a dry, some to a moist climate; others to a sandy, a clayey, or a saline soil, &c.

22. The date crop in Egypt ripens in September; and in case the Government of India should think fit to import some Egyptian seeds of the best varieties, I beg to add the following information given also in Colonel Scott Moncrieff's letter: "In order to have seeds sent out on really a large scale to India, I should think it would be best to act through Government. If Sir Evelyn Baring were asked officially, I should think he would place the matter in the hands of Mr. J. R. Gibson (formerly Bombay Revenue Survey), Commissioner of the State Domains, and Mr. Hamilton Lang, C. M. G., Controller of the Daira Sanieh. Either of these officers is in a position to get any quantity of date-seeds. There would be some little expenditure of course, or it might be done by the Government of India through some good merchant-house, like that of Messrs. Carver & Co., of Alexandria, well-known and highly-respected export merchants."

23. Besides the Oudh date-trees, fruiting palms are to be found in India in various places by ones and twos, originally introduced from Mecca and other places in Arabia. A few scattered trees here and there, however, are not sufficient to induce any one to set about cultivating the date-tree in a proper methodical manner. A few Egyptian and Persian date cultivators might do much towards teaching the natives of India how to set about this culture, so well understood in those places. That it is possible to introduce this important tree in India on a large scale, and that it will be of great benefit to the people, I have no doubt. Moreover, Mr. Thiselton Dyer, the Director of the Royal Gardens, Kew, in a letter dated 15th November 1886, says: "I am sure this enterprise is a sound one." In conclusion, whatever may be the value of the date-produce in India in ordinary times, there is, I think, no question that, in famine times, a crop of dates would be a certainty.

From—SIR R. H. MEADE, *Under-Secretary of State for the Colonies,*

To—The Under-Secretary of State for India.

WITH reference to the letter from this Department of the 19th instant, I am directed by Secretary Sir H. Holland to acquaint you, for the information of Viscount Cross, that Her Majesty has decided to issue a Royal Commission for the Melbourne Centennial Exhibition, 1888, and I am to suggest, for His Lordship's consideration, that in bringing the proposed Exhibition to the notice of the Indian Government, the appointment of the Commission should be mentioned.

Dated India Office, London, the 16th June 1887.

From—J. A. GODLEY, ESQ., *Under-Secretary of State for India,*

To—The Under-Secretary of State for the Colonies.

I AM directed by the Secretary of State for India in Council to acknowledge the receipt of your letters of the 19th and 21st ultimo, forwarding 50 copies of the Prospectus of the proposed Melbourne Centennial Exhibition of 1888, for transmission to the Government of India, and informing Viscount Cross that a Royal Commission will be issued for the Exhibition, and I am to inform you in reply that a copy of your letters and enclosures has been forwarded to the Government of India for such action in the matter as they may deem advisable.

GREETING :

Whereas it is deemed advisable to hold an International Exhibition of Works of Industry and Art, at Melbourne, in the year of our Lord One thousand eight hundred and eighty-eight, in commemoration of the centenary of the founding of the first Colony of Australia, to be called "The Centennial International Exhibition, Melbourne, 1888 :" Know ye that by the power and authority vested in me by the Act numbered four hundred and twenty-two, I, the Governor of the said Colony, with the advice of the Executive Council thereof, relying on your loyalty, integrity, learning and ability, have constituted and appointed and by these presents do constitute and appoint you the said George Higinbotham, Sir James MacBain, Peter Lalor, Sir William John Clarke, Frederick Thomas Sargood, James Munro,

William Mountford Kinsey Vale, Joseph Bosisto, Robert Murray Smith, William Cain, Thomas Houlden Thompson, Patrick Hayes, Lambton L. Mount, William Trenwith, John Blyth, and Henry Byron Moore, to be Commissioners to take measures for the holding of such International Exhibition, and to carry out and superintend such Exhibition; and for the erecting, altering and maintaining of suitable grounds and buildings for the purposes of such Exhibition; you keeping the entire control and management thereof until otherwise determined, and for appointing and regulating the charges for admission to such buildings, premises, or grounds, or the rent or hire of any part thereof or otherwise, and the application of the proceeds towards the objects and the expenses of the said Exhibition; and for appointing the purposes of public enjoyment and entertainment for which such buildings, premises, and grounds, or any part thereof, may be used and applied; and for obtaining such exhibits as may, in your judgment, be necessary to illustrate the progress of industry and art elsewhere; and for securing the most effective display of all articles sent for public exhibition, their safe custody, their due return to their owners, or their disposal otherwise, as may be arranged; and for determining as to the nature, number, and value of the prizes to be awarded to the exhibitors and the impartial distribution thereof; and generally to do and execute all other matters and things whatsoever deemed necessary by you for the full accomplishment of the duties entrusted to you by this Commission: And further I do hereby with the advice aforesaid, constitute and appoint you the said George Higinbotham to be President, and you the said Sir James MacBain, Peter Lalor, Sir William John Clarke, and Frederick Thomas Sargood, to be the Vice-Presidents of the Commission: And do further constitute and appoint you the said Commissioners to be also the Executive Commissioners for the said Exhibition: And for your assistance in the due execution of this Commission I do hereby appoint George Theodore Adams Lavater, Esquire, to be Secretary to this Commission: And lastly, with the advice aforesaid, I do, by these presents, ordain that this Commission shall continue in full force and virtue until otherwise determined; and that you, the said Commissioners, or any five or more of you, shall and may from time to time, and at any place or places, proceed in the execution thereof, and of every matter and thing therein contained, although your proceedings may not be continued from time to time by adjournment.

Given under my Hand and the Seal of the Colony, at Melbourne, in the said Colony, this sixth day of January, in the year of our Lord One thousand eight hundred and eighty-seven, and in the fiftieth year of Her Majesty's reign.

The Government of Victoria having determined to hold an Exhibition of Arts, Manufactures, Agricultural and Industrial Processes and Products of all nations during the year 1888, to celebrate the Centenary of the founding of New South Wales, the first Australian Colony, His Excellency Sir Henry Brougham Loch, Knight Commander of the Most Honourable Order of the Bath, Governor and Commander-in-Chief in and over the Colony of Victoria and its Dependencies, &c., &c., did, on the sixth day of January 1887, by and with advice of the Executive Council, issue under the Seal of the Colony of Victoria a Commission authorizing measures to be taken for the holding of such Exhibition, and for the carrying out and superintending of the same.

In accordance with the powers vested in them by the aforesaid Commission, the Executive Commissioners have decided to open the

CENTENNIAL INTERNATIONAL EXHIBITION, MELBOURNE, 1888,

on the first day of August 1888, the said Exhibition to be kept open for six months, and closed on the thirty-first day of January 1889.

The Exhibition will be held in buildings which have been specially erected for Exhibition purposes, situated in the Carlton Gardens, in the City of Melbourne, and in such other buildings and grounds attached thereto as may be found to be required; and it is intended that the Exhibition shall be open in the evening as well as during the day.

Acting under the powers conferred upon them, the Commissioners desire to invite the British, Foreign and Colonial Governments to take part in this Exhibition, and they trust that steps will be at once taken for the display of complete and thoroughly representative exhibits from every country and colony.

During the year 1885, Australasia, with a population of 3,500,000, imported from Great Britain goods to the amount of £ 32,000,000. The United States, France, and Germany, whose combined populations number 133,000,000, imported during the same period from Great Britain to the amount of £ 53,000,000. Calculated at per head of the population, Australasia therefore imported nearly 23 times as much as the abovenamed countries combined; and this in addition to a large and increasing trade with other countries.

The mileage length of railways opened for traffic in the Australasian colonies amounts to 7,700 miles; and when the lines further authorized and now in course of construction are completed, they will reach a total length of 10,000 miles.

Already the capital cities of South Australia, New South Wales, and Victoria are connected by railway; the distance from Adelaide to Sydney, *viâ* Melbourne, being 1,100 miles. Between Sydney and Brisbane, the capital city of Queensland, a further distance of 710 miles, there remain only about 100 miles of railway to be constructed to connect the capitals of the four principal colonies; and as the construction of this portion is now being rapidly proceeded with, there will soon be uninterrupted communication between Adelaide, Melbourne, Sydney, and Brisbane, a distance of 1,800 miles.

In view of the remarkable growth of Australasia in all things relating to population, production, and general distribution of wealth amongst all classes, the facilities for rapid, economical, and easy transit, and its many other advantages, the Commissioners confidently invite all desirous of extending their commercial relations with these rapidly-extending communities to exhibit the fullest and most complete representations of their Raw Products, Skilled Industries, and Arts, at the Centennial International Exhibition, Melbourne, 1888.

Applications for Space.

1. Governments intending to take part in this Exhibition are requested to forward an intimation to that effect not later than the 31st August 1887.

2. Applications for space, with full particulars, are invited as early as possible. Copies of the official form of entry can be obtained upon application to the Secretary to the Commissioners, through the representatives of the country or colony to which the applicants belong. In the event of no representatives being appointed by the country or colony to which an intending exhibitor belongs, he can

communicate direct with the Secretary. Applications for space should be made not later than the 31st August 1887. Space assigned to countries and colonies and not occupied on the 30th June 1888, will revert to the Executive Commissioners, and will be subject to re-arrangement. Space will not be charged for, but power will be reserved by the Executive Commissioners to reduce the space allotted to any Government or any exhibitor, should they deem fit, at any time.

3. British, Foreign and Colonial Governments, or Commissioners appointed by them, are requested to inform the Executive Commissioners, Melbourne, not later than the 31st December 1887, whether they require any increase or diminution of the space offered them, and the quantity. They are also requested to state whether there will be any exhibits for which special space should be provided, together with a description showing their nature and bulk.

4. Before the 31st May 1888, the representatives of countries or colonies should furnish, for the approval of the Executive Commissioners, approximate plans, showing the manner in which they propose to allot the space assigned to them, together with lists of their exhibitors, and any other information necessary for the compilation of the official Catalogue. (*Vide* No. 13.)

Shipment of Exhibits.

5. Commissioners representing countries or colonies, and private exhibitors whose countries are not officially represented, but to whom space has been allotted, may adopt one of two courses, *viz* :—

(*a*) They can ship their exhibits direct to Melbourne, and make their own arrangements for their shipment, reception, and exhibition ;

(*b*) Or consign their exhibits, freight and expenses prepaid, to

The Secretary,

Centennial International Exhibition, 1888,

Melbourne, Australia,

with specific instructions as to what is desired. Where it is found necessary to incur expenses on exhibits consigned to the Secretary, such expenses will be a first charge on such exhibits.

Marks and Address on Packages.

6. Packages forwarded from countries and colonies represented at the Exhibition should be addressed—

To the Commissioner for

Centennial International Exhibition, 1888,

Melbourne, Victoria,

Australia,

and the following information must be written on the outside of each package :—(1) The country from which the package comes. (2) Name or firm of exhibitor. (3) Address of the exhibitor. (4) Group and class to which exhibits belong. (5) Total number of packages sent by same exhibitor. (6) Serial number of that particular package. Each package must contain a list of contents.

Packages containing goods intended for the Exhibition must likewise have painted on them, as a distinctive mark, the following letters and figures within a triangle, thus :—

C. I. E. M.
1888.

Packages from foreign countries must also be marked with the colours and devices of their national flag. Foreign Commissioners are particularly requested to send to the Executive Commissioners, Melbourne, as soon as possible, a specification of the packages forwarded, with their distinguishing marks.

Customs Duties, Entries, &c.

7. Exhibits will be admitted free of duty for the purpose of exhibition. Customs entries, transportation, receiving, unpacking, and arranging the products for exhibition must be undertaken by the exhibitor, at his own expense.

Transport.

8. No charge will be made for carriage of goods intended for exhibition over the railway lines.

Arrangements will be made by which all goods intended for exhibition can be carted from the wharves, or the several railway stations, to the Exhibition Grounds at a fixed scale of charges.

Removal of Goods.

9. The removal of goods, except under special circumstances, will not be permitted during the period the Exhibition is open. Delivery of exhibits sold will not be allowed until after the close of the Exhibition. Special permits for the sale and delivery of goods and articles manufactured in and during the progress of the Exhibition may be given by the Executive Commissioners, should they deem fit.

Protection to Inventors and others.

10. The protection of inventions capable of being patented, and of designs, is secured by the patent laws of Victoria. No work of art, nor any article whatever, exhibited in the buildings, parks, or gardens may be drawn, copied, or reproduced in any manner whatsoever, without the permission of the exhibitor. The Executive Commissioners reserve to themselves the right of authorizing the production of general views.

Sketches, drawings, photographs, or other reproductions of articles exhibited, will only be allowed upon the consent of the exhibitor and the approval of the Executive Commissioners; but views of portions of the building may be taken upon the sanction of the Executive Commissioners alone.

Goods requiring Special Work or Accommodation.

11. The placing and fixing of heavy articles, requiring extra foundations or adjustment, should begin by special arrangement as soon as the progress of the work upon the Exhibition Buildings will permit. The general reception of articles in the Exhibition Buildings will commence on the 1st May, 1888, and no articles will be admitted after the 15th July 1888. The plans for the display and accommodation of objects that require either special arrangements or exceptional works for their display must receive the approval of the Executive Commissioners before work is commenced, and all such works must be carried out under the supervision of their officers. The works of general fitting-up must be commenced not later than the 1st June 1888, and the Courts must be ready to receive goods before the 1st May 1888.

The Executive Commissioners, if they deem fit, will grant permission for the erection of approved special constructions in the buildings or grounds, at the cost of the exhibitor.

Exhibits not for competition.

12. If exhibits are not intended for competition, it must be so stated by the exhibitor, and they will be excluded from examination by the Jurors.

Official Catalogue.

13. An Official Catalogue will be published in English by the Executive Commissioners, by whom the sale of Catalogues is reserved. Anything beyond the ordinary description of the exhibit, together with the name of the exhibitor, must be paid for at the rate of five shillings per line. Exhibitors desiring to utilize the Catalogue for advertising purposes should communicate as early as possible on the subject with the Secretary. Each country and colony will, however, have the right of producing at its own expense, but in its own language only, a special Catalogue of the objects exhibited in its section. Such Catalogue, however, must not be offered for sale in this Colony, or be used as a medium for advertising.

633

Grouping Exhibits.

14. The representatives of countries and colonies will be allowed to group their exhibits as they may think fit in that portion of the Exhibition Buildings allotted to the country or colony which they represent. The Executive Commissioners desire, however, that where International Courts can be formed, special classes of exhibits of all nations, and of the same character, shall be exhibited together. Victorian exhibits will be grouped in classes, irrespective of districts.

15. Exhibits from any country or colony whose Government is not represented must be classified according to the following groups. The same direction will be followed in the Catalogue :—

1. Works of art.
2. Education and instruction—Apparatus and processes of the liberal arts.
3. Furniture and accessories.
4. Fictile manufactures, glass, pottery, &c.
5. Textile fabrics, clothing, and accessories.
6. Raw and manufactured processes and products.
7. Machinery—Apparatus and processes used in the mechanical industries.
8. Alimentary products.
9. Sanitation, medicine, hygiene, and public relief.
10. Agriculture and associated industries.
11. Horticulture.
12. Mining industries—Machinery, processes, and products.

Any expenses incurred by the Executive Commissioners in the display and exhibition of these goods will be made a first charge upon such goods.

Each of these groups is divided into classes, according to the system of general classification annexed to these regulations, in an Appendix, which includes for each class an enumeration of the nature of the objects which it will comprise.

Motive Power for Exhibits.

16. Motive power will be supplied to suitable exhibits free on application to the Executive Commissioners, but the latter reserve to themselves the power to reduce the amount asked for, or to make a charge for a certain portion of the motive power supplied, if they consider necessary. The Executive Commissioners desire to encourage the display of machinery in motion, and of all descriptions of manufactures, &c., in progress, and they will endeavour to provide adequate power to meet all reasonable demands. By the introduction of steam power, it is proposed to afford facilities for presenting not only the machinery for any given manufactures, but also the processes of manufactures. Requests for motive power must be made to the Executive Commissioners prior to 31st March 1888.

17. All shafting, pulleys, belting, connections, &c., for the transmission of power from the main shafting must be provided by, and at the cost of, the exhibitor.

18. It is further intended that space shall be afforded for the production of interesting objects by manual labour.

Fittings, &c.

19. Exhibitors must provide at their own cost all show-cases, shelving, counters, fittings, &c., which they may require.

Right to reject Exhibits.

20. The Executive Commissioners reserve the right of rejecting or returning any proposed exhibit. Articles that are in any way dangerous or offensive or injurious to public decency and morality will not be admitted into, or allowed to be exhibited in, the Exhibition.

634

Works of Art.

21. The following special regulations are framed for the reception and admission of works of art. The works admissible include the five classes mentioned below :—

1. Paintings.
2. Drawings, water-colours, crayon drawings, miniatures, enamels, porcelain, designs in glass and clay, designs for stained-glass windows, and mosaic work.
3. Sculpture and die-sinking, and engraving on precious stones.
4. Architectural and engineering drawings and models.
5. Engraving and lithography.

The following are excluded :—

1. Unframed pictures or drawings.
2. Sculpture in unbaked clay.

The duty of deciding upon the admission of works of art will devolve upon a special committee. Suitable space, which will be lighted by electricity, will be reserved for the exhibition of paintings. Other regulations will give information as to the despatch and reception of works of art.

Fire, Accidents, &c.

22. The Executive Commissioners will take precautions for the safe preservation of all objects in the Exhibition, but will be in no way responsible for damage or loss of any kind, or accidents by fire or otherwise, however caused. In order, however, to reduce the danger of fire to a minimum, a special fire brigrade will be formed, and be available, in connection with the Exhibition, from the time of the reception of exhibits to its close.

Insurance, &c.

23. Facilities will be afforded the representatives of countries and colonies, and private exhibitors, for insuring their goods ; and they may also employ watchmen, at their own expense, to guard their goods during the hours the Exhibition is open to the public. The appointment of such watchmen will be subject to the approval of the Executive Commissioners. These persons must wear a special dress or distinctive badge.

Awards.

24. The following is the system under which the awards will be made : —

The awards will be based upon written reports adopted by the Jurors.

The Jurors will be selected for their qualifications and character, and shall be experts in the departments to which they are especially assigned ; the British, Foreign, and Colonial Jurors shall be nominated by the representatives of each country or colony exhibiting, and, if approved of, will be appointed by the Executive Commissioners, who will appoint those for Victoria.

Jurors will be reimbursed such personal expenses as may be allowed by the Executive Commissioners.

The Jurors' reports and the Executive Commissioners' awards will be based upon the inherent and comparative merits of the individual exhibits, the elements of merit being held to include considerations relating to originality, invention, discovery, utility, quality, skill, workmanship, fitness for the purposes intended, adaptation to public wants, economy, cost, and importance of interests involved.

Each report must be delivered to the Secretary to the Executive Commissioners as soon as completed.

Awards will consist of gold, silver, and bronze medals, and certificates of honourable mention, together with a special report of the Jurors on the subject of the award. A certificate will accompany each medal.

Each exhibitor shall have the right to produce and publish the report awarded to him, but the Executive Commissioners reserve the right to publish and dispose of all reports in any manner they may think best for public information.

25. Immediately after the close of the Exhibition, exhibitors or their duly appointed agents shall remove their effects, and complete such removal by the 31st March 1889. Goods then remaining will be removed by the orders of the Executive Commissioners, and sold by auction or otherwise disposed of under the direction of the Executive Commissioners, and the net proceeds handed to the exhibitors or their duly appointed agents.

26. Every person who becomes an exhibitor thereby acknowledges, and undertakes to observe, the rules and regulations established from time to time for the Government of the Exhibition.

27. The Executive Commissioners reserve the right to alter, explain, amend, or add to these regulations, at any time, whatever may be deemed necessary.

Information upon any question of details can be obtained upon application to

THE AGENT-GENERAL FOR VICTORIA,

REGULATIONS

Concerning the Despatch, Reception, Arrangement, and Return of the Goods Exhibited, and Disposal of Space.

1. Every person admitted as an exhibitor will receive, in Melbourne, and with the least possible delay, an exhibitor's ticket showing his rotation number and the dimensions of the space allotted to him.

He will receive at the same time printed labels to be affixed to the packages he may send to the Exhibition.

2. The labels supplied to exhibitors will be printed on paper of different colours, according to the group to which the products to be exhibited may belong.

The conventional colours adopted are as follows :—

Group	1.	(Works of art)	Pink.
,,	2.	(Education and instruction, apparatus and processes of the liberal arts)	White.
,,	3.	(Furniture and accessories)	Blue.
,,	4.	(Fictile manufactures, glass, pottery, etc.)	Buff.
,,	5.	(Textile fabrics, clothing and accessories)	Bright-yellow.
,,	6.	(Raw and manufactured processes and products) ..	Brown.
,,	7.	(Apparatus and processes used in the mechanical industries).	Red.
,,	8.	(Alimentary products)	Violet.
,,	9.	(Sanitation, medicine, hygiene, and public relief) ..	Black.
,,	10.	(Agriculture and associated industries) . .	Dark-green.
,,	11.	(Horticulture)	Light-green.
,,	12.	(Mining industries—Machinery, processes and products) ..	Grey.

636

3. The Commissioners place at the disposal of countries and colonies all information and plans which may be useful for their arrangements.

4. Exchanges of space cannot be made without the consent of the Executive Commissioners.

5. Exhibitors will not have to pay rent for the space occupied by them in the Exhibition. The flooring will be provided in sound condition and ready for use within the whole of the main building ; but the flooring must not be altered, removed, or strengthened, for the exhibition of machinery, convenience of arrangement, or any other purpose, except with the consent of the executive Commissioners, and at the expense of the exhibitors.

6. The spaces reserved outside the exhibition allotments being strictly calculated with a view to the necessities of circulation, packages and empty cases will not be allowed to remain there.

Cases must, therefore, be unpacked as early as possible after their reception, and the empty cases at once taken away by the exhibitors or their agents.

Should the exhibitors neglect to carry out in the manner thus indicated the unpacking of the goods and the removal of the empty cases, the work will be undertaken by the Executive Commissioners, but in no case will the Commissioners incur any responsibility whatsoever in the execution of this duty. The Commissioners will have nothing to do with the warehousing and preservation of the empty cases ; neither have any arrangements been made, nor any space reserved, for the purpose. Exhibitors who may be unable to provide for the removal and preservation and their empty cases are advised to communicate with the Secretary.

General Arrangements.

7. Certain products, which it may be found impossible to display in the main buildings, will, in some exceptional cases, be exhibited in the surrounding parks and gardens, in buildings erected for the purpose.

8. With regard to the Victorian section, the Commissioners will place themselves in communication with the committees established in each locality. The duties of these Committees will be—

(1) to make known the rules concerning the Exhibition, and to distribute the forms of application for space, as well as all other documents relating to the Exhibition ;

(2) to point out as soon as possible the principal artists, agriculturists and manufacturers whose exhibits would appear to be particularly calculated to promote the success of the undertaking ;

(3) to encourage the exhibition of the manufactures, and of the mineral, pastoral, agricultural, and horticultural products of the district, and to accredit to the Commissioners the delegate charged with their representation.

9. Spirits or alcohol, oils and essences, corrosive substances and generally all substances which might spoil other articles or inconvenience the public, can only be received in solid and suitable vessels of small size.

Percussion caps, fireworks, chemical matches, and similar articles, can only be received when made in imitation, and deprived of all inflammable ingredients.

10. Exhibitors of objects of a disagreeable nature, or such as may be prejudicial to health, will be bound at all times to conform to such precautionary measures as may be considered necessary.

11. The Commissioners reserve the absolute right to cause the removal of any article whatever, if, on account of its nature or appearance, they deem it advisable to do so.

12. All goods must be exhibited under the name of the person who has signed the application for admission.

13. Exhibitors are entitled to insert after their name or that of their firm the names of their assistants of every class and grade who may have taken part in the production of the goods exhibited.

14. Exhibitors are particularly requested to mark the trade price of the articles exhibited, so as to facilitate the judgment of the Jury as well as for the information of visitors.

15. Persons desirous of exhibiting articles not mentioned in the General Classification may apply to the Executive Commissioners.

Administration.

16. A general supervision will be established for the prevention of robbery and embezzlement.

17. It must be distinctly understood that the Commissioners decline all responsibility for any theft or embezzlements which may be committed.

18. In the Victorian section, the exhibitors of each class must arrange among themselves as to the organization of a staff of attendants independent of the general supervision established by the Commissioners. Private agents of this description must be approved by the Commissioners, and must wear badges bearing the number of the class to which they will be attached.

19. All communications relating to the Exhibition must be addressed—

No. 15-7B—16 (External), dated Simla, the 5th September 1887.

FROM—W. R. LAWRENCE, ESQ., C. S., Under-Secretary to the Government of India, Revenue and Agricultural Department,

To—Local Governments and Administrations.

IN continuation of the Circular Resolution recorded by the Revenue and Agricultural Department No. 12-7B-12 External, dated the 22nd July 1887, with which was forwarded, for publication in the Local Gazette, a copy of the papers received with the despatch* from Her Majesty's Secretary of State for India, on the International Centennial Exhibition which it is proposed to hold at Melbourne in 1888, I am directed to request that you will take such measures to make the project known to mercantile communities and others concerned as you may consider will be effectual and sufficient.

* No. 64-S. and C., dated the 16th June 1887.

2. I am to add that the Government of India does not intend to assume any official position at the Exhibition.

638.

No. 128, dated Bombay, 20th August 1887.

From—PETY DE THOZEE, Esq., Consul-General for Belgium in British India,
To—The Secretary to the Government of India, Revenue and Agricultural Department, Simla.

I HAVE been directed by the King's Government to invite the official co-operation of the Government of India in an International Exhibition which is to be held in Brussels in May 1888, and which will differ from all such previous exhibitions in that the various scientific and industrial inventions, procedures and manufactures will be specially examined from a practical point of view and prizes awarded.

As you will see by the documents which I have the honour to send you with this letter, this private undertaking is patronized by His Majesty the King of the Belgians; and the Committee of Management, which has been appointed by Government, has for its honorary President His Royal Highness the Count of Flanders, the Managing President being His Excellency the Minister of Agriculture, Industry and Public Works. Count Ad. d'Oultremont, Commissioner General of the Government, will with the Belgian Consul-General, Mr. Charles Pecher, Director of the Foreign Section, attend to the wants of the Delegates in charge of the Foreign Courts.

The chief object of this double undertaking is not only to promote the commercial intercourse between Belgium and other and distant countries, but also to guide the spirit for investigation and improvement in the direction of better and cheaper methods of production.

At the same time special sections will be set apart for international exhibits of imports and exports.

My Government is anxious to secure the support of the Government of His Excellency the Viceroy, and will be much obliged for any assistance that you may be willing to give us in this matter.

Hoping that with such assistance the contributions from India will be very valuable and worthy of the rich, special and varied industries of the country, which are unfortunately too little known on the European continent.
